October 8, 2014

To Whom It May Concern:

Submitted herewith is a Class II Permissive Change for **FCC ID: A3LSMG900A** for the purpose of adding HAC T-coil evaluation of the LTE air interface for the **VOLTE capabilities** not originally tested, as allowed by FCC KDB 285076 D01.

The device has not changed from that submitted in the original filing. Therefore, only the VOLTE T-coil test reports are submitted along with the original HAC Test reports to support the full HAC Rating stated in the grant.

Should you have any questions or concerns, feel free to contact us.

Sincerely,

A handwritten signature in black ink, appearing to read 'Justin Chao', is written over a white background.

Justin Chao
HAC Project Manager
