**Note: READ THIS INFORMATION BEFORE
USING YOUR MOBILE DEVICE.**

Samsung Limited Warranty - This product is covered under the applicable Samsung Limited Warranty **including its dispute resolution procedure.**

WARNING! This product contains chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, please call 1-800-SAMSUNG (726-7864).

Intellectual Property

All Intellectual Property, as defined below, owned by or which is otherwise the property of Samsung or its respective suppliers relating to the SAMSUNG Phone, including but not limited to, accessories, parts, or software relating thereto (the "Phone System"), is proprietary to Samsung and protected under federal laws, state laws, and international treaty provisions.

Intellectual Property includes, but is not limited to, inventions (patentable or unpatentable), patents, trade secrets, copyrights, software, computer programs, and related documentation and other works of authorship. You may not infringe or otherwise violate the rights secured by the Intellectual Property. Moreover, you agree that you will not (and will not attempt to) modify, prepare derivative works of, reverse engineer, decompile, disassemble, or otherwise attempt to create source code from the software. No title to or ownership in the Intellectual Property is transferred to you. All applicable rights of the Intellectual Property shall remain with SAMSUNG and its suppliers.

Open Source Software

Some software components of this product, including but not limited to 'PowerTOP' and 'e2fsprogs', incorporate source code covered under GNU General Public License (GPL), GNU Lesser General Public License (LGPL), OpenSSL License, BSD License and other open source licenses. To obtain the source code covered under the open source licenses, please visit:

Disclaimer of Warranties; Exclusion of Liability

EXCEPT AS SET FORTH IN THE EXPRESS WARRANTY CONTAINED ON THE WARRANTY PAGE ENCLOSED WITH THE PRODUCT, THE PURCHASER TAKES THE PRODUCT "AS IS", AND SAMSUNG MAKES NO EXPRESS OR IMPLIED WARRANTY OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT, INCLUDING BUT NOT LIMITED TO THE MERCHANTABILITY OF THE PRODUCT OR ITS FITNESS FOR ANY PARTICULAR PURPOSE OR USE; THE DESIGN, CONDITION OR QUALITY OF THE PRODUCT; THE PERFORMANCE OF THE PRODUCT; THE WORKMANSHIP OF THE PRODUCT OR THE COMPONENTS CONTAINED THEREIN; OR COMPLIANCE OF THE PRODUCT WITH THE REQUIREMENTS OF ANY LAW, RULE, SPECIFICATION OR CONTRACT PERTAINING THERETO. NOTHING CONTAINED IN THE INSTRUCTION MANUAL SHALL BE CONSTRUED TO CREATE AN EXPRESS OR IMPLIED WARRANTY OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT. IN

ADDITION, SAMSUNG SHALL NOT BE LIABLE FOR ANY DAMAGES OF ANY KIND RESULTING FROM THE PURCHASE OR USE OF THE PRODUCT OR ARISING FROM THE BREACH OF THE EXPRESS WARRANTY, INCLUDING INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, OR LOSS OF ANTICIPATED PROFITS OR BENEFITS.

Modification of Software

SAMSUNG IS NOT LIABLE FOR PERFORMANCE ISSUES OR INCOMPATIBILITIES CAUSED BY YOUR EDITING OF REGISTRY SETTINGS, OR YOUR MODIFICATION OF OPERATING SYSTEM SOFTWARE.

USING CUSTOM OPERATING SYSTEM SOFTWARE MAY CAUSE YOUR DEVICE AND APPLICATIONS TO WORK IMPROPERLY. YOUR CARRIER MAY NOT PERMIT USERS TO DOWNLOAD CERTAIN SOFTWARE, SUCH AS CUSTOM OS.

IF YOUR CARRIER PROHIBITS THIS, IF YOU ATTEMPT TO DOWNLOAD SOFTWARE ONTO THE DEVICE WITHOUT AUTHORIZATION, YOU WILL BE NOTIFIED ON THE SCREEN THAT THE DEVICE WILL NO LONGER OPERATE AND BE INSTRUCTED TO POWER DOWN THE

DEVICE. YOU MUST THEN CONTACT
YOUR CARRIER TO RESTORE THE DEVICE
TO THE CARRIER AUTHORIZED
SETTINGS.

Section 1: Health and Safety Information

This section outlines the safety precautions associated with using your phone. The terms “mobile device” or “cell phone” are used in this section to refer to your phone. **Read this information before using your mobile device.**

Exposure to Radio Frequency (RF) Signals

The U.S. Food and Drug Administration (FDA) has published information for consumers relating to Radio Frequency (RF) exposure from wireless phones. The FDA publication includes the following information:

Do cell phones pose a health hazard?

Many people are concerned that cell phone radiation will cause cancer or other serious health hazards. The weight of scientific evidence has not linked cell phones with any health problems.

Cell phones emit low levels of Radio Frequency (RF) energy. Over the past 15 years, scientists have conducted

hundreds of studies looking at the biological effects of the radio frequency energy emitted by cell phones. While some researchers have reported biological changes associated with RF energy, these studies have failed to be replicated. The majority of studies published have failed to show an association between exposure to radio frequency from a cell phone and health problems.

The low levels of RF cell phones emit while in use are in the microwave frequency range. They also emit RF at substantially reduced time intervals when in the stand-by mode. Whereas high levels of RF can produce health effects (by heating tissue), exposure to low level RF that does not produce heating effects causes no known adverse health effects.

The biological effects of radio frequency energy should not be confused with the effects from other types of electromagnetic energy.

Very high levels of electromagnetic energy, such as is found in X-rays and gamma rays, can ionize biological tissues. Ionization is a process where

electrons are stripped away from their normal locations in atoms and molecules. It can permanently damage biological tissues including DNA, the genetic material.

The energy levels associated with radio frequency energy, including both radio waves and microwaves, are not great enough to cause ionization of atoms and molecules. Therefore, RF energy is a type of non-ionizing radiation. Other types of non-ionizing radiation include visible light, infrared radiation (heat), and other forms of electromagnetic radiation with relatively low frequencies.

While RF energy does not ionize particles, large amounts can increase body temperatures and cause tissue damage. Two areas of the body, the eyes and the testes, are particularly vulnerable to RF heating because there is relatively little blood flow in them to carry away excess heat.

Research Results to Date: Is there a connection between RF and certain health problems?

The results of most studies conducted to date say no. In addition, attempts to replicate and confirm the few studies that have shown a connection have failed.

The scientific community at large therefore believes that the weight of scientific evidence does not show an association between exposure to Radio Frequency (RF) from cell phones and adverse health outcomes. Still the scientific community has supported additional research to address gaps in knowledge. Some of these studies are described below.

Interphone Study

Interphone is a large international study designed to determine whether cell phones increase the risk of head and neck cancer. A report published in the International Journal of Epidemiology (June, 2010) compared cell phone usage for more than 5,000 people with brain tumors (glioma and meningioma) and a similar number of healthy controls.

Results of this study did NOT show that cell phones caused brain cancer. In this study, most people had no increased risk of brain cancer from using cell phones. For people with the heaviest use of cell phones (an average of more than ½ hour per day, every day, for over 10 years) the study suggested a slight increase in brain cancer. However, the authors determined that biases and errors prevented any conclusions being drawn from this data. Additional information about Interphone can be found at www.iarc.fr/en/media-centre/pr/2010/pdfs/pr200_E.pdf.

Interphone is the largest cell phone study to date, but it did not answer all questions about cell phone safety.

Additional research is being conducted around the world, and the FDA continues to monitor developments in this field.

International Cohort Study on Mobile Phone Users (COSMOS)

The COSMOS study aims to conduct long-term health monitoring of a large group of people to determine if there are any health issues linked to long-term exposure to radio frequency energy from cell phone use. The COSMOS study will

follow approximately 300,000 adult cell phone users in Europe for 20 to 30 years. Additional information about the COSMOS study can be found at www.ukcosmos.org/index.html.

Risk of Brain Cancer from Exposure to Radio Frequency Fields in Childhood and Adolescence (MOBI-KIDS)

MOBI-KIDS is an international study investigating the relationship between exposure to radio frequency energy from communication technologies including cell phones and brain cancer in young people. This is an international multi-center study involving 14 European and non-European countries. Additional information about MOBI-KIDS can be found at www.creal.cat/programes-recerca/en_projectes-creal/view.php?ID=39.

Surveillance, Epidemiology, and End Results (SEER) Program of the National Cancer Institute

The National Cancer Institute (NCI) actively follows cancer statistics in the United States to detect any change in rates of new cases for brain cancer. If cell phones play a role in risk for brain

cancer, rates should go up, because heavy cell phone use has been common for quite some time in the U.S. Between 1987 and 2005, the overall age-adjusted incidence of brain cancer did not increase. Additional information about SEER can be found at <http://seer.cancer.gov/>.

Cell Phone Industry Actions

Although the existing scientific data do not justify FDA regulatory actions, the FDA has urged the cell phone industry to take a number of steps, including the following:

- Support-needed research on possible biological effects of RF for the type of signal emitted by cell phones;
- Design cell phones in a way that minimizes any RF exposure to the user; and
- Cooperate in providing users of cell phones with the current information on cell phone use and human health concerns.

The FDA also is working with voluntary standard-setting bodies such as the Institute of Electrical and Electronics Engineers (IEEE), the International Commission on Non-Ionizing Radiation

Protection (ICNIRP), and others to assure that safety standards continue to adequately protect the public.

Reducing Exposure: Hands-Free Kits and Other Accessories

Steps to Reduce Exposure to Radio Frequency Energy

If there is a risk from being exposed to radio frequency energy (RF) from cell phones - and at this point we do not know that there is - it is probably very small. But, if you are concerned about avoiding even potential risks, you can take a few simple steps to minimize your RF exposure.

- Reduce the amount of time spent using your cell phone;
- Use speaker mode or a headset to place more distance between your head and the cell phone.

Hands-Free Kits

Hands-free kits may include audio or Bluetooth[®] headsets and various types of body-worn accessories such as belt-clips and holsters. Combinations of these can be used to reduce RF energy absorption from cell phones.

Headsets can substantially reduce exposure because the phone is held away from the head in the user's hand or in approved body-worn accessories. Cell phones marketed in the U.S. are required to meet RF exposure compliance requirements when used against the head and against the body.

Because there are no known risks from exposure to RF emissions from cell phones, there is no reason to believe that hands-free kits reduce risks. Hands-free kits can be used for convenience and comfort. They are also required by law in many states if you want to use your phone while driving.

Cell Phone Accessories that Claim to Shield the Head from RF Radiation

Because there are no known risks from exposure to RF emissions from cell phones, there is no reason to believe that accessories which claim to shield the head from those emissions reduce risks. Some products that claim to shield the user from RF absorption use special phone cases, while others involve nothing more than a metallic accessory attached to the phone.

Studies have shown that these products generally do not work as advertised. Unlike “hands-free” kits, these so-called “shields” may interfere with proper operation of the phone. The phone may be forced to boost its power to compensate, leading to an increase in RF absorption.

Children and Cell Phones

The scientific evidence does not show a danger to any users of cell phones from RF exposure, including children and teenagers. The steps adults can take to reduce RF exposure apply to children and teenagers as well.

- Reduce the amount of time spent on the cell phone;
- Use speaker mode or a headset to place more distance between the head and the cell phone.

Some groups sponsored by other national governments have advised that children be discouraged from using cell phones at all. For example, The Stewart Report from the United Kingdom made such a recommendation in December 2000. In this report, a group of independent experts noted that no

evidence exists that using a cell phone causes brain tumors or other ill effects. Their recommendation to limit cell phone use by children was strictly precautionary; it was not based on scientific evidence that any health hazard exists.

Additional information on the safety of RF exposures from various sources can be obtained from the following organizations (updated 12/31/2014):

- FCC RF Safety Program:
www.fcc.gov/encyclopedia/radio-frequency-safety
- Environmental Protection Agency (EPA):
www.epa.gov/radtown/wireless-tech.html

- US Food and Drug Administration:
www.fda.gov/Radiation-EmittingProducts/RadiationEmittingProductsandProcedures/HomeBusinessandEntertainment/CellPhones/default.htm

Specific Absorption Rate (SAR) Certification Information

Your wireless device is a radio transmitter and receiver. It is designed and manufactured not to exceed the exposure limits for Radio Frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. Government.

These FCC RF exposure limits are derived from the recommendations of two expert organizations: the National Council on Radiation Protection and Measurement (NCRP) and the Institute of Electrical and Electronics Engineers (IEEE). In both cases, the

recommendations were developed by scientific and engineering experts drawn from industry, government, and academia after extensive reviews of the scientific literature related to the biological effects of RF energy.

The RF exposure limit set by the FCC for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate (SAR). The SAR is a measure of the rate of absorption of RF energy by the human body expressed in units of watts per kilogram (W/kg). The FCC requires wireless phones to comply with a safety limit of 1.6 watts per kilogram (1.6 W/kg).

The FCC SAR limit incorporates a substantial margin of safety to give additional protection to the public and to account for any variations in measurements.

SAR tests are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below

the maximum reported value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output of the device.

Before a new model device is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the SAR limit established by the FCC. Tests for each model phone are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC. For body-worn operation, this phone has been tested and meets FCC RF exposure guidelines when used with an accessory that contains no metal and that positions the mobile device a minimum of 1.5 cm from the body.

Use of other accessories may not ensure compliance with FCC RF exposure guidelines. The FCC has granted an Equipment Authorization for this mobile device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines.

This device has a FCC ID number: A3LSMB690V [Model Number: SM-B690V] and the specific SAR levels for this device can be found at the following FCC website:

www.fcc.gov/oet/ea/.

The SAR information for this device can also be found on Samsung's website:

<http://www.samsung.com/sar>.

The SAR information for this device can also be found on Samsung's website:

www.samsung.com/sar

SAR information on this and other model devices can be accessed online on the FCC's website through

<http://transition.fcc.gov/oet/rfsafety/sar.html>.

To find information that pertains to a particular model, this site uses the device FCC ID number which is usually printed somewhere on the case of the device. Sometimes it may be necessary to remove the battery pack to find the number. Once you have the FCC ID number for a particular device, follow the instructions on the website and it should provide values for typical or maximum SAR for a particular phone. Additional

SAR information can also be obtained at www.fcc.gov/encyclopedia/specific-absorption-rate-sar-cellular-telephones

FCC Part 15 Information to User

Pursuant to part 15.21 of the FCC Rules, you are cautioned that changes or modifications not expressly approved by Samsung could void your authority to operate the device.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not

installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Commercial Mobile Alerting System (CMAS)

This device is designed to receive Wireless Emergency Alerts from CMAS. If your wireless provider has chosen to participate in CMAS, alerts are available while in the provider's coverage area. If

you travel outside your provider's coverage area, wireless emergency alerts may not be available. For more information, please contact your wireless provider.

Samsung Mobile Products and Recycling

Samsung cares for the environment and encourages its customers to recycle Samsung mobile devices and genuine Samsung accessories.

Proper disposal of your mobile device and its battery is not only important for safety, it benefits the environment.

Batteries must be recycled or disposed of properly.

Note: Dispose of unwanted electronics through an approved recycler.

We've made it easy for you to recycle your old Samsung mobile device by working with respected take-back companies in every state in the country.

Note: Most carriers will provide a take-back option for products to be properly disposed when purchasing new products.

For battery recycling,
go to *call2recycle.org*
or call **1-800-822-8837**.

Drop It Off

You can drop off your Samsung-branded mobile device and batteries for recycling at one of our numerous Samsung Recycling Direct (SM) locations.

Note: Samsung-branded devices and batteries will be accepted at these locations for no fee.

To find the nearest recycling location, go to any of the following:

- www.samsung.com/recyclingdirect
or call 1-877-278-0799.
- PLUG-IN to eCYCLING with EPA:
www.call2recycle.org/

Mail It In

The Samsung Mobile Take-Back Program will provide Samsung customers with a free recycling mailing label.

For more information, go to:

<https://pages.samsung.com/recycling/index.jsp> and follow the on-screen instructions or call 1-800-822-8837.

Follow local regulations regarding disposal of mobile devices and batteries

Dispose of your mobile device and batteries in accordance with local regulations. In some areas, the disposal of these items in household or business trash may be prohibited. Help us protect the environment - recycle!

Warning! Never dispose of batteries in a fire because they may explode.

Smart Practices While Driving

On the Road - Off the Phone

The primary responsibility of every driver is the safe operation of his or her vehicle.

Responsible drivers understand that no secondary task should be performed while driving whether it be eating, drinking, talking to passengers, or talking on a mobile phone - unless the driver has assessed the driving conditions and is confident that the secondary task will not interfere with their primary responsibility. **Do not engage in any activity while driving a moving vehicle which may cause you to take your eyes off the road or become so absorbed in the activity that your ability to concentrate on the act of driving becomes impaired.** Samsung is committed to promoting responsible driving and giving drivers the tools they need to understand and address distractions.

Check the laws and regulations on the use of mobile devices and their accessories in the areas where you drive. Always obey them. The use of these devices may be prohibited or restricted in certain areas. For example, only hands-free use may be permitted in certain areas.

Before answering calls, consider your circumstances. Let the call go to voicemail when driving conditions require. Remember, driving comes first, not the call!

If you consider a call necessary and appropriate, follow these tips:

- Use a hands-free device;
- Secure your phone within easy reach;
- Place calls when you are not moving;
- Plan calls when your car will be stationary;
- Do not engage in stressful or emotional conversations;
- Let the person with whom you are speaking know that you are driving and will suspend the call if necessary;
- Do not take notes or look up phone numbers while driving;

Notice regarding legal restrictions on mounting this device in an automobile:

Laws in some states may prohibit mounting this device on or near the windshield of an automobile. In other states, the law may permit mounting this device only in specific locations in the automobile. Be sure to consult the state and local laws or ordinances where you

drive before mounting this device in an automobile. Failure to comply with these restrictions could result in fines, penalties, or other damages.

Never mount this device in a manner that will obstruct the driver's clear view of the street and traffic.

Never use wireless data services such as text messaging, Web browsing, or e-mail while operating a vehicle.

