

A photograph of the back of a black smartphone with its cover removed, showing internal components like the battery, camera, and connectors. A white label with the number '15119901' is at the top. Rulers are visible on the left and bottom edges. The phone's internal components are visible, including a large silver battery, a camera module, and various connectors. The phone is placed on a dark surface. A white label with the number '15119901' is at the top. A ruler is visible on the left side, and another ruler is at the bottom. The phone's back cover is black and has some text on it, including 'GTA-S5' and 'PC-GF30'. There are also some orange connectors visible on the left and right sides of the phone.
