ATTESTATION

FCC ID: A3LWCHB41M

Product description: Wi-Fi/BT/Zigbee Transceiver

We, Samsung Electronics Co Ltd attest that this device under FCC ID: A3LWCHB41M complies with device protocol requirements and operational restrictions for Indoor Client 6XD :

1. Device Protocol Attestation Statement:

- a. Contention-Based Protocol, as demonstrated in the test report, is permanently embedded in the module and is not host-dependent.
- b. The device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.
- c. This device will always initiate transmission under the control of a low-power indoor AP or subordinate except for brief transmissions before joining a network. These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
- d. Transmissions will be lower or equal to the power advertised by the indoor low-power access point or subordinate and never above the maximum output power allowed by the FCC grant for equipment class 6XD.

This device is prohibited for control of or communications with unmanned aircraft systems, including drones.

Sincerely,

Jenni Chun
General Manager
Samsung Electronics Co Ltd