Never watch videos, such as a movie or clip, or play video games while operating a vehicle.

For more information, go to www.ctia.org.

Battery Use and Safety

Important! Handle and store batteries

properly to avoid injury or

damage. Most battery issues

arise from improper handling

of batteries and, particularly,

from the continued use of

damaged batteries.

- **Do not disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery.** Do not put a high degree of pressure on the battery. This can cause leakage or an internal short-circuit, resulting in overheating.
- **Do not let the phone or battery come in contact with liquids.** Liquids can get into the phone's circuits, leading to corrosion. Even when the phone appears to be dry and appears to operate normally, the circuitry could slowly corrode and pose a safety hazard. If the phone and/or battery get wet, have them checked by your service provider or contact Samsung, even if they appear to be working properly.
- **Do not place your battery in or near a heat source.** Excessive heating can damage the phone or the battery and could cause the phone or the battery to explode. Do not dry a wet or damp battery with an appliance or heat source such as a microwave oven, hair dryer, iron, or radiator. Avoid leaving your phone in your car in high temperatures.

- **Caution: Some applications or prolonged usage may increase device temperature.** Prolonged skin contact with a device that is hot to the touch may produce skin discomfort or redness, or low-temperature burns. If the device feels hot to the touch, discontinue use and close all applications or turn off the device until it cools. Always ensure that the device has adequate ventilation and air flow. Covering the device with bedding, your body, thick clothing or any other materials that significantly affect air flow may affect the performance of the device and poses a possible risk of fire or explosion, which could lead to serious bodily injuries or damage to property.
- **Do not dispose of the phone or the battery in a fire.** The phone or the battery may explode when overheated.
- **Do not handle a damaged or leaking battery.** Do not let leaking battery fluid come in contact with your eyes, skin or clothing. For safe disposal options, contact your nearest Samsung-authorized service center.

- **Avoid dropping the cell phone.** Dropping the phone or the battery, especially on a hard surface, can potentially cause damage to the phone and battery. If you suspect damage to the phone or battery, take it to a service center for inspection.
- **Never use any charger or battery that is damaged in any way.**
- **Do not allow the battery to touch metal objects.** Accidental short-circuiting can occur when a metallic object (coin, key, jewelry, clip, or pen) causes a direct connection between the + and - terminals of the battery (metal strips on the battery), for example when you carry a spare battery in a pocket or bag. Short-circuiting the terminals may damage the battery or the object causing the short-circuiting.

Important! Use only Samsung-approved batteries, and recharge your battery only with Samsung-approved chargers which are specifically designed for your phone.

WARNING!

Use of a non-Samsung-approved battery or charger may present a risk of fire, explosion, leakage, or other hazard.

Samsung's warranty does not cover damage to the phone caused by non-Samsung-approved batteries and/or chargers.

- **Do not use incompatible cell phone batteries and chargers.** Some websites and second-hand dealers not associated with reputable manufacturers and carriers, might be selling incompatible or even counterfeit batteries and chargers.

Consumers should purchase manufacturer or carrier-recommended products and accessories. If unsure about whether a replacement battery or charger is compatible, contact the manufacturer of the battery or charger.

- **Misuse or use of incompatible phones, batteries, and charging devices could result in damage to the equipment and a possible risk of fire, explosion, or leakage, leading to serious injuries, damages to your phone, or other serious hazard.**

UL Certified Travel Charger

The Travel Charger for this phone has met applicable UL safety requirements. Please adhere to the following safety instructions per UL guidelines:

FAILURE TO FOLLOW THE INSTRUCTIONS OUTLINED MAY LEAD TO SERIOUS PERSONAL INJURY AND POSSIBLE PROPERTY DAMAGE.

**IMPORTANT SAFETY INSTRUCTIONS
- SAVE THESE INSTRUCTIONS.**

DANGER - TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, CAREFULLY FOLLOW THESE INSTRUCTIONS.

FOR CONNECTION TO A SUPPLY NOT IN NORTH AMERICA, USE AN ATTACHMENT PLUG ADAPTOR OF THE PROPER CONFIGURATION FOR THE POWER OUTLET.

THIS POWER UNIT IS INTENDED TO BE CORRECTLY ORIENTED IN A VERTICAL OR

HORIZONTAL OR FLOOR
MOUNT POSITION.

Display / Touch-Screen

Please note the following information
when using your mobile device:

WARNING REGARDING DISPLAY

The display on your mobile device
is made of glass or acrylic and
could break if your mobile device
is dropped or if it receives
significant impact. Do not use if
screen is broken or cracked as this
could cause injury to you.

WARRANTY DISCLAIMER: PROPER USE OF A TOUCH-SCREEN MOBILE DEVICE

If your mobile device has a
touch-screen display, please note
that a touch-screen responds best
to a light touch from the pad of
your finger or a non-metallic
stylus. Using excessive force or a
metallic object when pressing on

the touch-screen may damage the tempered glass surface and void the warranty. For more information, please refer to the “Standard Limited Warranty”.

GPS & AGPS

Certain Samsung mobile devices can use a Global Positioning System (GPS) signal for location-based applications. A GPS uses satellites controlled by the U.S. Government that are subject to changes implemented in accordance with the Department of Defense policy and the 2008 Federal Radio navigation Plan (FRP). Changes may affect the performance of location-based technology on your mobile device.

Certain Samsung mobile devices can also use an Assisted Global Positioning System (AGPS), which obtains information from the cellular network to improve GPS performance. AGPS uses your wireless service provider's network and therefore airtime, data charges, and/or additional charges may apply in accordance with your service plan. Contact your wireless service provider for details.

Your Location

Location-based information includes information that can be used to determine the approximate location of a mobile device. Mobile devices which are connected to a wireless network transmit location-based information. Additionally, if you use applications that require location-based information (e.g. driving directions), such applications transmit location-based information. The location-based information may be shared with third-parties, including your wireless service provider, applications providers, Samsung, and other third-parties providing services.

Use of AGPS in Emergency Calls

When you make an emergency call, the cellular network may activate AGPS technology in your mobile device to tell the emergency responders your approximate location.

AGPS has limitations and **might not work in your area**. Therefore:

- Always tell the emergency responder your location to the best of your ability; and
- Remain on the mobile device for as long as the emergency responder instructs you.

Navigation

Maps, directions, and other navigation-data, including data relating to your current location, may contain inaccurate or incomplete data, and circumstances can and do change over time. In some areas, complete information may not be available.

Therefore, you should always visually confirm that the navigational instructions are consistent with what you see before following them. All users should pay attention to road conditions, closures, traffic, and all other factors that may impact safe driving or walking. Always obey posted road signs.

Emergency Calls

This mobile device, like any wireless mobile device, operates using radio signals, wireless and landline networks, as well as user-programmed functions, which cannot guarantee connection in all conditions, areas, or circumstances.

Therefore, you should never rely solely on any wireless mobile device for essential communications (medical emergencies, for example). Before traveling in remote or underdeveloped areas, plan an alternate method of

contacting emergency services personnel. Remember, to make or receive any calls, the mobile device must be switched on and in a service area with adequate signal strength.

Emergency calls may not be possible on all wireless mobile device networks or when certain network services and/or mobile device features are in use. Check with local service providers. If certain features are in use (call blocking, for example), you may first need to deactivate those features before you can make an emergency call. Consult your User Manual and your local cellular service provider. When making an emergency call, remember to give all the necessary information as accurately as possible. Remember that your mobile device may be the only means of communication at the scene of an accident; do not cut off the call until given permission to do so.

To make an emergency call:

1. If the mobile device is not on, switch it on.
2. Open your phone dialer.

3. Enter the emergency number for your present location (for example, 911 or other official emergency number), then tap Call/Send. Emergency numbers vary by location.

Care and Maintenance

Your mobile device is a product of superior design and craftsmanship and should be treated with care. The suggestions below will help you fulfill any warranty obligations and allow you to enjoy this product for many years:

Keep your Samsung Mobile Device away from:

Liquids of any kind

Keep the mobile device dry. Precipitation, humidity, and liquids contain minerals that will corrode electronic circuits. If the mobile device does get wet, do not accelerate drying with the use of an oven, microwave, or dryer, because this may damage the mobile device and could cause a fire or explosion.

Do not use the mobile device with a wet hand. Doing so may cause an electric shock to you or damage to the mobile device.

Extreme heat or cold

Avoid temperatures below 0°C / 32°F or above 45°C / 113°F.

Microwaves

Do not try to dry your mobile device in a microwave oven. Doing so may cause a fire or explosion.

Dust and dirt

Do not expose your mobile device to dust, dirt, or sand.

Cleaning solutions

Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the mobile device. Wipe it with a soft cloth slightly dampened in a mild soap-and-water solution. If the mobile device has a retractable camera lens, do not use soap and water to clean the lens. Use a blower or brush or lens cleaning paper dampened in a lens cleaning solution.

Shock or vibration

Do not drop, knock, or shake the mobile device. Rough handling can break internal circuit boards.

Paint

Do not paint the mobile device. Paint can clog the device's moving parts or ventilation openings and prevent proper operation.

Responsible Listening

Caution! Avoid potential hearing loss.

Damage to hearing occurs when a person is exposed to loud sounds over time. The risk of hearing loss increases as sound is played louder and for longer durations. Prolonged exposure to loud sounds (including music) is the most common cause of preventable hearing loss. Some scientific research suggests that using portable audio devices, such as portable music players and cell phones, at high volume settings for long durations may lead to permanent noise-induced hearing loss.

This includes the use of headphones (including headsets, earbuds, and Bluetooth[®] or other wireless devices).

Exposure to very loud sound has also been associated in some studies with tinnitus (a ringing in the ear), hypersensitivity to sound, and distorted hearing. Individual susceptibility to noise-induced hearing loss and potential hearing problem varies. Additionally, the amount of sound produced by a portable audio device varies depending on the nature of the sound, the device settings, and the headphones that are used. As a result, there is no single volume setting that is appropriate for everyone or for every combination of sound, settings, and equipment.

You should follow some common sense recommendations when using any portable audio device:

- Always turn the volume down before plugging the earphones into an audio source.
- Set the volume in a quiet environment and select the lowest volume at which you can hear adequately.
- Be aware that you can adapt to higher volume settings over time, not realizing that the higher volume may be harmful to your hearing.

- When using headphones, turn the volume down if you cannot hear the people speaking near you or if the person sitting next to you can hear what you are listening to.
- Do not turn the volume up to block out noisy surroundings. If you choose to listen to your portable device in a noisy environment, use noise-cancelling headphones to block out background environmental noise. By blocking background environment noise, noise cancelling headphones should allow you to hear the music at lower volumes than when using earbuds.
- Limit the amount of time you listen. As the volume increases, less time is required before your hearing could be affected.
- Avoid using headphones after exposure to extremely loud noises, such as rock concerts, that might cause temporary hearing loss. Temporary hearing loss might cause unsafe volumes to sound normal.

- Do not listen at any volume that causes you discomfort. If you experience ringing in your ears, hear muffled speech, or experience any temporary hearing difficulty after listening to your portable audio device, discontinue use and consult your doctor.

Operating Environment

Remember to follow any special regulations in force in any area, and always switch your mobile device off whenever it is forbidden to use it, or when it may cause interference or danger. When connecting the mobile device or any accessory to another device, read its user's guide for detailed safety instructions. Do not connect incompatible products.

Using Your Mobile Device Near Other Electronic Devices

Most modern electronic equipment is shielded from Radio Frequency (RF) signals. However, certain electronic equipment may not be shielded against the RF signals from your wireless mobile device. Consult the manufacturer to discuss alternatives.

Implantable Medical Devices

A minimum separation of six (6) inches should be maintained between a handheld wireless mobile device and an implantable medical device, such as a pacemaker or implantable cardioverter defibrillator, to avoid potential interference with the device.

Persons who have such devices:

- Should ALWAYS keep the mobile device more than six (6) inches from their implantable medical device when the mobile device is turned ON;
- Should not carry the mobile device in a breast pocket;
- Should use the ear opposite the implantable medical device to minimize the potential for interference;

- Should turn the mobile device OFF immediately if there is any reason to suspect that interference is taking place;
- Should read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your wireless mobile device with an implantable medical device, consult your health care provider.

For more information see:

www.fcc.gov/oet/rfsafety/rf-faqs.html#.

Other Medical Devices

If you use any other personal medical devices, consult the manufacturer of your device to determine if it is adequately shielded from external RF energy. Your physician may be able to assist you in obtaining this information. Switch your mobile device off in health care facilities when any regulations posted in these areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.

Vehicles

RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles.

Check with the manufacturer or its representative regarding your vehicle before using your mobile device in a motor vehicle. You should also consult the manufacturer of any equipment that has been added to your vehicle.

Posted Facilities

Switch your mobile device off in any facility where posted notices require you to do so.

Potentially Explosive Environments

Switch your mobile device off when in any area with a potentially explosive atmosphere and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death. Users are advised to switch the mobile device off while at a refueling point (service station).

Users are reminded of the need to observe restrictions on the use of radio equipment in fuel depots (fuel storage and distribution areas), chemical plants, or where blasting operations are in progress. Areas with a potentially explosive atmosphere are often, but not always, clearly marked. They include below deck on boats, chemical transfer

or storage facilities, vehicles using liquefied petroleum gas (such as propane or butane), areas where the air contains chemicals or particles, such as grain, dust, or metal powders, and any other area where you would normally be advised to turn off your vehicle engine. Vehicles using liquefied petroleum gas (such as propane or butane) must comply with the National Fire Protection Standard (NFPA-58). For a copy of this standard, contact the National Fire Protection Association.

When your Device is Wet

Do not turn on your device if it is wet. If your device is already on, turn it off and remove the battery immediately (if the device will not turn off or you cannot remove the battery, leave it as-is). Then, dry the device with a towel and take it to a service center.

Internal Use Only

FCC Hearing Aid Compatibility (HAC) Regulations for Wireless Devices

The U.S. Federal Communications Commission (FCC) has established requirements for digital wireless mobile devices to be compatible with hearing aids and other assistive hearing devices.

When individuals employing some assistive hearing devices (hearing aids and cochlear implants) use wireless mobile devices, they may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and mobile devices also vary in the amount of interference they generate.

The wireless telephone industry has developed a rating system for wireless mobile devices to assist hearing device users find mobile devices that may be compatible with their hearing devices. Not all mobile devices have been rated. Mobile devices that are rated have the rating on their box or a label located on the box.

The ratings are not guarantees. Results will vary depending on the user's hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated mobile device successfully.

Trying out the mobile device with your hearing device is the best way to evaluate it for your personal needs.

M-Ratings: Wireless mobile devices rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than mobile devices that are not labeled. M4 is the better/higher of the two ratings. M-ratings refer to enabling acoustic coupling with hearing aids that do not operate in telecoil mode.

T-Ratings: Mobile devices rated T3 or T4 meet FCC requirements and are likely to generate less interference to hearing devices than mobile devices that are not labeled. T4 is the better/higher of the two ratings. T-ratings refer to enabling inductive coupling with hearing aids operating in telecoil mode.

Hearing devices may also be rated. Your hearing aid manufacturer or hearing health professional may help you find

this rating. Higher ratings mean that the hearing device is relatively immune to interference noise.

Under the current industry standard, American National Standards Institute (ANSI) C63.19, the hearing aid and wireless mobile device rating values are added together to indicate how usable they are together. For example, if a hearing aid meets the M2 level rating and the wireless mobile device meets the M3 level rating, the sum of the two values equals M5.

Under the standard, this should provide the hearing aid user with normal use while using the hearing aid with the particular wireless mobile device. A sum of 6 or more would indicate excellent performance.

However, these are not guarantees that all users will be satisfied. T ratings work similarly.

The HAC rating and measurement procedure are described in the American National Standards Institute (ANSI) C63.19 standard.

HAC for Newer Technologies

This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids.

It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider or the manufacturer of

this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, consult your service provider or phone retailer.

Restricting Children's Access to Your Mobile Device

Your mobile device is not a toy. Do not allow children to play with it because they could hurt themselves and others, damage the mobile device, or make calls that increase your mobile device bill.

Keep the mobile device and all its parts and accessories out of the reach of small children.

FCC Notice and Cautions

FCC Notice

The mobile device may cause TV or radio interference if used in close proximity to receiving equipment. The FCC can require you to stop using the mobile device if such interference cannot be eliminated.

Cautions

Any changes or modifications to your mobile device not expressly approved by Samsung could void your warranty for

this equipment and void your authority to operate this equipment. Only use approved batteries, antennas, and chargers. The use of any unauthorized accessories may be dangerous and void the mobile device warranty if said accessories cause damage or a defect to the mobile device.

Although your mobile device is quite sturdy, it is a complex piece of equipment and can be broken. Avoid dropping, hitting, bending, or sitting on it.

Other Important Safety Information

- Only qualified personnel should service the mobile device or install the mobile device in a vehicle. Faulty installation or service may be dangerous and may invalidate any warranty applicable to the device.
- Ensure that any mobile devices or related equipment installed in your vehicle are securely mounted.
- Check regularly that all wireless mobile device equipment in your vehicle is mounted and operating properly.

- When using a headset in dry environments, static electricity can build up in the headset and cause a small quick static electrical shock. To minimize the risk of electrostatic discharge from the headset avoid using the headset in extremely dry environments or touch a grounded unpainted metal object to discharge static electricity before inserting the headset.
- Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the mobile device, its parts, or accessories.
- For vehicles equipped with an air bag, remember that an air bag inflates with great force. Do not place objects, including installed or portable wireless equipment near or in the area over the air bag or in the air bag deployment area. If wireless equipment is improperly installed and the air bag inflates, serious injury could result.

- Switch your mobile device off before boarding an aircraft. The use of wireless mobile devices in aircraft is illegal and may be dangerous to the aircraft's operation. Check with appropriate authorities before using any function of a mobile device while on an aircraft.
- Failure to observe these instructions may lead to the suspension or denial of cell phone services to the offender, or legal action, or both.
- While using your device, leave some lights on in the room and do not hold the screen too close to your eyes.
- Seizures or blackouts can occur when you are exposed to flashing lights while watching videos or playing games for extended periods. If you feel any discomfort, stop using the device immediately.

