

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

23.6 – 24 GHz Result

All channels were investigated, but no emission above the noise floor was detected.

All channels were investigated, but no emission above the noise floor was detected.

25.25 – 40 GHz Result

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

40 – 50 GHz Result

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

Note. If the margin of the pre-scan result is less than 3dB, the final measurement is performed for the identified spurious emissions.

50 – 75 GHz Result

All channels were investigated, but no emission above the noise floor was detected.

All channels were investigated, but no emission above the noise floor was detected.

75 – 100 GHz Result

All channels were investigated, but no emission above the noise floor was detected.

All channels were investigated, but no emission above the noise floor was detected.
