The image shows the internal components of a Samsung Galaxy S20 Ultra. The back cover is removed, revealing the blue printed circuit board (PCB) and the large, rectangular Li-Ion battery. The battery is labeled with 'SAMSUNG' and 'Li-Ion 5000mAh'. A ruler is placed horizontally above the device, showing measurements in centimeters. The battery label also includes various safety and regulatory markings, such as CE, RoHS, and a warning symbol for a crossed-out trash can. The text on the label is in multiple languages, including English, Chinese, and Korean.