DRAFT
Internal Use Only

- Reduce risk of repetitive motion injuries.
When you repetitively perform actions, such as pressing keys, drawing characters on a touch screen with your fingers, or playing games, you may experience occasional discomfort in your hands, neck, shoulders, or other parts of your body. When using your device for extended periods, hold the device with a relaxed grip, press the keys lightly, and take frequent breaks. If you continue to have discomfort during or after such use, stop use and see a physician.
- If your device has a camera flash or light, do not use the flash or light close to the eyes of people or pets. [010115]

Section 2: Warranty Information

Note: Samsung Limited Warranty - This product is covered under the applicable Samsung Limited Warranty **including its dispute resolution procedure.**

SAMSUNG ELECTRONICS AMERICA, INC. (“SAMSUNG”) warrants that SAMSUNG’s devices and accessories (“Products”) are free from defects in material and workmanship under normal use and service.

Samsung Electronics America, Inc.

85 Challenger Road

Ridgefield Park, New Jersey 07660

Phone: 1-800-SAMSUNG (726-7864)

DRAFT
Internal Use Only

Standard Limited Warranty

What is covered and for how long?

The warranty period commences upon the date of purchase by the first consumer purchaser and continuing for the following specified period of time after that date:

Device	1 Year
Battery(ies)*	1 Year
Other Accessories*	1 Year

*If applicable.

What is not covered?

This Limited Warranty is conditioned upon proper use of the Product.

This Limited Warranty does not cover: (a) defects or damage resulting from accident, misuse, abnormal use, abnormal conditions, improper storage, exposure to liquid, moisture, dampness, sand or dirt, neglect, or unusual physical, electrical or electromechanical stress; (b) scratches, dents and cosmetic damage, unless caused by SAMSUNG; (c) defects or damage resulting from excessive force or use of a metallic

object when pressing on a touch screen; (d) equipment that has the serial number or the enhancement data code removed, defaced, damaged, altered or made illegible; (e) ordinary wear and tear; (f) defects or damage resulting from the use of Product in conjunction or connection with accessories, products, or ancillary/peripheral equipment not furnished or approved by SAMSUNG; (g) defects or damage resulting from improper testing, operation, maintenance, installation, service, or adjustment not furnished or approved by SAMSUNG, including but not limited to installation of unauthorized software and unauthorized root access, both of which shall void this limited warranty; (h) defects or damage resulting from external causes such as collision with an object, fire, flooding, dirt, windstorm, lightning, earthquake, exposure to weather conditions, theft, blown fuse, or improper use of any electrical source; (i) defects or damage resulting from cellular signal reception or transmission, or viruses or other software problems introduced into the Product; or (j) Product used or purchased outside the United States. This Limited Warranty covers

batteries only if battery capacity falls below 80% of rated capacity or the battery leaks, and this Limited Warranty does not cover any battery if (i) the battery has been charged by a battery charger not specified or approved by SAMSUNG for charging the battery; (ii) any of the seals on the battery are broken or show evidence of tampering; or (iii) the battery has been used in equipment other than the SAMSUNG device for which it is specified.

What are SAMSUNG's obligations?

During the applicable warranty period, provided the Product is returned in accordance with the terms of this Limited Warranty, SAMSUNG will repair or replace the Product, at SAMSUNG's sole option, without charge. SAMSUNG may, at SAMSUNG's sole option, use rebuilt, reconditioned, or new parts or components when repairing any Product, or may replace the Product with a rebuilt, reconditioned or new Product.

Repaired/replaced cases, pouches and holsters will be warranted for a period of ninety (90) days. All other repaired/replaced Products will be warranted for a period equal to the remainder of the

original Limited Warranty on the original Product or for ninety (90) days, whichever is longer. All replaced Products, parts, components, boards and equipment shall become the property of SAMSUNG. Except to any extent expressly allowed by applicable law, transfer or assignment of this Limited Warranty is prohibited.

What must you do to obtain warranty service?

To obtain service under this Limited Warranty, you must return the Product to an authorized phone service facility in an adequate container for shipping, accompanied by the sales receipt or comparable proof of sale showing the original date of purchase by the first consumer purchaser, the serial number of the Product and the seller's name and address.

To obtain assistance on where to deliver the Product, please call SAMSUNG Customer Care at 1-800-SAMSUNG (726-7864). If SAMSUNG determines that any Product is not covered by this Limited Warranty, you must pay all parts, shipping, and labor charges for the repair or return of such Product.

You should keep a separate backup copy of any contents of the Product before delivering the Product to SAMSUNG for warranty service, as some or all of the contents may be deleted or reformatted during the course of warranty service.

What are the limits on SAMSUNG's liability?

THIS LIMITED WARRANTY SETS OUT THE FULL EXTENT OF SAMSUNG'S RESPONSIBILITIES, AND THE EXCLUSIVE REMEDY REGARDING THE PRODUCTS.

ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SAMSUNG BE LIABLE FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT OR FOR, WITHOUT LIMITATION, COMMERCIAL LOSS OF ANY SORT; LOSS OF USE, TIME, DATA, REPUTATION, OPPORTUNITY, GOODWILL, PROFITS OR SAVINGS; INCONVENIENCE; INCIDENTAL, SPECIAL, CONSEQUENTIAL OR PUNITIVE DAMAGES; OR DAMAGES ARISING FROM THE USE OR INABILITY TO USE THE

PRODUCT. SOME STATES AND JURISDICTIONS DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, OR THE DISCLAIMER OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND DISCLAIMERS MAY NOT APPLY TO YOU.

SAMSUNG MAKES NO WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, AS TO THE QUALITY, CAPABILITIES, OPERATIONS, PERFORMANCE OR SUITABILITY OF ANY THIRD-PARTY SOFTWARE OR EQUIPMENT USED IN CONJUNCTION WITH THE PRODUCT, OR THE ABILITY TO INTEGRATE ANY SUCH SOFTWARE OR EQUIPMENT WITH THE PRODUCT, WHETHER SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT IS INCLUDED WITH THE PRODUCT DISTRIBUTED BY SAMSUNG OR OTHERWISE. RESPONSIBILITY FOR THE QUALITY, CAPABILITIES, OPERATIONS, PERFORMANCE AND SUITABILITY OF ANY SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT RESTS SOLELY WITH THE USER AND THE

DIRECT VENDOR, OWNER OR SUPPLIER OF SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT.

Nothing in the Product instructions or information shall be construed to create an express warranty of any kind with respect to the Products. No agent, employee, dealer, representative or reseller is authorized to modify or extend this Limited Warranty or to make binding representations or claims, whether in advertising, presentations or otherwise, on behalf of SAMSUNG regarding the Products or this Limited Warranty.

This Limited Warranty gives you specific legal rights, and you may also have other rights that vary from state to state.

What is the procedure for resolving disputes?

ALL DISPUTES WITH SAMSUNG ARISING IN ANY WAY FROM THIS LIMITED WARRANTY OR THE SALE, CONDITION OR PERFORMANCE OF THE PRODUCTS SHALL BE RESOLVED EXCLUSIVELY THROUGH FINAL AND BINDING ARBITRATION, AND NOT BY A COURT OR JURY.

Any such dispute shall not be combined or consolidated with a dispute involving any other person's or entity's Product or claim, and specifically, without limitation of the foregoing, shall not under any circumstances proceed as part of a class action. The arbitration shall be conducted before a single arbitrator, whose award may not exceed, in form or amount, the relief allowed by the applicable law. The arbitration shall be conducted according to the American Arbitration Association (AAA) Commercial Arbitration Rules applicable to consumer disputes. This arbitration provision is entered pursuant to the Federal Arbitration Act. The laws of the State of Texas, without reference to its choice of laws principles, shall govern the interpretation of the Limited Warranty and all disputes that are subject to this arbitration provision. The arbitrator shall decide all issues of interpretation and application of this arbitration provision and the Limited Warranty.

For any arbitration in which your total damage claims, exclusive of attorney fees and expert witness fees, are \$5,000.00 or less ("Small Claim"), the

arbitrator may, if you prevail, award your reasonable attorney fees, expert witness fees and costs as part of any award, but may not grant SAMSUNG its attorney fees, expert witness fees or costs unless it is determined that the claim was brought in bad faith. In a Small Claim case, you shall be required to pay no more than half of the total administrative, facility and arbitrator fees, or \$50.00 of such fees, whichever is less, and SAMSUNG shall pay the remainder of such fees. Administrative, facility and arbitrator fees for arbitrations in which your total damage claims, exclusive of attorney fees and expert witness fees, exceed \$5,000.00 ("Large Claim") shall be determined according to AAA rules. In a Large Claim case, the arbitrator may grant to the prevailing party, or apportion among the parties, reasonable attorney fees, expert witness fees and costs. Judgment may be entered on the arbitrator's award in any court of competent jurisdiction.

This arbitration provision also applies to claims against SAMSUNG's employees, representatives and affiliates if any such claim arises from the Product's sale, condition or performance.

You may opt out of this dispute resolution procedure by providing notice to SAMSUNG no later than 30 calendar days from the date of the first consumer purchaser's purchase of the Product. To opt out, you must send notice by e-mail to optout@sea.samsung.com, with the subject line: "Arbitration Opt Out." You must include in the opt out e-mail (a) your name and address; (b) the date on which the Product was purchased; (c) the Product model name or model number; and (d) the IMEI or MEID or Serial Number, as applicable, if you have it (the IMEI or MEID or Serial Number can be found (i) on the Product box; (ii) on the Product information screen, which can be found under "Settings;" (iii) on a label on the back of the Product beneath the battery, if the battery is removable; and (iv) on the outside of the Product if the battery is not removable). Alternatively, you may opt out by calling 1-800-SAMSUNG (726-7864) no later than 30 calendar days from the date

of the first consumer purchaser's purchase of the Product and providing the same information. These are the only two forms of notice that will be effective to opt out of this dispute resolution procedure. Opting out of this dispute resolution procedure will not affect the coverage of the Limited Warranty in any way, and you will continue to enjoy the benefits of the Limited Warranty.

Severability

If any portion of this Limited Warranty is held to be illegal or unenforceable, such partial illegality or unenforceability shall not affect the enforceability of the remainder of the Limited Warranty.

Precautions for Transfer and Disposal

If data stored on this device is deleted or reformatted using the standard methods, the data only appears to be removed on a superficial level, and it may be possible for someone to retrieve and reuse the data by means of special software.

To avoid unintended information leaks and other problems of this sort, it is recommended that the device be returned to Samsung's Customer Care

Center for an Extended File System (EFS) Clear which will eliminate all user memory and return all settings to default settings. Please contact the **Samsung Customer Care Center** for details.

Important! Please provide warranty information (proof of purchase) to Samsung's Customer Care Center in order to provide this service at no charge. If the warranty has expired on the device, charges may apply.

No reproduction in whole or in part allowed without prior written approval. Specifications and availability subject to change without notice. [070115]

End User License Agreement for Samsung Software (EULA)

IMPORTANT. READ CAREFULLY: This End User License Agreement ("EULA") is a legal agreement between you (either an individual or a single entity) and Samsung Electronics Co., Ltd. ("Samsung") for software, whether pre-installed or downloaded, owned by Samsung and its affiliated companies

and its third party suppliers and licensors, that accompanies this EULA, which includes computer software and may include associated media, content and data, printed materials, or electronic documentation in connection with your use of Samsung Mobile Device, which will be defined below (“Samsung Software”).

By using this device or any other Samsung mobile product, including mobile phone and tablet, running on Android operating system (“Samsung Mobile Device”), you accept terms of this EULA. If you do not accept these terms, do not use the Samsung Mobile Device or the Samsung Software.

- 1. GRANT OF LICENSE.** Samsung grants you a limited non-exclusive license to install, use, access, display and run one copy of the Samsung Software on a single Samsung Mobile Device, local hard disk(s) or other permanent storage media of one computer and you may not make Samsung Software available over a network where it could be used by multiple

computers at the same time. You may make one copy of the Samsung Software in machine readable form for backup purposes only; provided that the backup copy must include all copyright or other proprietary notices contained on the original.

Certain items of the Samsung Software may be subject to open source licenses. The open source license provisions may override some of the terms of this EULA. We make the applicable open source licenses available to you on the Legal Notices section of the Settings menu of your device.

- 2. RESERVATION OF RIGHTS AND OWNERSHIP.** Samsung reserves all rights not expressly granted to you in this EULA. The Software is protected by copyright and other intellectual property laws and

treaties. Samsung or its suppliers own the title, copyright and other intellectual property rights in the Software. The Software is licensed, not sold.

3. LIMITATIONS ON END USER RIGHTS.

You may not, or enable others to, copy, reverse engineer, decompile, disassemble, or otherwise attempt to discover the source code or algorithms of, the Software (except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation), or modify, or disable any features of, the Software, or create derivative works based on the Software. You may not rent, lease, lend, sublicense or provide commercial hosting services with the Software. You may not transfer this EULA or the rights to the Samsung Software granted herein to any third party unless it is in connection with the sale of the mobile device which the Samsung

Software accompanied. In such event, the transfer must include all of the Samsung Software (including all component parts, the media and printed materials, any upgrades, this EULA) and you may not retain any copies of the Samsung Software. The transfer may not be an indirect transfer, such as a consignment. Prior to the transfer, the end user receiving the Samsung Software must agree to all the EULA terms.

4. SAMSUNG SOFTWARE UPDATES.

Samsung may make available to you updates, upgrades, supplements and add-on components (if any) of the Samsung Software, including bug fixes, service upgrades (parts or whole), and updates, enhancements and feature improvements or deletion to any Samsung Software (including entirely new versions), (collectively “Update”) after the date you obtain your initial copy of the Samsung

Software. This EULA applies to all and any component of the Update, unless we provide other terms along with such Update. To use Samsung Software provided through Update, you must first be licensed for the Samsung Software identified by Samsung as eligible for the Update.

While the Update will be generally available, in some limited circumstances, the Samsung Software updates will only be offered by your network carrier, and such Samsung Software updates will be governed by your contractual relationship with your network carrier.

With the “Automatic Update” function enabled (as in the default setting in the System Update menu in the Setting), your device downloads certain Updates automatically from time to time. If you have chosen to disable the “Automatic Update” function, then you can check the availability of

new Updates by clicking on the “Check Update” menu in the Setting. Given the importance of receiving Updates for security software in a timely manner to defend against new threats, however, security-related Updates may be automatically downloaded and installed without your consent, even if you have disabled the “Automatic Update” function. We recommend that you check availability of any new Updates periodically for optimal use of your device.

5. CONSENT TO USE OF DATA.

(a) Privacy Policy Collection of data using software or applications on your device will be performed in accordance with the provisions of this section and as set forth in Samsung’s Privacy Policy. For your reference, Samsung’s Privacy Policy can be viewed at: <http://account.samsung.com/membership/pp>.

(b) To provide updates to the Samsung Software, you agree that Samsung and its affiliates may collect and use technical information gathered as part of the product support services related to the Software provided to you, if any, such as IMEI (your device's unique identification number), device number, model name, customer code, access recording, your device's current SW version, MCC (Mobile Country Code), and MNC (Mobile Network Code). Samsung may use this information solely to improve their products or to provide customized services or technologies to you and will not disclose this information in a form that personally identifies you.

(c) Diagnostic and Usage Data If you opt in to diagnostic and usage collection, Samsung and its affiliates may collect maintain, process and use diagnostic, technical and usage related information ("Diagnostic and

Usage Data”), that is gathered to provide and improve Samsung products and services, facilitate the provision of software updates, product support and other services to you, if any, related to the Samsung Software, and to verify compliance with the terms of this License. Samsung may use this information for the purposes described above and in accordance with its privacy policy available at the hyperlink above.

(d) Location Data As described in the Samsung Privacy Policy, available for view at the hyperlink above, Samsung and its partners, licensees and third party developers may provide certain services that rely upon location information, such as your device’s GPS signal or information about nearby WiFi access points and cell towers that may be transmitted to us, with your consent, when you use such location enabled services.

(e) Device Identifier-based

Services To facilitate the use of enhanced messaging and file sharing functions with a simplified set up process, device identifier-based services for file sharing features and messaging features (“Device Identifier-based Services”) are provided within the Samsung Software. These features are available through existing interfaces of Contacts and Messages, respectively, as additional features to them. If you opt-in to Device Identifier-based Services, certain unique identifiers for your Samsung Mobile Device are needed to set up and use these features. These unique identifiers may include hardware identifiers, subscription information and telephone number for your Samsung Mobile Device. If you allow sharing of Contacts information, the telephone numbers of the people in your Contacts are collected by Samsung

to facilitate file sharing and messaging with the people in your Contacts. You may turn off this sharing feature or restrict the scope of the sharing under your profile settings.

If your message cannot be sent as a message using the Device Identifier-based Services, your message may be sent as an SMS or MMS message, for which carrier messaging rates may apply.

(f) Voice-based Features As described in the Samsung Privacy Policy, available for view at the hyperlink above, in order to provide Voice-based features we may require the collection of your voice information. Some voice-based services may not be available in all languages or in all countries.

(g) Samsung Keyboard If you opt in to the Predictive text feature, the words that you typed are collected and stored on your Samsung Mobile Device to provide a word suggestion that you would be typing. You can clear the collected typing data anytime under the Predictive text settings. This feature may be offered in connection with your Samsung Account to synchronize the data for use on your other Samsung Mobile Devices and you can also clear the server side data under the Predictive text settings.

- 6. INTERNET ACCESS.** Some features of the Samsung Software may require your device to have access to the internet and may be subject to restrictions imposed by your network or internet provider.

Unless your device is connected to the internet through Wi-Fi connection, the Samsung Software will access the internet through your mobile network, which may

result in additional charges depending on your payment plan. In addition, your enjoyment of some features of the Samsung Software may be affected by the suitability and performance of your device hardware or data access. (“Automatic Update” function downloads Updates only through Wi-Fi connection.)

