Gentlemen:

On behalf of Samsung Electronics Inc., we request that the FCC ID Label and Location be superseded because the label location reveals confidential information. This is very urgent for our client because this Exhibit will give their competitors an unfair marketing advantage. A revised FCC ID Label and Location has been uploaded which excludes the information that was considered confidential to our client.

The applicant is aware that the label containing confidential information has been publicly available since April 18, 2007.

Should you have any questions or comments concerning the above, please contact the undersigned.
