Accessing more information

Visit www.samsung.com to check device information, the user guide, and more. You may incur additional charges for accessing the internet.

Safety information

Read all safety information before using the device to ensure safe and proper use. You can access more safety information by opening Settings → About tablet → Legal information → Safety information.

Follow the warnings below to prevent incidents, such as fires or explosions, injuries, or damage to the device

- Your device contains magnets. Keep it away from credit cards, implanted medical devices, and other devices that may be affected by magnets. In the case of medical devices, keep your device more than 15 cm apart. Stop using your device if you suspect any interference with your medical device and consult your physician or your medical device manufacturer.
- Do not expose the device to physical impact or damage.
- Use only Samsung-approved batteries designed for your device.
- Use of Samsung-approved chargers and cables specifically designed for your device is recommended.
- Prevent the multipurpose jack and battery terminals from coming into contact with foreign materials such as metal, liquids, or dust.
- If any part of the device, such as the glass or acrylic body, is broken, smokes, or emits a burning odor, stop using the device immediately. Use the device again only after it has been repaired at a Samsung Service Centre or an authorised service centre.
- Do not turn on or use the device when the battery compartment is exposed.
- Do not disassemble or reuse the battery.
- The device can be used in locations with an ambient temperature of 0 °C to 35 °C. You can store the device at an ambient temperature of -20 °C to 50 °C. Using or storing the device outside of the recommended temperature ranges may damage the device or reduce the battery's lifespan.

To prevent possible hearing damage when using a headset, do not listen to sound at high volume for long periods.

This marking on the product, accessories or literature and without the bar on batteries indicates that the product, battery and its electronic accessories (such as charger, headset, USB cable) should not be disposed of with other household waste.

The power delivered by the charger must be between min 15 Watts required by the radio equipment, and max 25 Watts in order to achieve the maximum charging speed. USB PD fast charging.

- For information on Samsung's environmental commitments and product regulatory obligations, such as REACH, visit our sustainability page available at www.samsung.com.

Removing the battery

- To remove the battery, contact an authorised service centre. To obtain battery removal instructions, please visit www.samsung.com/global/ecodesign_energy.
- For your safety, you must not attempt to remove the battery. If the battery is not properly removed, it may lead to damage to the battery and device, cause personal injury, and result in the device being unsafe.
- Samsung does not accept liability for any damage or loss (whether in contract or tort, including negligence) which may arise from failure to precisely follow these warnings and instructions, other than death or personal injury caused by Samsung's negligence.

If your device is frozen and unresponsive, press and hold the Side button and the Volume Down button simultaneously for more than 7 seconds to restart it.

It is recommended not to use fixed graphics on part or all of the screen for extended periods. Doing so may result in afterimages (screen burn-in) or ghosting.

Short Form Warranty Statement

1. This warranty applies to Samsung products first purchased by an end user in one of the countries listed in point 6 below. Customers who purchased this product from Samsung or its authorised distributors in the United Kingdom, Republic of Ireland, France, Belgium, Netherlands, Luxembourg, Greece, Cyprus, Hungary, Latvia, Norway, Spain or Sweden should also refer to the separate warranty card enclosed in the box. In the event of a conflict between the Quick Start Guide and the warranty card the terms in the warranty card will apply.
2. Samsung Electronics Co. Ltd. (Samsung) warrants this product as free of defects in material, design and workmanship for a period of 24 months from the first retail purchase or delivery. This period is reduced to 12 months for batteries (where legally permissible). Repairs of the product under this warranty (with or without replacement of parts) does not lead to an extension or restart of the warranty period. This statement is subject to the full terms of the warranty, shown at samsung.com/support/warranty.
3. This warranty does not affect (and is provided in addition to) any consumer statutory rights or contractual rights that apply against the seller of the product. This warranty does not cover defects caused by normal wear and tear, misuse of the product, or damage to the product. Proof of purchase and the serial number of the product are required.
4. Products may be repaired, replaced or refunded under this warranty at Samsung's discretion. It is recommended that you back up your device as data may be deleted in the course of repair.
5. To obtain warranty service, please contact Samsung or a Samsung Authorised Service Centre. [Contact information available at samsung.com/support/contact]
6. Samsung operates a pan-European warranty, which means that you can obtain service under this warranty from Samsung or a Samsung Authorised Service Centre in any of the following countries: UK, Republic of Ireland, Germany, France, Italy, Malta, Spain, Portugal, The Netherlands, Belgium, Luxembourg, Denmark, Sweden, Finland, Poland, Hungary, Czech republic, Slovakia, Austria, Slovenia, Estonia, Latvia, Lithuania, Greece, Cyprus, Romania, Bulgaria, Switzerland, Norway, Liechtenstein and Croatia. The full local Samsung warranty terms and period applying in the country in question will apply to your claim.

Acknowledging Special Precautions and FCC Notice

Cautions

Any changes or modifications to your device not expressly approved by Samsung could void your warranty for this equipment, and void your authority to operate this equipment. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Only use approved batteries, antennas, and chargers. The use of any unauthorized accessories may be dangerous and void the phone warranty if they cause damage or a defect to the device.

Although your device is quite sturdy, it is a complex piece of equipment and can be broken. Avoid dropping, hitting, bending, or sitting on it.

Information to User

This equipment has been tested and found to comply with the limits of a Class B digital device. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation; if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient/relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: At very high volumes, prolonged listening to a headset can damage your hearing.

Specific Absorption Rates (SAR) for Wireless Devices

The SAR is a value that corresponds to the relative amount of RF energy absorbed by the user of a wireless device.

The SAR value of a device is the result of an extensive testing, measuring and calculation process. It does not represent how much RF the device emits. All devices are tested at their highest value in strict laboratory settings. But when in operation, the SAR of a device can be substantially less than the level reported to FCC. This is because

of a variety of factors including its proximity to a base station antenna, design and other factors. What is important to remember is that each device meets strict federal guidelines. Variations in SARs do not represent a variation in safety.

All devices must meet the federal standard, which incorporates a substantial margin of safety. As stated above, variations in SAR values between different model devices do not mean variations in safety. SAR values at or below the federal standard of 1.6 W/kg are considered safe for use by the public.

This device has been tested and meets RF exposure guidelines when used with an accessory that contains no metal and that positions the device 0mm from the body.

Correct disposal of this product

(Waste Electrical & Electronic Equipment)

This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g., charger, headset, USB cable) should not be disposed of with other household waste.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.

This product is RoHS compliant.

Correct disposal of batteries in this product

This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of with other household waste at the end of their working life. Where marked, the chemical symbols Hg, Cd or Pb indicate that the battery contains mercury, cadmium or lead above the reference levels in EC Directive 2006/66.

Samsung is neither responsible nor liable for customer service related to the content and services. Any question or request for service relating to the content or services should be made directly to the respective content and service providers.

Technical requirements for Wi-Fi operation in the 5 GHz band

Wi-Fi access points that are capable of allowing your device to operate in the 5.15 - 5.25 GHz band are optimized for indoor use only. If your Wi-Fi network is capable of operating in this mode, please restrict your Wi-Fi use to indoors to not violate federal regulations to protect mobile satellite services.

Samsung Knox