- 7. EXPORT RESTRICTIONS.** You acknowledge that the Samsung Software is subject to export restrictions of various countries. You agree to comply with all applicable international and national laws that apply to the Samsung Software, including all the applicable export restriction laws and regulations.

- 8. TERMINATION.** This EULA is effective until terminated. Your rights under this License will terminate automatically without notice from Samsung if you fail to comply with any of the terms and conditions of this EULA. Upon

termination of this EULA, you must cease all use of the Samsung Software and destroy all copies, full or partial, of the Samsung Software. Section 5, 9,10,13,15, and 16 of this EULA shall survive any such termination.

9. DISCLAIMER OF WARRANTY.

UNLESS SEPARATELY STATED IN A WRITTEN EXPRESS LIMITED WARRANTY ACCOMPANYING YOUR DEVICE, ALL SAMSUNG SOFTWARE PROVIDED BY SAMSUNG WITH THIS MOBILE DEVICE (WHETHER INCLUDED WITH THE DEVICE, DOWNLOADED, OR OTHERWISE OBTAINED) IS PROVIDED “AS IS” AND ON AN “AS AVAILABLE” BASIS, WITHOUT WARRANTIES OF ANY KIND FROM SAMSUNG, EITHER EXPRESS OR IMPLIED. TO THE FULLEST EXTENT POSSIBLE PURSUANT TO APPLICABLE LAW, SAMSUNG DISCLAIMS ALL WARRANTIES EXPRESS, IMPLIED, OR STATUTORY, INCLUDING, BUT NOT LIMITED TO, IMPLIED

WARRANTIES OF
MERCHANTABILITY, SATISFACTORY
QUALITY OR WORKMANLIKE
EFFORT, FITNESS FOR A

WRITTEN, OBTAINED BY YOU
FROM SAMSUNG OR ITS
AFFILIATES SHALL BE DEEMED TO
ALTER THIS DISCLAIMER BY
SAMSUNG OF WARRANTY
REGARDING SAMSUNG
SOFTWARE, OR TO CREATE ANY
WARRANTY OF ANY SORT FROM
SAMSUNG.

YOU EXPRESSLY ACKNOWLEDGE AND AGREE THAT, TO THE EXTENT PERMITTED BY APPLICABLE LAW, USE OF THE SAMSUNG SOFTWARE AND ANY SERVICES PERFORMED BY OR ACCESSED THROUGH THE SAMSUNG SOFTWARE IS AT YOUR SOLE RISK AND THAT THE ENTIRE RISK AS TO SATISFACTORY QUALITY, PERFORMANCE, ACCURACY AND EFFORT IS WITH YOU.

10. THIRD-PARTY APPLICATIONS.

Certain third party applications or services may be included with, or downloaded to your Samsung Mobile Device. Such third party applications or services may display, include or make available content, data, information, applications or materials from third parties ("Third Party Materials") or provide links to certain third party websites. By using the Samsung Software, you acknowledge and agree that Samsung is not responsible for the availability of

such applications and is not responsible or liable for any content, advertising, products, services, or other materials on or available from such applications. You expressly acknowledge and agree that use of third party applications is at your sole risk and that the entire risk of unsatisfactory quality, performance, accuracy and effort is with you. You agree not to modify, rent, lease, loan, sell, distribute, or create derivative works based on the Services, in any manner, and you shall not exploit the Services in any unauthorized way whatsoever, including but not limited to, using the Services to transmit any computer viruses, worms, Trojan horses or other malware, or by trespassing or burdening network capacity. You further agree not to use the Services in any manner to harass, abuse, stalk, threaten, defame or otherwise infringe or

violate the rights of any other party, and that Samsung is not in any way responsible for any such use by you, nor for any harassing, threatening, defamatory, offensive, infringing or illegal messages or transmissions that you may receive as a result of using any of the Services. References on this mobile device to any names, marks, products, or services of any third-parties are provided solely as a convenience to you, and do not constitute or imply an endorsement, sponsorship, or recommendation of, or affiliation with the third party or its products and services. You acknowledge and agree that the use of any third-party application is governed by such third party application provider's terms of use, license agreement, privacy policy, or other such agreement and that any information or personal data you provide, whether knowingly or

unknowingly, to such third-party application provider, will be subject to such third party application provider's privacy policy, if such a policy exists.

SAMSUNG DISCLAIMS ANY RESPONSIBILITY FOR ANY DISCLOSURE OF INFORMATION OR ANY OTHER PRACTICES OF ANY THIRD PARTY APPLICATION PROVIDER. SAMSUNG EXPRESSLY DISCLAIMS ANY WARRANTY REGARDING WHETHER YOUR PERSONAL INFORMATION IS CAPTURED BY ANY THIRD PARTY APPLICATION PROVIDER OR THE USE TO WHICH SUCH PERSONAL INFORMATION MAY BE PUT BY SUCH THIRD PARTY APPLICATION PROVIDER.

- 11. SAMSUNG SERVICES.** Certain Samsung applications and services may be included with, or downloaded to, your Samsung Mobile Device. The Samsung Software may enable access to

Samsung Galaxy Apps Store or other Samsung and third party services and web sites (collectively and individually, “Services”). Some such Services and applications may not be available in all languages or in all countries. Many of them may require Samsung Services membership registration (“Samsung Account”), and your rights and obligations will be set forth in separate Samsung Account terms and conditions. There are non-Samsung Account applications and services that may require your consent to their separate terms and conditions as well. You expressly acknowledge and agree that your use of such applications and services will be subject to the applicable terms and conditions. Your use of a Samsung Account is subject to the latest

Samsung Galaxy Apps Store Terms and Conditions, which you may access and review at:

<http://account.samsung.com/membership/terms>.

- 12. DIGITAL CERTIFICATE.** You acknowledge and agree that you are solely responsible for your decision to rely on a digital certificate issued by either Samsung or a third party and your use of such certificate. Samsung makes no express or implied warranties or representations as to merchantability or fitness for any particular purpose, accuracy, security, or non-infringement of third party rights with respect to digital certificates.

13. LIMITATION OF LIABILITY.

SAMSUNG WILL NOT BE LIABLE FOR ANY DAMAGES OF ANY KIND ARISING OUT OF OR RELATING TO THE USE OR THE INABILITY TO USE THE SAMSUNG SOFTWARE OR ANY THIRD PARTY APPLICATION, ITS CONTENT OR FUNCTIONALITY,

INCLUDING BUT NOT LIMITED TO DAMAGES CAUSED BY OR RELATED TO ERRORS, OMISSIONS, INTERRUPTIONS, DEFECTS, DELAY IN OPERATION OR TRANSMISSION, COMPUTER VIRUS, FAILURE TO CONNECT, NETWORK CHARGES, IN-APP PURCHASES, AND ALL OTHER DIRECT, INDIRECT, SPECIAL, INCIDENTAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES EVEN IF SAMSUNG HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE EXCLUSIONS OR LIMITATIONS MAY NOT APPLY TO YOU. NOTWITHSTANDING THE FOREGOING, SAMSUNG ELECTRONIC CO.'S TOTAL LIABILITY TO YOU FOR ALL LOSSES, DAMAGES, CAUSES OF ACTION, INCLUDING BUT NOT LIMITED TO THOSE BASED ON

CONTRACT, TORT, OR OTHERWISE, ARISING OUT OF YOUR USE OF THE SAMSUNG SOFTWARE OR THIRD PARTY APPLICATIONS ON THIS MOBILE DEVICE, OR ANY OTHER PROVISION OF THIS EULA, SHALL NOT EXCEED THE AMOUNT PURCHASER PAID SPECIFICALLY FOR THIS MOBILE DEVICE OR ANY SUCH THIRD PARTY APPLICATION THAT WAS INCLUDED WITH THIS MOBILE DEVICE. THE FOREGOING LIMITATIONS, EXCLUSIONS, AND DISCLAIMERS (INCLUDING SECTIONS 10, 11, 12 AND 13) SHALL APPLY TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EVEN IF ANY REMEDY FAILS ITS ESSENTIAL PURPOSE.

- 14. U.S. GOVERNMENT END USERS RESTRICTED RIGHTS.** The Samsung Software is licensed only with “restricted rights” and as “commercial items” consisting of “commercial software” and “commercial software

documentation” with only those rights as are granted to all other end users pursuant to the terms and conditions herein. All Products are provided only with “restricted rights” with only those rights as are granted to all other end users pursuant to the terms and conditions herein. All Samsung Software and Products are provided subject to Federal Acquisition Regulation (FAR)52.227.19.

- 15. APPLICABLE LAW.** This EULA is governed by the laws of the jurisdiction where you are a resident, without regard to its conflict of law provisions. This EULA shall not be governed by the UN Convention on Contracts for the International Sale of Goods, the application of which is expressly excluded.

16. DISPUTE RESOLUTION.

(a) Non-United States residents. If a dispute, controversy or difference arising in any way from this EULA or your use of the Samsung Software is not amicably settled, it shall be subject to the non-exclusive jurisdiction of the courts of the jurisdiction where you are a resident. Notwithstanding the foregoing, Samsung may apply for injunctive remedies (or an equivalent type of urgent legal relief) in any jurisdiction.

(b) United States residents. ALL DISPUTES WITH SAMSUNG ARISING IN ANY WAY FROM THIS EULA OR YOUR USE OF THE SOFTWARE SHALL BE RESOLVED EXCLUSIVELY THROUGH FINAL AND BINDING ARBITRATION, AND NOT BY A COURT OR JURY. Any such dispute shall not be combined or consolidated with any other person's or entity's claim or dispute, and specifically, without limitation of the foregoing, shall not under any circumstances

proceed as part of a class action. The arbitration shall be conducted before a single arbitrator, whose award may not exceed, in form or amount, the relief allowed by the applicable law. The arbitration shall be conducted according to the American Arbitration Association (AAA) Commercial Arbitration Rules applicable to consumer disputes. This arbitration provision is entered pursuant to the Federal Arbitration Act. The laws of the State of Texas, without reference to its choice of laws principles, shall govern the interpretation of the EULA and all disputes that are subject to this arbitration provision. The arbitrator shall decide all issues of interpretation and application of this arbitration provision and the EULA. For any arbitration in which your total damage claims, exclusive of attorney fees and expert witness fees, are \$5,000.00 or less ("Small Claim"), the

arbitrator may, if you prevail, award your reasonable attorney fees, expert witness fees and costs as part of any award, but may not grant Samsung its attorney fees, expert witness fees or costs unless it is determined that the claim was brought in bad faith. In a Small Claim case, you shall be required to pay no more than half of the total administrative, facility and arbitrator fees, or \$50.00 of such fees, whichever is less, and Samsung shall pay the remainder of such fees. Administrative, facility and arbitrator fees for arbitrations in which your total damage claims, exclusive of attorney fees and expert witness fees, exceed \$5,000.00 ("Large Claim") shall be determined according to AAA rules. In a Large Claim case, the arbitrator may grant to the prevailing party, or apportion among the parties, reasonable attorney fees, expert witness fees and costs. Judgment

may be entered on the arbitrator's award in any court of competent jurisdiction. This arbitration provision also applies to claims against Samsung's employees, representatives and affiliates if any such claim arises from the licensing or use of the Software. You may opt out of this dispute resolution procedure by providing notice to Samsung no later than 30 calendar days from the date of the first consumer purchaser's purchase of this device. To opt out, you must send notice by e-mail to optout@sta.samsung.com, with the subject line: "Arbitration Opt Out." You must include in the opt out e-mail (a) your name and address; (b) the date on which the device was purchased; (c) the device model name or model number; and (d) the IMEI or MEID or Serial Number, as applicable, if you have it (the IMEI or MEID or Serial Number can be found (i) on the device box; (ii) on the device

information screen, which can be found under "Settings;" (iii) on a label on the back of the device beneath the battery, if the battery is removable; and (iv) on the outside of the device if the battery is not removable). Alternatively, you may opt out by calling 1-888-987-4357 no later than 30 calendar days from the date of the first consumer purchaser's purchase of the device and providing the same information. These are the only two forms of notice that will be effective to opt out of this dispute resolution procedure. Opting out of this dispute resolution procedure will not affect your use of the device or its preloaded Software, and you will continue to enjoy the benefits of this license.

17. ENTIRE AGREEMENT; SEVERABILITY.

This EULA is the entire agreement between you and Samsung relating to the Samsung Software and supersedes all prior or

contemporaneous oral or written communications, proposals and representations with respect to the Samsung Software or any other subject matter covered by this EULA. If any provision of this EULA is held to be void, invalid, unenforceable or illegal, the other provisions shall continue in full force and effect. [030115_v 1.9]

- **Send:** Press to dial a call. From the Home screen, press to view Recent Calls.
- **Vibration mode:** With the flip open, press and hold to switch between Vibrate Mode and Master Volume level.
- **Voice Commands:** With the flip open, press to launch Voice Commands.
- **Voicemail:** Press and hold to dial voicemail.

DRAFT
FOR INTERNAL USE ONLY

Assemble Your Device

Prior to use, install the battery. You can also install an optional memory card (not included).

Remove the Back Cover

1. Use an object, such as a coin, and insert it in the slot on the back cover lock. Turn the lock counter-clockwise to open the battery cover. Lift the cover up and away from the phone.
2. Use the groove at the top left corner of the cover to lift the cover up and away from the back of the phone.

Warning: Do not bend or twist the back cover excessively. Doing so may damage the cover.

DRAFT
FOR INTERNAL USE ONLY

Install the Battery

1. Insert the battery into the opening on the back of the phone, making sure the connectors align.
2. Gently press down to secure the battery.

Replace the Back Cover

1. Place the cover back on the bottom of the handset then press down firmly.
2. Press down along the edges to make sure the cover is flush with the phone and that there is a tight seal.
3. Turn the slot on the back cover lock clockwise until the cover locks.

DRAFT
FOR INTERNAL USE ONLY

Note: When placing the cover back on the phone, press down firmly along the edges to ensure that the cover is flush with the phone. This ensures that the battery compartment is pressurized.

Charge the Battery

Your device is powered by a rechargeable, standard Li-Ion battery. A Wall/USB Charger (charging head and USB cable) is included with the device for charging the battery from any standard outlet.

The battery comes partially charged. A fully discharged battery requires up to four hours of charge time. You can use the device while charging.

Caution: Use only Samsung-approved charging devices and batteries. Samsung accessories are designed to maximize battery life. Using other accessories may invalidate your warranty and may cause damage.

1. Open the side slot and plug the connector of the travel adapter jack into the jack on the side of the phone.
2. Insert the USB cable into the port.
3. Connect the USB cable to the charging head, and then plug the charging head into a standard outlet.

DRAFT
FOR INTERNAL USE ONLY

4. When charging is complete, unplug the charging head from the outlet and remove the USB cable from the device.

Caution: Failure to unplug the wall charger before you remove the battery can cause damage to the device.

When to Charge the Battery

When the battery is weak and only a few minutes of operation remain, the battery icon () blinks and the device sounds a warning tone at regular intervals.

In this condition, your device conserves its remaining battery power by dimming the screen.

When the battery level becomes too low, the device automatically turns off.

- For a quick check of your battery level, view the battery charge indicator located in the Status Bar of the display. Four bars () indicates a full charge.

DRAFT
FOR INTERNAL USE ONLY

Set Up Your Device

Turning the Phone On or Off

1. Open the phone.
2. Press and hold the  **Power** key until the phone power-on screen displays.

Note: Do not turn on the phone when mobile phone use is prohibited.

3. If the phone requests a password, enter it and press  **OK** or the  **Center** key. For more information, see [“Security” on page 130](#).

The Home screen displays while the phone searches for your network. After the phone finds your network and displays adequate signal strength bars, you can make or receive calls.

Note: The display language is preset to Automatic at the factory. To change the language, use the Language menu. For more information, see [“Language” on page 128](#).

4. When you want to switch off the phone, press and hold the  **Power** key until the power-off image displays.

Initial Setup

The first time you turn on your phone, Set-up Wizard will prompt you to configure basic preferences, to quickly get started using your phone.

You can also access Set-up Wizard at any time in Settings.

From the Home screen, press  **MENU** > **Settings** > **Set-up Wizard**.

Use the  **Left Soft key (Preview)**,  **Right Soft key (Skip)**, and  **Center Select key (NEXT)** or (**SET**) to follow the prompts and set preferences:

- **Font Style:** Choose a font style for the dial, menus, and messaging.
- **Font Size:** Choose a font size for the dial, menus, and messaging.
- **Volume Key Control:** When enabled, you can adjust the display's font size by pressing the Volume Key.

DRAFT
FOR INTERNAL USE ONLY

- **Front Screen Menu:** View information about the menu available on the Front Screen when the phone is closed.
- **Call Sounds:** Choose how your phone alerts you to incoming calls.
- **Display Themes:** Choose the look of your phone's screen.
- **Menu Layout:** Choose the look of the Main menu.
- **Main Clock:** Select a format for the clock on the Home screen.
- **Front Clock:** Select a format for the clock on the external display when the phone is closed.

Setting Up Your Voicemail

Note: If your service provider did not preconfigure your voicemail server number, store the voicemail server number before accessing the server. Your service provider can give you the number.

Setting Up Your Personal Options

To set up your personal options:

1. Open the phone to access the keypad.
2. From a Home screen, press and hold the  **One** key.
3. Follow the voicemail prompts. If you need additional help setting up your voicemail, contact your service provider.

DRAFT
FOR INTERNAL USE ONLY

Install an Optional Memory Card

You can install an optional microSD or microSDHC memory card (not included) to expand available memory space.

Note: A memory card can be installed at any time; it is not necessary to install it prior to using the device.

To add additional memory to your phone, you can insert a microSD card into the memory card slot on the side of the phone.

Use the following instructions and illustrations to properly install a microSD card.

Note: Your phone supports microSD cards to a maximum size of 32GB.

1. Lift the memory card cover out and turn it to expose the card slot.
2. With the gold contacts facing down, carefully push the memory card into the slot until it “clicks” into place.
3. Replace the memory card cover.

To remove a microSD card:

1. Lift the memory card cover out and turn it to expose the card slot.
2. Push the memory card inward to release and carefully slide the card out of the memory card slot.
3. Replace the memory card cover.

