Wireless Charging Pad

DEAR CUSTOMER

Thank you for purchasing this product. For optimum performance and safety, please read these instructions carefully before using this product. Please keep this manual for reference in the future.

1.0 INTRODUCTION

This product is a wireless charging device in accordance with the Qi protocol which is suitable for mobile phones, and other devices based on wireless charging 5W, 7.5W, 10W or 15W. Connect the wireless charger to a power supply and then you can charge your device which is supported wireless charging (mobile phones, etc) by put it on the wireless charger directly.

2.0 FEATURES

- Transmitting terminal input: 5V/2A, 9V/2A, 12V/2A
- Transmitting terminal output: 5W/7.5W/10W/15W
- Support LED smart power indicator
- Compliant with Qi, CE, FCC standards
- It is light, smart and convenient to use

3.0 SPECIFICATIONS

Input	Type-C: 5V/2A, 9V/2A, 12V/2A (PD3.0/QC3.0)
Output	15W Max
Wireless Charging Frequency	128KHz
Operating Temperature Range	0~40°C
Storage Temperature Range	-20 ~ 60°C
Operation Humidity	10% ~ 90% RH
Storage Humidity	5% ~ 95% RH
Size	D102.0 T10.3
Weight	74g±3g

4.0 PACKING LIST

Before using this product, please check the packing and make sure the following items are contained in the packing:

- Main unit×1

User Manual×1

5.0 OPERATION GUIDANCE

Operation Procedures

1. Connect the wireless charger to the power supply and the blue light will be on during standby.
2. Place your device (which supports wireless charging) on the wireless charger and the blue light will keep breathing.
3. When finished charging, the blue light will stop breathing.
4. Please take out the device after it is fully charged.

Note: green light will flash when malfunction occurs.

Operation Notes

1. For optimum performance, please use the wireless charger according to this user manual.
2. Please connect the wireless charger to the power adapter. When you need 5W wireless output, the output capacity of your adapter should include 5V2A. If you need 7.5W or 10W, you need 9V2A or 12V2A; If you need 7.5W or 10W or 15W, you need 12V2A. It is also compatible with PD3.0 and QC3.0 adapters.
3. Please unplug the wireless charger after using.
4. Do not use the wireless charger with an electronic product which is not in conformity with the specifications, so as to avoid any problem caused by specification mismatching.
5. It's normal that wireless charger will be a little overheated in the use process.
6. When the wireless charger stops working under some accidents, you need to check whether the device is compatible with this wireless charger.
7. Do not let the wireless charger close to fire, such as stove, candles and etc.
8. Do not let the wireless charger soak into liquid, such as swimming pool, bathtub, etc.
9. Do not wash the wireless charger with corrosive cleaner.
10. If the wireless charger does not work, please contact the local merchandise or dealer.
11. Do not place metal objects on the back of the phone while it is charging wirelessly.

FCC Warning

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

IC warning

- English:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

This device may not cause interference.

This device must accept any interference, including interference that may cause undesired operation of the device.

RF warning statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 10cm between the radiator & your body.

- French:

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

L'appareil ne doit pas produire de brouillage;

L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement

Avertissement RF:

Cet appareil est conforme à IC l'exposition aux rayonnements limites fixées pour un environnement non contrôlé. Cet appareil doit être installé et utilisé avec une distance minimale de 10 cm entre le radiateur et votre corps. Cet transmetteur ne doit pas être co-situé ou opérant en liaison avec toute autre antenne ou transmetteur.
