This Product is subject to a binding arbitration agreement between you and SAMSUNG ELECTRONICS AMERICA, INC. (“Samsung”). You can opt out of the agreement within 30 calendar days of the first consumer purchase (or use of application) by emailing optout@sea.samsung.com or calling 1-800-SAMSUNG (726-7864) and providing the applicable information. For complete terms and conditions that bind you and Samsung, refer to the “Arbitration Agreement” section of this document.

For specific provisions or legal information relating to your device, please refer to the printed Terms & Conditions included with your device, or visit www.samsung.com and use the model number to locate the product support page. This information was last updated August 3, 2022.

Feedback

The full Arbitration Agreement, Standard Limited Warranty, End User License Agreement (EULA) and Health & Safety Information are

also available on the device, in the Samsung legal section of Settings. The location depends on the device, and is usually in the “About device” or “About phone” or “About tablet” section, for example:

- Settings → About phone or About device or About tablet → Legal information → Samsung legal
- Or, use the Search feature to search for “Legal”.

- ☐ Arbitration Agreement
- ☐ Standard Limited Warranty
- ☐ End User License Agreement
- ☐ Health and Safety Information
- ☐ Device and Care

Radio Frequency (RF) Signals

The U.S. Food and Drug Administration (FDA) has published information for consumers relating to Radio Frequency (RF) exposure from mobile devices. The public is exposed to and our bodies absorb wide varieties of naturally occurring and human made radiation, including the radio frequency (RF) energy emitted by mobile devices. “FDA’s Information on Radio Frequency (RF) Exposure from Mobile Devices”

[Read More](#)

Specific absorption rate

Specific Absorption Rate (SAR) certification establishes a minimum recommended distance from a person’s body for safe operation of RF-emitting devices. Body-worn operations are restricted to belt-clips, holsters or similar accessories that have no metallic

FCC Part 15 Information and Notices

The device may cause TV or radio interference if used in close proximity to receiving equipment. The FCC can require you to stop using the mobile device if such interference cannot be eliminated.

- Any device that uses Bluetooth or Wi-Fi, or any device with a power supply is subject to FCC Part 15. FCC Part 15 covers both intentional radiators (Bluetooth and Wi-Fi) and unintentional radiators (such as emissions from power supplies and circuit boards).
- This device complies with part 15 of the FCC Rules. Pursuant to part 15.21 of the FCC Rules, you are cautioned that changes or modifications not expressly approved by Samsung could damage your product. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate RF energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
- If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- **Pacemaker and implantable medical devices should have a** minimum separation of six (6) inches between a mobile device and an implantable medical device, such as a pacemaker or cardioverter defibrillator, to avoid potential interference with the medical device.
 - Persons who have such medical devices should:
 - ALWAYS keep the mobile device more than six (6) inches from their implantable medical device when the mobile device is turned ON, do not carry the mobile device in a breast pocket, use the ear opposite the implantable medical device to minimize the potential for interference.
 - Turn the mobile device OFF immediately if there is any reason to suspect that interference is taking place.
 - Read and follow the directions from the manufacturer of your implantable medical device.
 - If you have any questions about using your wireless mobile device with an implantable medical device, consult your health care provider. For additional detailed information regarding potential interference and precautions needed for pacemakers, please visit: <http://www.fda.gov>
- Remember to follow any special regulations in force in any area.
- Certain electronic equipment may not be shielded against the RF signals from your wireless mobile device. Consult the manufacturer to discuss alternatives.
- If you use any other personal medical devices, consult the manufacturer of your device to determine if it is adequately shielded from external RF energy.
- RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles. Check with the manufacturer or its representative regarding your vehicle before using your mobile device in a motor vehicle.

- Remember to follow any special regulations in force in any area, and always switch your mobile device off where posted notices require you to do so, or when it may cause interference or danger.
- Switch your mobile device off when in any area with a potentially explosive atmosphere and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death. Users are advised to switch the mobile device off while at a refueling point (service station).

Smart practices while driving

Samsung is committed to both promoting responsible driving and giving drivers the tools necessary to address distractions. For more information, go to: <http://www.ctia.org>.

Feedback

Responsible Listening

Avoid potential hearing loss by not exposing yourself to loud sounds for a prolonged period of time. The risk of hearing loss increases as sound is played louder and for longer durations.

[Read More](#)

Use by children

- Children or other persons requiring supervision can accidentally choke on small device components or parts, especially if they have broken off.
- If a child or other person tries to suck on or bite the device, this can puncture the housing of the device and lead to water damage, for more information please see, <https://www.fcc.gov/consumers/guides/childrens-safety>

Cautions and Other Important Safety Information

- Any changes or modifications to your mobile device could damage your product and may not be covered by your warranty.
- Only qualified personnel should service the mobile device.