DRAFT
FOR INTERNAL USE ONLY

Know Your Device

Learn some of the key features of your mobile device, including the screens and icons, as well as how to navigate the device and enter text using the keyboard.

DRAFT
FOR INTERNAL USE ONLY

Front View

DRAFT
FOR INTERNAL USE ONLY

The Home screen is the starting point for using your device. Here are some features of the Home screen.

- **Contacts Shortcut:** Opens the Contacts application.
- **Event Status:** Displays icons to indicate active alerts, reminders, and alarms.
- **Home Screen:** Displays Wallpaper, Banners, and Clock.
- **MENU Shortcut:** Opens the Menu screen.
- **Message Shortcut:** Opens the Messaging or Messages application. **Status Bar:** Displays icons to show network status, battery power, and connection details.

Change Display Appearance

You can change and customize several features of the Main and Cover display. See [“Display Settings” on page 118](#) for more details.

DRAFT
FOR INTERNAL USE ONLY

Status Bar

The Status Bar at the top of the Main display provides device information (such as network status, battery charge, and time) and message notifications.

Icon Glossary

The Icon Glossary is a list of all icons used on your phone.

- From the Home screen, press  **MENU** >  **Settings** > **Phone Info** > **Icon Glossary**.

DRAFT
FOR INTERNAL USE ONLY

Command Keys

There are several command keys that you can use to navigate your phone. These keys are referenced throughout this user manual.

Soft Keys

There are two soft keys: the  **Left Soft key** and the  **Right Soft key**. The roles of the soft keys vary depending on the function you are currently using. The labels on the bottom line of the display, just above each soft key, indicate the current function of the corresponding key.

Left Soft key

Some functions of the Left soft key are:

- On a Home screen, press the left soft key to open the Menu.
- When in a menu, the left soft key function is **Options**.

Right Soft Key

Some functions of the Right soft key are:

- In a Home screen, press the right soft key to open the Contacts or Shortcuts.
- When in a menu mode, the right soft key function is **Back**.

DRAFT
FOR INTERNAL USE ONLY

Directional Key

Press the Directional Key UP, DOWN, LEFT or RIGHT to browse menus and lists, or to launch applications from the Home screen with Directional Key Shortcuts.

While navigating, you can also press the number key corresponding to an menu item to launch the item.

Directional Key Shortcuts

From the Home screen, press the Directional Key to launch favorite applications.

Customize Directional Key Shortcuts with Set Shortcuts under Phone Settings. For details, see [“Set My Shortcuts” on page 126](#).

DRAFT
FOR INTERNAL USE ONLY

Center Select Key

Press the  **Center Select** key to select a highlighted item or perform the highlighted action.

For example, from the Home screen, press **MENU** to launch the Menu.

Clear Key

The  **Clear** key can be used for the following functions:

- If you enter an incorrect character, briefly press it to backspace and delete the character.
- Press and hold it to erase an entire sentence.
- Briefly press it to back up one menu level.

End/Power Key

The  **End/Power** key can be used for the following functions:

- Press and hold it to turn your phone on or off.
- Press it once to disconnect a call.
- Press it to return to the Home screen from any menu.
- Press it to cancel the last input.
- Press it to send an incoming call directly to Voicemail.

DRAFT
FOR INTERNAL USE ONLY

Send Key

Use the  **Send** key to for the following functions:

- Press it once to answer calls.
- Enter a number and briefly press it to make a call.
- Briefly press it in the Home screen to display a list of recent calls to and from your phone.
- Press it twice in standby mode to call the most recent number.
- Press it to pick up a waiting call.
- Press and hold it to turn on your phone when the phone is off.

Voice Commands Key

Press the  **Voice Commands** key to launch Voice Commands.

Voicemail Key

Press and hold the  **Voicemail** key to call Voicemail.

Navigation Keypad

Use the directional keys on the Navigation keypad to browse menus, sub-menus, and lists. Press the **Up** or **Down** Navigation keys when browsing the web to jump highlighted links on the web page.

Tip: The  **Center** Navigation key can often be used instead of the **Select** soft key.

DRAFT
FOR INTERNAL USE ONLY

Using the Front Keys as Soft Keys

When the phone is closed, use the front keys as soft keys to navigate a special menu.

With the phone closed, press the  **Play/Pause** key to launch the special MENU. Press the **Volume** keys to navigate the menu:

- **Message:** View messages and reply using Quick Text.
- **My Music:** Play music.
- **Voice Commands:** Open Voice Commands.
- **Full Readout:** Numbers, menus, alerts, and messages will be read aloud.
- **Today's Schedule:** List events scheduled for today.
- **Bluetooth:** Turns Bluetooth on or off.

In this menu, the  **Play** key functions as the  **Center Select** Key, and the  **Rewind** key functions as the BACK key, and may be used to return to the previous menu.

Locking and Unlocking the Front Keys

The front keys can be locked or disabled, preventing them from being pressed accidentally.

To lock (disable) the front keys, press the  **Fast Forward** key.

To unlock (enable) the front keys, press the  **Fast Forward** key, then press and hold the  **Rewind** key

Menu Navigation

Menus and sub-menus can be accessed by scrolling through them using the Navigation keys or by using the shortcut keys.

1. Accessing a menu by scrolling.
1. From a Home screen, press  **Menu**.
2. Scroll using the **Right** and **Left** Navigation keys to reach a main menu item, such as **Settings**. Press the  **Select** key (**OK**) to enter the menu.
3. If the menu contains sub-menus, you can access them by first highlighting the option and then by pressing **Select**.
4. If the menu you selected contains further options, repeat this step.
5. To scroll through these menus, press either the **Up** or **Down** Navigation key or the Volume key (located on the left side of your phone). Press **Select** to make your selection.

6. To return to the previous menu level, press

Clear.

7. To exit the menu without changing the settings, press  **End**.

Using Shortcut Numbers

Numbered menu items, such as menus, sub-menus, and options can be quickly accessed by using their shortcut numbers. In Menu mode, Main Menu can be accessed by pressing the number keys (1 to 9) corresponding to their location on the screen.

Shortcuts

Your phone offers shortcuts from Idle mode that can be customized for your ease and specific needs. The shortcuts menu is accessed by pressing the  **Right** Soft key when on a Home screen. Up to four shortcuts can be configured.

To see the shortcuts that can be added, from Idle mode, press **MENU > Settings > Phone Settings > Set Shortcuts > Set My Shortcuts > EDIT**. The following shortcuts are available:

- **Alarm Clock:** Set and edit alarms.
- **Advanced Voice Command:** Access the voice commands menu.
- **APPS:** Access the APPS menu.
- **Backup Assistant:** Access the Backup Assistant menu.
- **Bluetooth Menu:** Access the Bluetooth menu.
- **Bluetooth On/Off:** Enable or disable Bluetooth.
- **Calculator:** Access the Calculator.
- **Calendar:** Access the Calendar app.
- **Call Settings:** Access the call settings menu.

- **Display Settings:** Access the display settings menu.
- **Driving Mode:** Access the Driving Mode page.
- **Fake Call:** Access the Fake Call settings page.
- **Media Center:** Access the Media Center menu.
- **Messaging Inbox:** View and write messages.
- **Mobile Web:** Open the Internet browser.
- **Music & Tones:** Access the Music & Tones menu.
- **My Music:** View music stored on your phone.
- **My Pictures:** View pictures stored on your phone.
- **My Ringtones:** View ringtones.
- **My Sounds:** View sounds stored on your phone.
- **My Verizon:** Access your Verizon account.
- **My Videos:** View videos stored on your phone.
- **New Contact:** Add a new contact.
- **New Message:** Compose a new message.
- **Notepad:** Access the Notepad.
- **Phone Search:** Search your phone for files.
- **Phone Settings:** Access the Phone Settings menu.

DRAFT

Entering Text

Learn how to select the desired text input method when entering text and characters. This section also describes how to use the T9 predictive text system to reduce the key strokes required to enter text.

Changing the Text Entry Mode

You can change the entry mode to your preference.

1. While entering text, press the  **Left Soft** key to display a list of entry modes.
2. Highlight an entry mode, then press  **OK**.

Entering Text Using XT9 Word

XT9 Word is a predictive text entry mode that recognizes common English words matching the sequence of your key presses and inserts the most common word into your text. XT9 Word requires only one key press per letter of the word, and is much faster than traditional text entry.

To switch to XT9 Word mode:

- ▶ Press the  **Left Soft** key, then press **XT9 Word**.

DRAFT
FOR INTERNAL USE ONLY

While entering text:

- Press the key for each letter only once.
- Enter the entire word before editing or deleting characters. Press the  **Clear** key to backspace and clear one character, or press and hold to clear an entire word.
- If XT9 Word inserts the wrong word, press  **Zero** to toggle between other matching words.
- Press  to switch between Type (initial case), type (lower case) and TYPE (upper case).
- To enter a space, press .
- Press  once to enter a period.
- Press and hold any key to enter the number on the key.

Entering Text Using XT9 Palabra

XT9 Palabra is a predictive text entry mode for Spanish that recognizes common words matching the sequence of your key presses and inserts the most common word into your text. XT9 Palabra requires only one key press per letter of the word, and is much faster than traditional text entry.

- To switch to XT9 Palabra mode, press the  **Left** Soft key, then press **XT9 Palabra**.

DRAFT
FOR INTERNAL USE ONLY

While entering text:

- Press the key for each letter only once.
- Enter the entire word before editing or deleting characters. Press the  **Clear** key to backspace and clear one character, or press and hold to clear an entire word.
- If XT9 Palabra inserts the wrong word, press  to toggle between other matching words.
- Press  to switch between **Type** (initial case), **type** (lower case) and **TYPE** (upper case).
- To enter a space, press .
- Press  once to enter a period.
- Press and hold any key to enter the number on the key.

Entering Text Using Abc Mode

Abc Mode is standard text entry mode for mobile telephones.

- To switch to Abc mode, press the  **Left Soft** key, then press **Abc**.

While entering text:

- Press the appropriate key once for the first letter on the key, twice for the second letter, three times for the third letter, and four times for the fourth letter.
- When the correct letter displays, pause briefly to advance to the next letter, or press another key.
- Press the  **Clear** key to backspace and clear one character, or press and hold to clear an entire word.
- Press  to switch between **Abc** (initial case), **abc** (lower case) and **ABC** (upper case).
- To enter a space, press .
- Press  once to enter a period, twice for an “at” symbol (@), three times for a question mark (?), four times for an exclamation mark (!), five times for a hyphen (-), six times for a comma, seven times for an ampersand (&), eight times for a colon (:), nine times for an apostrophe (’), and ten times for a slash (/).
- Press and hold any key to enter the number on the key.

DRAFT

FOR INTERNAL USE ONLY

Fake Call

Use Fake Call to have your phone ring with a fake call when you press the **Volume** key down four times in a row.

Setting Up Fake Calls

Enable and choose options for Fake Calls.

- From the Home screen, press  **MENU** > **Settings** > **Call Settings** > **Fake Call**.

Initiating a Fake Call

- From Idle mode with the phone closed and the external keys unlocked, press the **Volume** key down four times.

After the Fake Call Timer period elapses, your phone rings to notify you of the fake call. If you entered Fake contact Info, it appears on the screen. Otherwise the screen displays “Restricted.”

When you answer the Fake Call, you'll hear the Fake Call Voice, if you selected it in Fake Call settings.

Driving Mode

When Driving Mode is enabled, your phone uses sounds to alert you to notifications, regardless of other phone or call settings.

For example, when you receive a call or message, your phone reads out the caller's (or sender's) name and number, and Call Alert sounds will play, even if you have set Master Volume to Sounds Off or Vibrate Only.

Enabling Driving Mode with Voice Commands

1. With the flip open, press the  **Voice Commands** key.
2. At the audio prompt, say “**Turn driving mode on.**”

DRAFT
FOR INTERNAL USE ONLY

Enabling Driving Mode in Settings

1. From the Home screen, press  **MENU** > **Settings** > **Sounds Settings** > **Driving Mode**.
2. Choose a setting:
 - **Caller ID Only:** Reads Caller ID for incoming calls and messages.
 - **ID & Message:** Reads Caller ID and the message content for incoming messages.
 - **Off:** Disable Driving Mode.

DRAFT

Push to Talk (PTT)

Push one button to contact other Verizon Wireless Push to Talk PTT customers.

A Barge call automatically connects, while an Alert call sends a tone – giving the recipient the option to either answer or ignore the call.

For complete details, go to verizonwireless.com/ptt.

Turn PTT On/Off

1. Press  **MENU** > **Settings** > **PTT Settings** > **PTT Mode**.
2. Select **On/Off**, then press the  **Center Select** key (**OK**).

Making a Barge Call

3. Press the  **PTT** key to access your PTT Contact List, and use the Directional key to highlight the entry you wish to call. (Or, if you prefer, you can enter the 10-digit number of the Verizon Wireless PTT subscriber.)
4. Press and hold the  **PTT** key. Listen for the tone. The message “Connecting to” will appear on the display. When connected, “Talking to” will appear on the display. Speak while pressing the  **PTT** key.
5. Release the  **PTT** key when finished speaking. This allows the called party to reply.
6. Press the  **End/Power** key to end the call.

DRAFT
FOR INTERNAL USE ONLY

Receiving a Barge Call

1. When your phone receives a Barge call, the Barge tone plays. You then hear the calling party speaking through the speaker phone. The calling party's wireless number or saved contact name will appear on your display.
2. Press and hold the  **PTT** key to talk.
3. Release the  **PTT** key to let another party talk.
4. Press the  **End/Power** key to end the call.

Making an Alert Call

1. Press the  **PTT** key to access your PTT Contact List and use the  **Directional** key to highlight the entry you wish to call.
2. Press the  **Left Soft key (Alert)**.
3. Press and release the  **PTT** key to alert the selected individual. The PTT Outgoing Alert tone sounds, and "**Alerting...**" appears on the display.
4. If the called party answers the alert, "**Listening to**" appears on the display and you will hear the called party speaking. If the called party chooses to ignore the alert, or if the phone is unavailable, an Unavailable message will appear on your display.
5. When the called party is finished speaking, you will hear the Floor Available tone and the Connected screen will appear on your display.
6. Press and hold the  **PTT** key to talk.
7. Release the  **PTT** key when finished speaking. This allows the called party to reply.
8. Press the  **End/Power** key to end the call.

DRAFT

FOR INTERNAL USE ONLY

Receiving an Alert Call

1. When your phone receives an alert, the PTT Alert tone plays. The message **Incoming Alert** is displayed with the phone number or contact name of the calling party. The PTT Alert tone repeats every 2 seconds until it is answered or ignored, or until 20 seconds have passed. If you do not answer within 20 seconds, the PTT call is automatically disconnected.
2. To answer the alert, press and hold the  **PTT** key and begin talking. To ignore the alert, press the  **Right Soft key (Ignore)**.
3. Release the  **PTT** Key to let another party talk.
4. Press the  **End/Power** key to end the call.

PTT Contacts

Note: PTT Mode must be activated in order to see the [PTT Contact List](#).

1. Press  **MENU** > **Contacts** > **PTT Contact List**.
2. Press the  **Directional** key UP or DOWN to scroll through your Contact List.
3. Press the  **Right Soft key (Options)** to select one of the following options: **New PTT Contact**, **Copy To Contacts**, **Temp PTT Group**, **Erase**, **Edit**, **Do Not Disturb-On**, **Do Not Disturb List**, **Call**, **New Message**, **Sort**.
4. Press the  **Left Soft key (Alert)**.
5. Press and release the  **PTT** key to alert the selected individual.

Adding Pauses or Waits

Calls to automated systems can require you to enter numbers to navigate menus, or to enter a password or account number. You can store phone numbers with special pause or wait characters to make entering these numbers easier.

1. From the Home screen, press the  **Right Soft** key (**Contacts**).
2. Create a new contact or edit an existing contact.
3. Enter the phone number up to the pause or wait, then press the  **Right Soft** key (**Options**) to select an option:
 - **Add 2-Sec Pause:** Stops the dialing sequence for two seconds, then automatically dials the remaining digits. A “P” appears in the field to indicate the pause.
 - **Add Wait:** Stops the dialing sequence, waiting for input from you. A “W” appears in the field to indicate the wait.
4. When finished, press  **SAVE**.

Note: Entering multiple pauses extends the length of a pause, and each pause counts as a digit. For example, two consecutive pauses create a total pause of four seconds, and count as two digits.

Finding Contacts

1. From the Home screen, press the  **Right Soft** key (**Contacts**). The Contact List displays, with the cursor in the **Go To** field.
2. In the **Go To** field, enter the first few characters of the Contact name to see matching entries.
3. Use the  **Directional** keys to highlight a contact, then use these options:
 - Press the  **Send** key to call the contact.
 - Press  **VIEW** to open the contact entry.
 - Press the  **Left Soft** key (**Edit**) to edit the contact entry.
 - Press the  **Right Soft** key (**Options**) for contacts options.

Favorites

Set contacts as Favorites, to quickly find contacts to view, send a message, or call the contact.

Assigning Favorites

1. From the Home screen, press  **MENU** >  **Contacts** > **Favorites**.
2. Use the  **Directional** keys to highlight a an empty Favorite.
3. Press  **ADD**, then choose an option:
 - **From Contacts:** Highlight and mark contact(s) to assign as favorites. You can mark multiple contacts at once to create a Favorite for each.
 - **From Groups:** Choose a group to assign as a Favorite.
4. Press the  **Left Soft key (Done)** to create the favorite(s).

Removing Favorites

1. From the Home screen, press  **MENU** >  **Contacts** > **Favorites**.
2. Highlight a Favorite and press the  **Right Soft key (Options)**.
3. Choose an option, then press  **OK**:
 - **Remove:** Erase the selected contact from the Favorites list.
 - **Remove All:** Erase all favorites from the list.

DRAFT
FOR INTERNAL USE ONLY

Using Favorites

Use Favorites to quickly view a favorite's contact record, send a message to a favorites, or view messages to and from the favorite.

