Date: Sept. 14, 2018

FCC ID: A3LSMJ610F
Class II Permissive Change
Original Date of Grant: Sept. 10, 2018

To whom it may concern:

Transmitted herewith is an application for a Class II Permissive Change Certification of the Mobile phone with FCC ID: A3LSMJ610FN.

The change only applies to the model listed below;

- SM-J415FN/DS, SM-J415FN

The device is identical to the previously certified Mobile phone except for the modification following;

- Camera, sensors have been changed.

- ANT+ function has been disabled by software

Please refer to the change description documents in detail.

The proposed changes are only considered a C2PC for the JBP grant and based on testing performed would qualify for a C1PC for all other grants associated with this composite device. We are requesting that the details of the change, with limited scope test reports as required under KDB 178919 Section I. B to demonstrate that the changes have not degraded the EMC or rf exposure levels from the original filing, be filed as a C2PC for the other grants (DTS, DSS, DXX and PCE). We also request that the DXX grant be updated to remove the ANT+ capabilities via the software change as allowed under KDB 178919, Section V C (2).

Should you have any questions or comments concerning the above, please contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "Jenni Chun".
