

Test setup photos of EUT

1. Orthogonal planes of EUT

- The testing was set in the two orthogonal planes and measured for each position (X, Y, Z).

A. X-axis

B. Y-axis

2. Worst case of orthogonal planes each frequency band

- Test setup photos for each mode were reported as representative worst axis after radiated measurements for each position were complete.
- To get a maximum emission level from the EUT, the EUT is manipulated through three orthogonal planes (X, Y, Z).

A. Photo of Radiated Spurious Emission Test (Below 1 GHz)

B. Photo of Radiated Spurious Emission Test (Above 1 GHz)

3. Photos of AC Power line emission test