1. From the Home screen, press  **MENU** >  **Contacts** > **Favorites**.
2. Highlight a favorite contact to use these options:
 - To send a message, press the  **Right Soft key (Options)** > **New Message**.
 - To view the favorite's contact record, press  **VIEW**.
 - To call the favorite, highlight the favorite, and then press the  **Send** key.
 - To view all messages to and from the favorite, press the  **Left Soft key (Messages)**.

Groups

You can assign contacts to categories, called Groups, to make searching your contacts faster, or to quickly send messages to group members.

Adding Contacts to Groups

1. From the Home screen, press  **MENU** >  **Contacts** > **Groups**.
2. Use the  **Directional** keys to highlight a group.
3. Press  **Right Soft key (Options)** > **Add**.
4. Highlight contact(s) and press  **MARK** to place a check mark beside the contact.
5. Press the  **Left Soft key (Done)** to add the contacts to the group.

Note: You can also assign a contact to a group when you create or edit the contact record.

DRAFT
FOR INTERNAL USE ONLY

Changing a Contact's Group Assignment

1. From the Home screen, press the  **Right Soft key (Contacts)**.
2. Use the  **Directional** keys to highlight the contact you wish to reassign.
3. Press the  **Left Soft key (Edit)**.
4. Highlight the Group field, then press the  **Left Soft key (Edit)**.
5. Highlight groups, and press  **MARK** to mark or unmark groups for assignment.
6. Press the  **Left Soft key (Done)**.
7. Press  **SAVE** to save the new group assignment(s).

Creating a New Group

In addition to the default groups, you can create additional groups.

1. From the Home screen, press  **MENU** >  **Contacts** > **Groups**.
2. Press  **Left Soft key (New)**.
3. At the prompt, enter a name for the new group.
4. Press  **SAVE** to save the new group.

DRAFT
FOR INTERNAL USE ONLY

Sending a Message to Group Members

Send a message to all members of a group at once.

Note: Messaging availability varies when roaming outside the Verizon Wireless Network.

1. From the Home screen, press  **MENU** >  **Contacts** > **Groups**.
2. Use the  **Directional** keys to highlight a group, then press  **VIEW** to view it.
3. Press the  **Right Soft key (Options)** > **New Message**.
4. Continue creating the new message, then press  **SEND**.

Speed Dials

Speed dial numbers are 1-, 2-, or 3-digit shortcuts assigned to contacts that allow you to quickly call the contacts.

The following Speed Dials are reserved by default and cannot be reassigned:

- Speed Dial 1 is reserved for Voicemail.
- Speed Dial 96 is reserved for Data Usage inquiries (#DATA).
- Speed Dial 97 is reserved for Balance inquiries (#BAL).
- Speed Dial 98 is reserved for Minute Usage (#MIN).
- Speed Dial 99 is reserved for Payment information (#PMT).
- Speed Dial 211 is reserved for health and human services.
- Speed Dial 311 is reserved for non-emergency municipal services.
- Speed Dial 411 is reserved for directory assistance.
- Speed Dial 611 is reserved for customer service access.
- Speed Dial 911 is reserved for emergency calls.

DRAFT
FOR INTERNAL USE ONLY

Assigning Speed Dials

1. From the Home screen, press  **MENU** >  **Contacts** > **Speed Dials**.
2. Use the  **Directional** keys to highlight a speed dial.

– or –

Enter a speed dial in the **Go To** field.
3. Press  **SET**.
4. At the prompt, use the  **Directional** keys to highlight a contact.

– or –

Enter the first field characters in the **Go To** field.
5. Press  **OK**.
6. At the prompt, confirm the assignment.

Emergency Contacts

Set up to 3 emergency contacts, plus enter personal information that may be helpful to others using your phone in an emergency.

Tip: Emergency contacts display in red in **Contacts**.

Assigning Emergency Contacts

1. From the Home screen, press the  **Right Soft** key (**Contacts**).

In Case of Emergency is highlighted automatically.
2. Press  **VIEW** to set emergency contacts.
3. Highlight **Contact 1**, **Contact 2**, or **Contact 3** and press  **ADD**.
4. At the ADD CONTACT screen, highlight an option and press  **OK**:
 - **From Contacts:** Choose an existing contact from Contacts List.
 - **New Contact:** Enter a new contact.

DRAFT
FOR INTERNAL USE ONLY

5. At the prompt, use the  **Directional** keys to highlight a contact, or enter the first field characters in the **Go To** field.
6. Press  **OK**.

Re-assigning or Unassigning an Emergency Contact

1. From the Home screen, press the  **Right Soft** key (**Contacts**).

In Case of Emergency is highlighted automatically.

2. Press  **VIEW** to display emergency contacts.
3. Highlight a contact, then press the  **Right Soft** key (**Options**) for these options:
 - **Re-assign:** Choose another contact from Contacts List, or create a new contact for this assignment.
 - **Unassign:** Remove the contact from this emergency contact.

Entering Personal Information

Enter up to 3 notes containing information that might be helpful to others using your phone in an emergency.

1. From the Home screen, press the  **Right Soft** key (**Contacts**).

In Case of Emergency is highlighted automatically.

2. Press  **VIEW** to display emergency contacts.
3. Press **Personal Info**, then press  **VIEW**.
4. Highlight **Note 1**, **Note 2**, or **Note 3**, then press  **ADD**.
5. Enter your personal information, then press  **SAVE** to save the note.

My Name Card

My Name Card is your personal contact entry in Contacts, which you can send to recipients as a virtual business card (vCard) attached to a message, or via Bluetooth.

Editing My Name Card

By default, My Name Card contains your mobile telephone number. You can edit My Name Card to include other information.

1. From the Home screen, press  **MENU** >  **Contacts** > **My Name Card**.
2. Press  **Edit**.
3. Use the  **Directional** keys to move to fields to modify or add information.
4. When finished, press  **SAVE**.

Sending My Name Card (vCard) by Message

Send your contact information, as My Name Card, as an attachment to a message.

1. From the Home screen, press  **MENU** >  **Contacts** > **My Name Card**.
2. Press the  **Right Soft key (Options)** > **Send via Message** and press  **OK**.
3. Press the  **Right Soft key (Add)** to select contacts.
4. Press  **OK** and enter your message text.
5. Continue creating the new message, then press  **SEND**.

DRAFT
FOR INTERNAL USE ONLY

Sending My Name Card (vCard) by Bluetooth

Send your contact information, as My Name Card, to Bluetooth devices that support vCards.

1. From the Home screen, press  **MENU** >  **Contacts** > **My Name Card**.
2. Press the  **Right Soft key (Options)** > **Send via Bluetooth** and press  **OK**.
3. At the CHOOSE DEVICE screen, use the  **Directional** keys to highlight an option, then press  **OK**.
 - **Add New Device:** Searches for a new Bluetooth device for pairing.
 - **<Device Name>:** Sends My Name Card to a previously-paired Bluetooth device.
4. Continue with the Bluetooth transfer.

Sharing Contacts

You can share contacts as Name Cards (vCards) via message, or via Bluetooth.

Sending Name Cards (vCards) by Bluetooth

Send individual contacts, or your entire contact list, to Bluetooth devices that support vCards.

Not all Bluetooth devices will accept a name card, and not all devices support transfers of multiple name cards. Check your target device's documentation.

1. From the Home screen, press the  **Right Soft key (Contacts)**.
2. Press the  **Right Soft key (Options)**, then press **Send Name Card**.
3. At the SEND NAME CARD screen, highlight **Bluetooth** and press  **OK**.

DRAFT
FOR INTERNAL USE ONLY

4. At the SEND VIA BLUETOOTH screen, highlight contacts individually and press  **MARK** or press the  **Right Soft key (Options)** > **Mark All**, then press the  **Left Soft key (Done)**.
5. At the CHOOSE DEVICE screen, highlight an option, then press  **OK**:
 - **Add New Device**: Search for a new Bluetooth device for pairing.
 - **<Device Name>**: Send to a previously-paired Bluetooth device.
6. Continue with the Bluetooth transfer.

Sending Name Cards (vCard) by Message

Send a contact record, or your entire contact list, as attachment(s) to a message.

1. From the Home screen, press the  **Right Soft key (Contacts)**.
2. Press the  **Right Soft key (Options)**, then press **Send Name Card**.
3. At the SEND NAME CARD screen, highlight **Message** and press  **OK**.
4. At the SEND WITH MESSAGE screen, highlight contacts individually and press  **MARK**, then press the  **Left Soft key (Done)**.
5. Continue creating the new message, then press  **SEND**.

Messaging

This section explains how to send and receive messages, and other features and functionality related to messaging.

Types of Messages

Your phone can send and receive:

- Text Messages
- Multimedia Messages
- Social Networks

Text Messages are simple messages containing text, which can be sent to another mobile phone. Your phone also supports long text messages. Text messaging is also known as SMS (Simple Messaging Service).

Multimedia Messages contain text, as well as attachments such as sounds, graphics, animations, and name cards. Multimedia messaging is also known as MMS (Multimedia Messaging Service).

Creating and Sending Messages

1. From the Home screen, press the  **Left Soft key (Message) > New Message.**
2. At the NEW TEXT MSG screen, enter recipients in the **To:** fields:
 - Use the keypad to enter a recipient's phone number, contact name, or email address.
 - Press the  **Right Soft key (Add)** to select recipients **From Contacts, Recent Calls, Favorites, or Groups.**
 - or –
 - Choose **To Contacts** or **To PTT Contacts** to save a number you enter as a contact.

DRAFT
FOR INTERNAL USE ONLY

- As you enter characters, matching contacts display in a list. Use the  **Directional** keys to highlight a contact, then press **OK** to select it, or press the  **Right Soft key (Add)** to save the number you entered **To Contacts** or **To PTT Contacts**.
3. Use the  **Directional** keys to move to the **Text:** field to compose your message.
 4. While entering text, press the  **Right Soft key (Options)** for the following options:
 - **Attach:** Add an attachment to the message.
 - **Save As Draft:** Save a copy of the message in the Drafts folder.
 - **Insert Quick Text:** Insert a preloaded phrase.
 - **Copy:** Select and copy text, for pasting into another field. Use the  **Directional** keys to highlight text in the field, then press **DONE**.
 - **Paste:** If you have copied text, paste the copied text.
 - **Add Subject:** Add subject text.
 - **Priority Level:** Set the urgency of the message, to High or Normal.

- **Callback #:** Include a callback number with the message. By default, this is your mobile telephone number, or you can enter a different number.
 - **Cancel Message:** Cancel the message, with the option to save it in the Drafts folder.
5. Press  **SEND**, or the  **Send** key to send the message.

Note: Multimedia messages are only available within Verizon Wireless Enhanced Services Area.

DRAFT
FOR INTERNAL USE ONLY

Adding Attachments

Adding an attachment converts the text message to a multimedia message. Blank slides are created for additional attachments, making it easy to add additional attachments.

Note: Videos cannot be added to messages containing pictures or sound.

1. Use the  **Directional** keys to move to the **Text** field. Press the  **Right Soft key (Options)** > **Attach**. Adding an attachment converts the text message to a multimedia message.

Attachment options are:

- **Picture:** Select a picture from your phone or optional memory card.
- **Video:** Select a video from your phone or optional memory card.
- **Sound:** Select a sound recording from your phone or optional memory card.
- **Record Sound:** Create a new sound recording using the microphone.

- **Name Card:** Attach your Name Card or Name Cards for your Contacts.
 - **Calendar Event:** Select or create a new Calendar Event.
2. Use the  **Directional** keys to highlight the attachment, then press the  **Right Soft key (Options)** for these options:
 - **Attach:** Add an attachment to the message.
 - **Preview:** View the message before sending.
 - **Save As Draft:** Save a copy of the message in the Drafts folder.
 - **Add Slide:** Insert a second slide to the message.
 - **Priority Level:** Set the urgency of the message, to High or Normal.
 - **Remove Picture/Video/Sound/Name Card/Calendar Event:** Removes the attachment.
 - **Remove Slide:** Delete the current slide (available if more than one slide is attached).
 - **Cancel Message:** Cancel the message, with the option to save it in the Drafts folder.

DRAFT
FOR INTERNAL USE ONLY

3. Press  **SEND**, or the  **Send** key to send the message.

Message Settings

This menu allows you to define settings for messages sent or received on your phone. To access your message settings, use the following steps:

1. From the Home screen, press  **MENU** >  **Messaging**.
2. Press the  **Left Soft key (Settings)** for these options:
 - **Inbox View:** Set the default message view. Press **Time** to display messages by time received, or **Contact** to display messages by name or number (also known as threaded view).
 - **Entry Mode:** Choose a default text entry mode, from **Abc**, **ABC**, **123**, **XT9 Word**, **XT9 Palabra**, **Chinese**, **Korean**, **Vietnamese**, or **XT9 Vietnamese**.
 - **Auto Save Sent:** Choose the save mode for messages you send. Press **On** to save all sent messages, **Off** to discard sent messages, or **Prompt** to have the phone prompt you each time.
 - **Auto Erase Inbox:** Press **On** to automatically replace the oldest message of the same type when the Inbox exceeds the maximum number of messages of that type. For example, when the Inbox exceeds 300 text messages, the oldest text message is replaced with a new one. Picture and video messages are replaced when the phone's memory is full. Press **Off** to disable automatic erasures.
 - **Messaging Font Size:** Set the default size for message text, **Normal** or **Large**.
 - **TXT Auto View:** Press **On** to automatically display text messages when they arrive, or **Off** to have the phone prompt you.
 - **Multimedia Auto Receive:** Press **On** to automatically accept new multimedia messages. Press **Off** to have the phone prompt you to download new multimedia messages.

DRAFT
FOR INTERNAL USE ONLY

- **Group Messaging:** Configure default settings for messages sent to multiple contacts. Press **Individual Messages** to allow recipients to only reply to you (not the group), or press **Group Conversation** to allow recipients to reply to the whole group.
- **Domain Extensions:** Create and manage a list of web and Email extensions for the Domain Extensions entry mode. Press the  **Left** Soft key (**Erase**) to delete extensions. Press the  **Right** Soft key (**New**) to create new extensions. To modify an extension, highlight the extension and press  **EDIT**.
- **Quick Text:** Create and manage preloaded phrases to add to messages. Press the  **Left** Soft key (**Erase**) to delete phrases. Press the  **Right** Soft key (**Options**) > (**New**) to add new phrases. To modify a phrase, highlight the phrase and press  **EDIT**.
- **Emergency Alerts:** This device is designed to receive Wireless Emergency Alerts from the Commercial Mobile Alert Service (CMAS), including Presidential Alerts, Imminent Alerts (Severe or Extreme), and AMBER Alerts (missing persons). You may choose not to receive Imminent and AMBER alerts, but Presidential Alerts cannot be disabled.
- **Voicemail #:** Enter a new Voicemail speed dial. The default is *86.
- **Callback #:** Press **On** to add a callback phone number to your messages, and set the phone number. Press **Off** to omit a callback number (you can manually add a callback number to individual messages).
- **Signature:** Press **Custom** to add a signature to all messages, then use the  **Directional** keys to move to the signature field to create the signature. Press **None** to disable signatures.

DRAFT
FOR INTERNAL USE ONLY

- **Delivery Receipt:** Choose whether you are notified when a message you send is delivered. Press **On** to be notified for every message, or **Off** to disable notification (you can set an optional delivery receipt for individual messages when you create them).
- **Social Networks:** Select your preferred social network as the default. Press **Facebook**, **Twitter**, or **Let Me Choose**.

Receiving Messages

When you receive a message, you can choose to:

- **View Now:** Open the message for viewing.
- **View Later:** Dismiss the alert, and save the message in the Messages folders.
- **Reject:** If you have disabled the Multimedia Auto Receive setting, reject the message. The message is not saved to Messages.

Tip: If you want to control when you download multimedia content, you can disable Multimedia Auto Receive.

Viewing Text Messages

When you receive a text message, the alert sounds (unless turned off), and **New Text Message** displays on the screen.

1. At the New Text Message prompt, press  **OK** to **View Now**.
2. Press  **REPLY** to respond to the message with a new Text, Picture, Video or Voice message.
3. Press the  **Left Soft key (Erase)** to delete the message.
4. While viewing the message, press the  **Right Soft key (Options)** for these message options:
 - **Forward:** Send the message to another recipient.
 - **Reply w. Copy:** Reply to the sender, plus other recipients if desired, and include a copy of the original message.
 - **Save As Quick Text:** Save the message text to the Quick Text list.

DRAFT
FOR INTERNAL USE ONLY

- **Lock/Unlock:** Lock or unlock the message to prevent deletion.
- **Add To Contacts:** Save the number of the sender to Contacts as a new entry or update to an existing entry.
- **Add To PTT Contacts:** Save the number of the sender to Contacts as a new PTT Contacts entry.
- **Messaging Font Size:** Select the font size, Normal or Large.
- **Extract Addresses:** Display all Contact Numbers, Email Addresses, and URLs extracted from the message, to call, send an email, or open the web page.
- **Message Info:** Display details about the message.

Viewing Multimedia Messages

When you receive a multimedia message, an alert sounds (unless turned off), and **New Multimedia Message** displays on the screen.

Note: This procedure describes default behavior. If you make changes to Message Settings, options or steps may be different.

1. At the New Message prompt, press  **OK** to **View Now**.
2. After loading, the attachment (and text, if any) displays. Use the  **Directional** keys to scroll to see the entire message, if necessary.
3. Press  **REPLY** to respond to the message with a new Text, Picture, Video or Voice message.
4. Press the  **Left Soft key (Erase)** to delete the message.

DRAFT
FOR INTERNAL USE ONLY

5. While viewing the message, press the  **Right Soft key (Options)** for these message options:

- **Play again:** Play the attached video or sound again.
- **Forward:** Send the message to another recipient.
- **Reply w. Copy:** Reply to the sender, plus other recipients if desired, and include a copy of the original message.
- **Erase:** (Voice or Picture message with attached Sound) Delete the message.
- **Save Picture:** (Picture messages only) Save the attached picture to My Pictures.
- **Save Video:** (Video messages only) Save the attached video to My Videos.
- **Save Sound:** (Voice or Picture message with attached Sound) Save the attached sound to My Sounds.
- **Save as Ringtone:** (Voice or Picture message with attached Sound) Save the attached sound as a ringtone.

