October 27, 2014

To Whom It May Concern:

Submitted herewith is a Class II Permissive Change for **FCC ID: A3LSGHI257** for the purpose of adding HAC T-coil evaluation of the LTE air interface for the **VOLTE capabilities** per the manufacturer's change description.

The hardware has not changed from that submitted in the original filing. Therefore, only the VOLTE RF Emissions and T-coil test reports are submitted along with the original Non-VOLTE HAC Test reports to support the full HAC Rating stated in the grant.

Should you have any questions or concerns, feel free to contact us.

Sincerely,

Justin Chao  
HAC Project Manager
