Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046 USA

RE: FCC ID: A3LSMG981V

To Whom It May Concern:

This permissive change is to enable the following features via SW only:

- NR FR1 Standalone operations
- Some additional EN-DC downlink only combinations

As there is no change in HW, Tx path, or power for any of the above operations, the NR test data in the original filing additionally demonstrates compliance for these added capabilities.