- **View Name Card:** (If Name card is attached) Display the attached name card.
- **Save Name Card:** (If Name card is attached) Save the attached name card to Contacts.
- **Set As:** Assign the attached picture as Wallpaper or Picture ID.
- **Save As Quick Text:** Save the message text to the Quick Text list.
- **Lock/Unlock:** Lock or unlock the message to prevent deletion.
- **Add To Contacts/Add To PTT Contacts:** Save the number of the sender to Contacts as a new entry or addition to an existing entry, or as a new PTT Contact.
- **Extract Addresses:** Display all Contact Numbers, Email Addresses, and URLs extracted from the message, to call, send an email, or open the web page.
- **Message Info:** Display details about the message.

Emergency Alerts

Emergency Alerts allows customers to receive geographically-targeted Wireless Emergency Alerts. Alerts will alert customers of imminent threats to their safety within their area. There is no charge for receiving an Emergency Alert.

There are three types of Emergency Alerts:

- Presidential
- Imminent (Severe or Extreme)
- AMBER Alerts (missing person alert)

Customers may choose not to receive Imminent Alerts and AMBER Alerts. Presidential Alerts can not be disabled.

To disable Imminent Threat Alerts (Extreme and Severe) and AMBER Alerts, follow these instructions:

1. From the Home screen, press  **MENU** >  **Messaging**.
2. Press the  **Left Soft key Settings** > **Emergency Alerts** for the following options:
 - **Receive Alerts:** All alerts are enabled by default (check mark showing).
To disable alerts, highlight an alert and press **UNMARK**, then press **Done**.
 - **Alert Reminder:** Set alerts to repeat **Once**, **Every 2 minutes**, **Every 15 minutes**, or **Off** (no repeats).
 - **Alert Vibrate:** Press **On** to have the phone vibrate when new messages arrive. Press **Off** to disable this feature.

DRAFT
FOR INTERNAL USE ONLY

Message Folders

Messages are stored in the message folders. You can choose how messages appear with the Inbox View setting in Message Settings.

Tip: To scroll through all messages in the Messages, Sent, or Drafts folder, open one message, then press the  **Directional** keys LEFT or RIGHT to scroll through the folders.

Viewing Messages by Contact

By default, the Inbox View setting is set to Contact. All incoming and sent messages are stored in the Messages folder, grouped by contact name (if the sender/recipient is stored as a contact), or phone number, to provide a threaded view of the message exchange.

1. From the Home screen, press the  **Left Soft key (Message)**.

The most recent message from each contact displays. The icon shows whether the message is new or already opened, and a number to the right indicates the number of unread messages from this contact/number.

2. Highlight **New Message** to create a new message.
3. To view a message thread, use the  **Directional** keys to highlight a contact/number, then press  **OPEN**.
4. To send a reply message, press the  **Left Soft key (Reply)**.
5. While viewing the list of contacts/messages, use the  **Directional** keys to highlight a contact/number, then press the  **Right Soft key (Options)** for these options:
 - **Erase:** Delete the highlighted message thread.
 - **Add To Contacts:** Save the sender or recipient's number to a contact record (available if the number is not already saved).
 - **Add To PTT Contacts:** Save the sender or recipient's number to a PTT contact record (available if the number is not already saved, and PTT Mode is On).
 - **New Message:** Create a new message addressed to the contact/number.

DRAFT
FOR INTERNAL USE ONLY

- **Manage Messages:** Perform actions on multiple messages, including Erase, Lock, Unlock, Mark as Read, Mark as Unread, and Copy to Card (available if the memory card inserted).
- **Sort Alphabetically:** Display message threads by contact/phone number.
- **Messaging Menu:** Return to the Messaging menu.
- **Social Networks:** Update your networks by message.

Viewing Messages by Time

When the Inbox View setting is set to Time, incoming messages are stored in the Inbox, and sent messages are stored in the Sent folder, sorted by time.

Note: The Inbox folder is only present when the Inbox View setting is set to Time.

Inbox Folder

1. From the Home screen, press the  **Left Soft key (Message) > Inbox.**
2. Use the  **Directional** keys to scroll the list of messages. Highlight a message, then press the  **Left Soft key (Erase)** to delete the message, or press  **OPEN** to view the message.
3. Highlight a message, then press the  **Right Soft key (Options)** for message options:
 - **Reply:** Reply to the sender with a new message.
 - **Reply w. Copy:** Reply to the sender, plus other recipients if desired, and include the first 100 characters of the original message in the Text field.

DRAFT
FOR INTERNAL USE ONLY

- **Forward:** Send the message to another recipient.
- **Add To Contacts:** Save the number of the sender to Contacts as a new entry or additional to an existing entry (available if the number is not already saved).
- **Add To PTT Contacts:** Save the number of the sender to Contacts as a new entry or additional to an existing entry (available if the number is not already saved and PTT Mode is On).
- **Extract Addresses:** Display numbers, Email Addresses, and URLs from the message, to call, send an email, or open the web page.
- **Message Info:** Display details about the highlighted message.
- **Manage Inbox:** Perform actions on multiple messages, including **Erase**, **Lock**, **Unlock**, **Mark as Read**, **Mark as Unread**, and **Copy to Card** (available if the memory card inserted).

- **Sort by Sender:** List all messages in the Inbox by Sender.
- **Sort by Size:** List all messages in the Inbox by Size.

Sent Folder

When the Inbox View setting is set to Time, outgoing messages are stored in the Sent folder by date and time.

Note: The Sent folder is only present when the Inbox View setting is set to Time.

1. From the Home screen, press the  **Left Soft key (Message) > Sent**.
2. Use the  **Directional** keys to scroll the list of messages. Highlight a message, then use these options:
 - Press the  **Left Soft key (Erase)** to delete the message.
 - Press  **OPEN** to view the message.

DRAFT
FOR INTERNAL USE ONLY

- Press the  **Right Soft key (Options)** for message options:
 - **Forward:** Send the message to another recipient.
 - **Resend:** Send the message again, to the original recipient(s), plus new recipients if desired.
 - **Add To Contacts:** Save the number of the sender to Contacts as a new entry or additional to an existing entry (available if the number is not already saved).
 - **Add To PTT Contacts:** Save the number of the sender to Contacts as a new entry or additional to an existing entry (available if the number is not already saved and PTT Mode is On).
 - **Message Info:** Display details about the highlighted message.
 - **Manage Sent:** Perform actions on multiple messages, including Erase, Lock, Unlock, and Copy to Card (available if the memory card inserted).

- **Sort by Recipient:** List messages by the first addressee.
- **Sort by Time/Type:** List messages by type (Text, Picture, Video or Voice) or by time received.

Drafts Folder

Drafts are messages you have created, but have not yet sent. You can review, edit or send a draft message.

1. From the Home screen, press  **MENU** >  **Messaging** > **Drafts**.
2. Use the  **Directional** keys to scroll the list of messages. While viewing the list of messages, press the  **Right Soft key (Options)** for message options:
 - **Send:** Send the message, as-is, to the listed recipients.
 - **Add To Contacts:** Save the number of the sender to Contacts as a new entry or additional to an existing entry (available if the number is not already saved).

DRAFT
FOR INTERNAL USE ONLY

- **Add To PTT Contacts:** Save the number of the sender to Contacts as a new entry or additional to an existing entry (available if the number is not already saved and PTT Mode is On).
 - **Manage Drafts:** Perform actions on multiple messages, including **Erase**, **Lock**, **Unlock**, and **Copy to Card** (available if the memory card inserted).
 - **Sort by Recipient:** List all messages by the first addressee.
 - **Sort by Time/Type:** List messages by type (Text, Picture, Video or Voice) or by time created.
3. Highlight a message, then press the  **Left** Soft key (**Erase**) to delete the message, or press  **EDIT** to edit the message before sending.

Voicemail

From the Messaging menu, you can view the total of new voicemail messages, clear the voicemail counter, and call voicemail to check messages.

1. From the Home screen, press  **MENU** >  **Messaging** > **Voicemail**.
2. On the Voicemail screen, view the number of new messages. Press  **CALL** to dial voicemail to check messages, or press the  **Left** Soft key (**Clear**) to clear the voicemail counter.

Tools

In Tools, a variety of useful electronic tools are provided, including a voice recorder, calculator, calendar, timer, and stopwatch.

Voice Commands

Voice Commands is advanced speech recognition software that recognizes your spoken commands to dial phone numbers, create messages, and launch applications such as Contacts, Calendar and My Pictures.

To use Voice Commands, speak naturally into your phone, at a distance of 3-12 inches. There is no need to “train” Voice Commands, it is designed to recognize natural speech.

1. With the flip open, press the  **Voice Commands** key to launch Voice Commands.

– or –

From the Home screen, press  **MENU** >  **Tools** > **Voice Commands**.

2. At the audio prompt, speak a command:
 - **Call <Name or #>**: Dial a call by saying a Name in your Contacts List, a Name and a Location (home, work, mobile) or the phone number.
 - **Send Message <Name or #>**: Send a text, picture, or video message to a number or to someone in your Contacts List.
 - **Go To <Menu>**: Open any application installed on your device.

DRAFT
FOR INTERNAL USE ONLY

- **Check <Item>**: View details of your phone Status, Voicemail, Messages, Missed Calls, Time, Signal Strength, Battery Level, Volume, Balance, Minutes, Payment, and My Number.
- **Contacts <Name>**: Open a contact record from Contacts.
- **Redial**: Call the last number you dialed.
- **Play <Playlist>**: Open the My Music menu, plays songs in a playlist, or all songs.
- **Turn Driving Mode On**: Activate Driving Mode.
- **My Verizon**: Launch the My Verizon application.
- **Help**: View a helpful tutorial about using Voice Commands.

Voice Commands Settings

Note: When using the Voice Command system, there are four commands that are available at all times:

Repeat will repeat the Voice Command prompt.

Readout will read out the phone status or contact details. **Info** will offer more information command or read out available options. **Quit** will exit the Voice Command system.

You can adjust the settings and preferences by opening Voice Commands menu. Using this menu, you can change the following Voice Command features:

1. With the flip open, press the  **Voice Commands** key to launch Voice Commands.
2. Press the  **Right Soft key (Settings)** to configure:
 - **Confirm Choices**: Control whether Voice Commands asks you to confirm a command. Choose **Automatic**, **Always Confirm**, or **Never Confirm**.
 - **Sensitivity**: Set the sensitivity of speech recognition. Press **More Sensitive** if Voice Commands often misses commands, **Automatic** for default sensitivity, or **Less Sensitive**.

DRAFT
FOR INTERNAL USE ONLY

- **Adapt Voice:** Train speech recognition to your voice.
- **Prompts:** Choose the type of prompts Voice Commands gives you:

 - **Edit:** Open the highlighted note to modify it.
 - **Erase:** Delete the highlighted note.
 - **Erase Notes:** Mark multiple notes for deletion.
 - **Lock/Unlock:** Add or remove protection from erasure.

USB Mass Storage

Connect your phone to a PC, to copy files, such as music, pictures or videos, between your phone and the PC.

Note: While connected to a PC, your phone cannot make or receive calls.

1. Insert an optional memory card in your phone.
2. Plug in a USB cable to your phone and connect it to a USB port on a PC.
3. From the Home screen, press  **MENU** >  **Tools** > **USB Mass Storage**.
4. At the prompt on your PC, select a method for transferring files.
5. After transferring files, press  **DISCONNECT**, and confirm the disconnection.

VZ Navigator

VZ Navigator® uses GPS positioning to tell you where you are, what is nearby, and to quickly and easily give you directions. With audible turn-by-turn directions, you can locate points of interest in the U.S., including landmarks, restaurants, and even ATMs.

Note: VZ Navigator requires service activation. Contact Verizon Wireless for more information.

1. From the Home screen, press  **MENU** >  **VZ Navigator**.
2. The first time you launch VZ Navigator, you are prompted to download and install the application, and to agree to the terms of service.

Tip: To use VZ Navigator, you must enable the Location Detection setting.

FOR INTERNAL USE ONLY

Settings

You can configure settings for your phone under Settings.

My Verizon

My Verizon connects to the Verizon Wireless Mobile Web. You can setup Favorites or choose from the available applications.

- From the Home screen, press  **MENU** >  **Settings** > **My Verizon**.

Master Volume

Set the volume for all ringtones and alerts.

1. From the Home screen, press  **MENU** >  **Settings** > **Master Volume**.
2. Use the  **Directional** key or **Volume** key to highlight a volume level, then press  **SET**.

Bluetooth Menu

Use Bluetooth to exchange information over a distance of about 30 feet without a physical connection.

Turning Bluetooth On or Off

Turn Bluetooth on to exchange information with a Bluetooth device. To save battery life, or in situations where use of wireless devices is prohibited, turn Bluetooth off.

1. From the Home screen, press  **MENU** >  **Settings** > **Bluetooth Menu**.
2. Press the  **Left Soft key (Turn On)** or **(Turn Off)**.
– or –

From the Home screen, press the  **Directional** key **RIGHT**, highlight **Bluetooth On/Off**, then press  **OK**.

Note: When Bluetooth is turned on, the  **Bluetooth On** icon appears in the Status Bar of the display.

FOR INTERNAL USE ONLY

Supported Profiles

Bluetooth profiles are specifications for services supported by individual devices. Profiles improve the ability of different devices to work together.

Note: This phone does not support all Bluetooth profiles. For more information about compatible Bluetooth devices, visit the Verizon Wireless website at: verizonwireless.com.

► From the Home screen, press  **MENU** >  **Settings** > **Bluetooth Menu** >  **Right Soft key (Options)** > **Supported Profiles**.

Your phone supports these Bluetooth profiles:

- **Headset:** HSP 1.1 supports the use of a compatible Bluetooth headset for mono voice.
- **Handsfree:** HFP 1.5 supports Bluetooth headsets, and may also support other installed compatible Bluetooth devices with speakerphone capabilities, such as car kits or conference devices.

- **Dial Up Networking:** DUN 1.1 allows the phone to be used as a data modem with a compatible Bluetooth device, such as a laptop or PDA. This functionality may require specific services on your wireless plan; contact Verizon Wireless for more information.
- **Stereo:** A2DP 1.0, AVRCP 1.0, GAVDP 1.0, AVDTP 1.0, and AVCTP 1.0 support delivery of stereo audio to a compatible Bluetooth device.
- **Phonebook Access:** PBAP 1.0 allows sharing of your name card and contact entries as vCards (v3.0) with compatible Bluetooth devices.
- **Object Push:** OPP 1.1 allows sending and receiving of contact name cards (vCard 3.0), calendar events (vCalendar 2.0), and other non-protected data between devices.
- **Serial Port:** SPP 1.1 allows a remote Bluetooth device to act as a virtual serial port.

Bluetooth Options

Use Bluetooth options to view and change your phone's name, display supported profiles, and set visibility and pairing.

1. From the Home screen, press  **MENU** >  **Settings** > **Bluetooth Menu**.
2. Press the  **Right Soft key (Options)** for these options:
 - **My Phone Info:** Enter a custom name for your phone, visible to other Bluetooth devices during searches. You can also view the phone type, Status, and Address.
 - **Discovery Mode:** Press **On** for other Bluetooth devices to detect your device, or **Off** for no visibility. After selecting On, your phone will be discoverable for one minute, then Discovery Mode will automatically reset to Off.
 - **Supported Profiles:** View a list of supported Bluetooth profiles and their descriptions. Highlight a profile and press View to see a description.

- **Search Setting:** Choose types of devices to search during pairings, from All, Audio Device, PC, Phone, or Printer.
- **Auto Pairing:** Choose On to allow your phone to pair with other Bluetooth devices with a default device code, or Off to prevent automatic pairing.

Adding a New Device

Search for a Bluetooth device and pair with it, to exchange information between your phone and the device.

1. From the Home screen, press  **MENU** >  **Settings** > **Bluetooth Menu** > **Add New Device**. Bluetooth turns on, if it is not already on.
2. At the prompt "**PLACE DEVICE YOU ARE CONNECTING TO IN DISCOVERABLE MODE,**" activate the target device's Bluetooth discoverable mode, then press  **OK**.
3. Your phone searches for discoverable Bluetooth devices and displays them.

DRAFT
FOR INTERNAL USE ONLY

4. Use the  **Directional** key to highlight the target device and press  **PAIR**. Follow the prompts:
 - **Auto Pairing:** If you enabled Auto Pairing in Bluetooth Options, and the selected device supports it, your phone sends a default device code to the device. At the prompt, confirm the device code to complete pairing.
 - **Pairing with Passkey:** Enter a passkey, then press  **SET**. Follow the prompts on the target device to enter the same passkey and complete the pairing.
5. At the prompt, set incoming security for future pairings:
 - **Always Ask:** Your phone will prompt you to accept future pairings from this device.
 - **Always Connect:** Your phone will automatically accept future pairing requests from this device.
6. Use the Directional Key to highlight the new device, then press the  **Right** Soft key (**Options**) to set options for this paired device:
 - **Remove Device:** Remove this device from your phone's pairing list.
 - **Rename Device:** Change the name of this device in the pairing list.
 - **Incoming Security:** Choose Always Ask or Always Connect for future pairings with this device.
 - **Service Discovery:** View the service profiles supported for pairing with this device.
 - **Device Info:** View information about the paired device.

PTT Settings

Configure your phone's PTT feature, and set the functionality of the  **PTT Key**.

The PTT feature uses the PTT Key. When PTT Mode is On, pressing the Side Key initiates PTT Mode.

When PTT Mode is disabled, the  **PTT Key** acts as a shortcut key.

PTT Mode

Turn PTT Mode On to use the PTT feature.

1. From the Home screen, press  **MENU** >  **Settings** > **PTT Settings** > **PTT Mode**.
2. Press **On** to enable PTT Mode, or **Off** to disable.

PTT Alert

When PTT Mode is On, use PTT Alert to set your phone's alerts for new PTT events.

1. From the Home screen, press  **MENU** >  **Settings** > **PTT Settings** > **PTT Alert**.
2. Configure these settings, then press  **SET** to save:
 - **Alert Tone:** Select from a list of preloaded tones.
 - **Alert Vibrate:** Press **On** to have the phone vibrate for PTT alerts.

DRAFT
FOR INTERNAL USE ONLY

PTT Missed Call

When PTT Mode is On, use the PTT Missed Call setting to set your phone's notifications for missed PTT calls.

1. From the Home screen, press  **MENU** >  **Settings** > **PTT Settings** > **PTT Missed Call**.
2. Press **On** to enable PTT Missed Call alerts, or **Off** to disable.

PTT Speaker Notice

When PTT Speaker Notice is On, you will be asked before the phone turns off the PTT Speaker.

1. From the Home screen, press  **MENU** >  **Settings** > **PTT Settings** > **PTT Speaker Notice**.
2. Press **Yes** to enable PTT Speaker Notice or press **No** to disable it.

Sounds Settings

Configure the sounds your phone plays for calls, alerts, key presses, and other actions.

Easy Set-up

Use Easy Set-up to quickly set sounds for your phone.

1. From the Home screen, press  **MENU** >  **Settings** > **Sounds Settings** > **Easy Set-up**.
2. Use the  **Directional** key,  **Left Soft** key,  **Right Soft** key, and  **Center Select** key to follow the prompts to configure **Call Sounds**, **Keypad Volume**, **Text MSG Alert**, **Multimedia MSG Alert**, and **Voicemail MSG Alert**.

DRAFT
FOR INTERNAL USE ONLY

Call Sounds

Configure sound and vibration settings for incoming calls.

1. From the Home screen, press  **MENU** >  **Settings** > **Sounds Settings** > **Call Sounds**.
2. Configure these settings, then press  **SET** to save:
 - **Call Ringtone:** Select from a list of preloaded ringtones.
 - **Call Vibrate:** Press **On** to select a vibration pattern for use with the Call Ringtone, or press **Off**.
 - **Caller ID Readout:** Press **Ring Only** to have the phone play the Call Ringtone for incoming calls. Press **Caller ID + Ring** to have the phone announce the caller ID, plus play the Call Ringtone for incoming calls. Press **Name Repeat** to have the phone repeat the caller's information for incoming calls.

Alert Sounds

Choose sound and vibration settings for new messages and other alerts.

- From the Home screen, press  **MENU** >  **Settings** > **Sounds Settings** > **Alert Sounds** to configure these settings:
- **TXT Message:** Choose an **Alert Tone**, **Alert Vibrate** setting and **Reminder** options for incoming text messages.
 - **Multimedia Message:** Choose an **Alert Tone**, **Alert Vibrate** setting and **Reminder** options for incoming multimedia messages.
 - **Voicemail:** Choose an **Alert Tone**, **Alert Vibrate** setting and **Reminder** options for incoming voicemail messages.

DRAFT
FOR INTERNAL USE ONLY

- **Emergency Tone:**

- **Alert:** Plays the Emergency Dialing tone, except when the master volume setting is Vibrate or All Sounds Off.
- **Vibrate:** Vibrates only and does not play the Emergency Dialing tone.
- **Off:** The phone will not play the Emergency Dialing tone, or vibrate.

- **Missed Call:** Choose an **Alert Tone**, **Alert Vibrate** setting and **Reminder** options for missed call alerts.
- **Device Connect:** Choose whether a tone is played when you connect the phone to another device with a USB cable.
- **PTT Alert:** (Available when PTT Mode is On.) Choose a **Alert Tone** and/or **Alert Vibrate** for PTT Alerts.
- **Battery Charge Alert:** Choose an **Alert**, **Vibrate**, or **Off** for receiving an alert when the battery needs charging.

Keypad Sounds

Choose the sounds your phone plays when you press keys.

1. From the Home screen, press  **MENU** >  **Settings** > **Sounds Settings** > **Keypad Sounds**.
2. Press **Default** or **Lucid**, then press  **SET** to save.

Keypad Volume

Set the volume of key press sounds.

1. From the Home screen, press  **MENU** >  **Settings** > **Sounds Settings** > **Keypad Volume**.
2. Press the  **Directional** key or the **Volume** key to adjust the keypad volume.
3. Press  **SET** to save.

FOR INTERNAL USE ONLY

Readout

When Readout is On, your phone reads out numbers, menus, alerts, and messages.

1. From the Home screen, press  **MENU** >  **Settings** > **Sounds Settings** > **Readout**.
2. Choose **On** or **Off** for these alerts:
 - **Full Readout:** All items are read aloud.
 - **Menu Readout:** Menu items are read aloud.
 - **Digit Dial Readout:** Numbers on the keypad are read aloud.
 - **Alert Readout:** Alert messages are read aloud.
 - **Flip Open & Talk:** Voice Command is activated when the phone is flipped open.
 - **TXT Message Readout:** Text messages are read aloud.
3. Press  **Set** to save.

Voice Command Settings

Voice Commands is advanced speech recognition software that recognizes your spoken commands to dial phone numbers, create messages, and launch applications such as Contacts, Calendar and My Pictures.

- From the Home screen, press  **MENU** >  **Settings** > **Sounds Settings** > **Voice Command Settings**.

DRAFT
FOR INTERNAL USE ONLY

Service Alerts

Configure settings for sounds your phone plays to notify you of changes in system or service status.

1. From the Home screen, press  **MENU** >  **Settings** > **Sounds Settings** > **Service Alerts**.
2. Choose **On** or **Off** for these alerts:
 - **ERI**: A sound plays when you enter and exit network coverage areas.
 - **Minute Beep**: During calls, a beep plays once per minute.
 - **Call Connect**: A sound plays when a call connects and ends.
 - **Software Update**: A sound plays when a software update is complete.
3. Press  **Set** to save.

Power On/Off

Control the sounds your phone plays when you turn the phone on or off.

1. From the Home screen, press  **MENU** >  **Settings** > **Sounds Settings** > **Power On/Off**.
2. Choose **Power On** or **Power Off**, then press  **SET**.

DRAFT
FOR INTERNAL USE ONLY

Driving Mode

Driving Mode overrides the Master Volume level and converts all visual notifications to sounds. When Driving Mode is On, Master Volume is set to High, and Call Alert sounds will play regardless of the sound setting. You can choose to have Caller ID read out for incoming calls or messages, or choose to have Caller ID and message contents read out.

1. From the Home screen, press  **MENU** >  **Settings** > **Sounds Settings** > **Driving Mode**.
2. Choose a setting:
 - **Caller ID Only:** Reads out Caller ID for incoming calls and messages.
 - **ID & Message:** Reads out Caller ID and the message content for incoming messages.
 - **Off:** Driving Mode is not enabled.

Display Settings

Configure settings for your phone's screen.

Easy Set-Up

Use Easy Set-up to quickly set the display settings for your phone.

1. From the Home screen, press  **MENU** >  **Settings** > **Display Settings** > **Easy Set-up**.
2. Use the  **Directional** keys,  **Left Soft** key,  **Right Soft** key, and  **Center Select** key to follow the prompts to configure **Personal Banner**, **Display Backlight**, **Keypad Backlight**, **Main Wallpaper**, **Front Wallpaper**, **Display Themes**, **Menu Layout**, **Dial Fonts**, **Volume Key Control**, **Main Clock**, and **Front Clock**.

DRAFT
FOR INTERNAL USE ONLY

Banner

Display a personal greeting or network status banner on the Home screen.

Personal Banner

Create a greeting to appear on the Home screen.

1. From the Home screen, press  **MENU** >  **Settings** > **Display Settings** > **Banner** > **Personal Banner**.
2. Enter up to 18 characters in the **Enter Text** field.
3. Use the  **Directional** keys to move to **Select Text Color**, and choose a color for the banner.
 - Press the  **Left Soft key (Abc)** to select text input method and language.
 - Press the  **Right Soft key (Options)** > **Cancel** to discard your changes.
4. Press  **SET** to display the banner on the Home screen.

ERI Banner

When enabled, the ERI banner displays on the front screen and the Home screen to show current network coverage.

1. From the Home screen, press  **MENU** >  **Settings** > **Display Settings** > **Banner** > **ERI Banner**.
2. Press the  **Directional** key left or right to toggle the banner **On** to enable and **Off** to disable.
3. Move to **Main Screen** to choose a color for the banner on the Home screen.
4. Move to **Front Screen** to choose a color for the banner on the front screen.
5. Press  **SET** to save your selections.

DRAFT
FOR INTERNAL USE ONLY

Backlight

Set the duration and brightness of the backlight for the display and keypad.

Tip: The backlight setting also determines how long the screen is illuminated before locking.

1. From the Home screen, press  **MENU** >  **Settings** > **Display Settings** > **Backlight**.
2. Press **Display** for these settings:
 - **Duration:** Set the duration of the backlight.
 - **Brightness:** Press the  **Directional** key left or right to adjust the brightness.
3. **Keypad:** Select a duration for the keypad backlight.

Wallpaper

Set the background image for the Home screen and the front LCD screen. When you select wallpaper for the front LCD screen, it will not display a clock.

1. From the Home screen, press  **MENU** >  **Settings** > **Display Settings** > **Wallpaper**.
2. Press **Main Screen** to set the Home screen wallpaper:
 - **Main Screen:** Press **My Pictures** to select a preloaded image, or your own picture. Press **My Videos** to select a video for an animated Home screen.
 - **Front Screen:** Choose a preloaded image, or your own picture from My Pictures.

Note: While selecting wallpaper, press the  **Left** Soft key (**View**) to see a preview of the selection, or press the  **Right** Soft key (**Options**) to rename the picture or see file information for the image.

DRAFT
FOR INTERNAL USE ONLY

Display Themes

Customize the appearance of your phone's menus and screens.

1. From the Home screen, press  **MENU** >  **Settings** > **Display Settings** > **Display Themes**.
2. Select a theme, then press  **SET**. Press the  **Left Soft key (Preview)** to see an example of a theme, or press the  **Right Soft key (Help)** for more information.
3. Press  **SET** to save your selections.

Main Menu Settings

Customize the appearance of the Main menu.

Menu Layout

Choose from 3 preset layouts for the menu display.

1. From the Home screen, press  **MENU** >  **Settings** > **Display Settings** > **Main Menu Settings** > **Menu Layout**.
2. Highlight a layout:
 - **Tab:** Displays items as tabs, to allow scrolling right and left.
 - **List:** Displays items in a list, to allow scrolling up and down.
 - **Grid:** Displays items in a 3x3 grid, to allow scrolling up, down, right or left. **Grid** is the default layout.
3. Press  **SET** to save your selections.

Tip: While selecting a layout, press the  **Left Soft key (Preview)** to see an example of the layout.

2. Highlight an application or feature from the list, then press  **SET** to save the setting.

DRAFT

FOR INTERNAL USE ONLY

External Keys Locked

Choose a time period for the external keys to remain active after you close the phone, after which the external keys will lock to prevent accidental key presses.

1. From the Home screen, press  **MENU** >  **Settings** > **Phone Settings** > **External Keys Locked**.
2. Highlight an option, then press  **SET** to save the setting:
 - **Always Off:** External keys will not lock automatically when you close the phone (you can lock the keys manually using the front keys).
 - **7 seconds:** External keys remain active for seven seconds after you close the phone.
 - **15 seconds:** External keys remain active for fifteen seconds after you close the phone.
 - **30 seconds:** External keys remain active for thirty seconds after you close the phone.

Voice Command Settings

Voice Commands is advanced speech recognition software that recognizes your spoken commands to dial phone numbers, create messages, and launch applications such as Contacts, Calendar and My Pictures.

For details, see [“Voice Commands” on page 94](#).

- From the Home screen, press  **MENU** >  **Settings** > **Phone Settings** > **Voice Command Settings**.

Language

Choose a language for your phone's displays.

1. From the Home screen, press  **MENU** >  **Settings** > **Phone Settings** > **Language**.
2. Highlight a language, then press  **SET** to save the setting.

DRAFT
FOR INTERNAL USE ONLY

Location Detection

Choose whether your phone's GPS (Global Positioning System) location is available to the network at all times, or only when you have dialed an Emergency Number, such as 911.

1. From the Home screen, press  **MENU**
>  **Settings > Phone Settings > Location Detection.**
2. Highlight a setting, then press  **SET** to save the setting:
 - **On:** GPS location is on whenever the feature is available.
 - **E911 Only:** GPS location turns on only when you dial 911.

Current Country

Select your current location, to allow the phone to apply the correct country code when dialing.

Note: If you travel to a different country, the network may not report the correct location. In that case, you will see the message **PLEASE VERIFY YOUR CURRENT LOCATION.**

1. From the Home screen, press  **MENU** >
 **Settings > Phone Settings > Current Country.**
2. Highlight a country from the list, then press  **SET.**

DRAFT
FOR INTERNAL USE ONLY

Security

Lock your phone, set restrictions, and choose other security options.

Access to all Security settings requires the phone's Lock Code. By default the Lock Code is the last four digits of your number.

Important: For security reasons, your phone does not display lock codes. If you change the lock code, be sure to record the new code for future reference.

Edit Codes

Set a new Phone Only lock code (for unlocking and locking the phone), or Calls & Services lock code (for restricting access to calls and other features).

1. From the Home screen, press  **MENU** >  **Settings** > **Phone Settings** > **Security**.
2. Enter the Phone Only lock code at the prompt. The default lock code is the last four digits of your phone number.
3. Press **Edit Codes**, then highlight a code:
 - **Phone Only:** Enter a new lock code at the prompt, then enter the new code again to confirm the change.
 - **Calls & Services:** Enter a new lock code at the prompt, then enter the new code again to confirm the change.

DRAFT
FOR INTERNAL USE ONLY

Restrictions

1. From the Home screen, press  **MENU** >  **Settings** > **Phone Settings** > **Security**.
2. Enter the Phone Only lock code at the prompt.
The default lock code is the last four digits of your phone number.
3. Press **Restrictions**.
4. Enter the Calls & Services lock code at the prompt.
The default lock code is the last four digits of your phone number.
5. Press **Location Setting** for these options:
 - **Unlock Setting:** Allow changes to the Location setting with no code.
 - **Lock Setting:** Require the Calls & Services lock code to change the Location setting.

6. Press **Calls** for these options:

- **Incoming Calls:** Press **Allow All** to allow all incoming calls. Press **Contacts Only** to allow calls from numbers stored in Contacts. Press **Block All** to block all incoming calls.
- **Outgoing Calls:** Press **Allow All** to allow all outgoing calls. Press **Contacts Only** to allow calls from numbers stored in Contacts. Press **Block All** to block all outgoing calls.

7. Press **Messages** for these options:

- **Incoming Messages:** Press **Allow All** to allow all incoming messages. Press **Block All** to block all incoming messages.
- **Outgoing Messages:** Press **Allow All** to allow all outgoing messages. Press **Block All** to block all outgoing messages.

8. Press **Dial-Up Mode**, to **Allow** or **Block** use of your phone as a modem.

Phone Lock Setting

Set the locking behavior of your phone. When the phone is locked, you must enter the Phone Only lock code to use it, except when dialing emergency numbers.

1. From the Home screen, press  **MENU** >  **Settings** > **Phone Settings** > **Security**.
2. Enter the Phone Only lock code at the prompt.
The default lock code is the last four digits of your phone number.
3. Press **Phone Lock Setting** for these options:
 - **Unlocked**: The phone is unlocked at all times.
 - **On Power Up**: The phone is automatically locked when you turn it on. You can make emergency calls, but must enter the Phone Only lock code to access other features.

Lock Phone Now

1. From the Home screen, press  **MENU** >  **Settings** > **Phone Settings** > **Security**.
2. Enter the Phone Only lock code at the prompt.
The default lock code is the last four digits of your phone number.
3. Press **Lock Phone Now**. The phone locks and returns to the Home screen. To unlock the phone, press **Unlock** and enter the Phone Only lock code.

Restore Phone

Return all phone settings to the factory defaults and permanently erase all user information.

Warning: Choosing Restore Phone will return your phone to the default settings and permanently erase all your entries and information saved on the phone, including pictures, videos, music, messages, contacts and downloaded applications.

1. From the Home screen, press  **MENU** >  **Settings** > **Phone Settings** > **Security**.
2. Enter the Phone Only lock code at the prompt.
The default lock code is the last four digits of your phone number.
3. Press **Restore Phone**.
4. At the prompt, highlight **Yes**, then press  **OK** to restore default settings.

Note: After the phone power cycles back on, press *228 and press the Send Key to connect to the network and program your phone with default network settings.

Note: For the VZ Navigator preloaded app, if you delete it manually, it will be deleted permanently and will not be restored by Restore Phone. You can download it again at anytime from Apps.

Reset Settings

Return all phone settings to the factory defaults.

Note: Choosing Reset Settings will return your phone to the default settings, but does not delete your entries and information.

1. From the Home screen, press  **MENU** >  **Settings** > **Phone Settings** > **Security**.
2. Enter the Phone Only lock code at the prompt.
The default lock code is the last four digits of your phone number.
3. Press **Reset Settings**.
4. At the prompt, highlight **Yes**, then press  **OK** to restore default settings.

Global Data Roaming Access

Set preferences for data access when your phone is outside the home network area.

Important: Accessing data services while roaming may result in significant charges. Consult Verizon Wireless for more information.

1. From the Home screen, press  **MENU** >  **Settings** > **Phone Settings** > **Global Data Roaming Access**.
2. Choose a setting, then press  **SET**:
 - **Allow Access for All Trips:** Enable access to data networks at any time, by any application.
 - **Allow Access Only for This Trip:** Enable access to data network currently available.
 - **Deny Data Roaming Access:** Block data usage while roaming.

System Select

Set preferences for roaming behavior.

1. From the Home screen, press  **MENU** >  **Settings** > **Phone Settings** > **System Select**.
2. Choose a setting:
 - **Home Only:** Restrict the phone's operation to your home network, with no roaming. When outside the coverage area, call functions and other features are not available.
 - **Automatic:** Allow the phone to automatically acquire service, using the Verizon Wireless network and the networks of roaming partners.
