

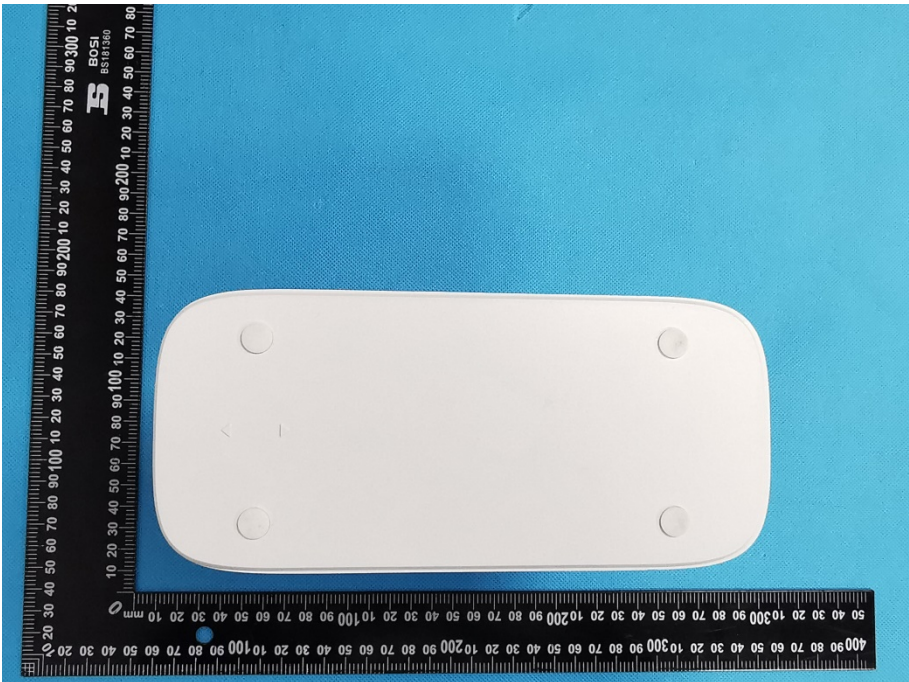

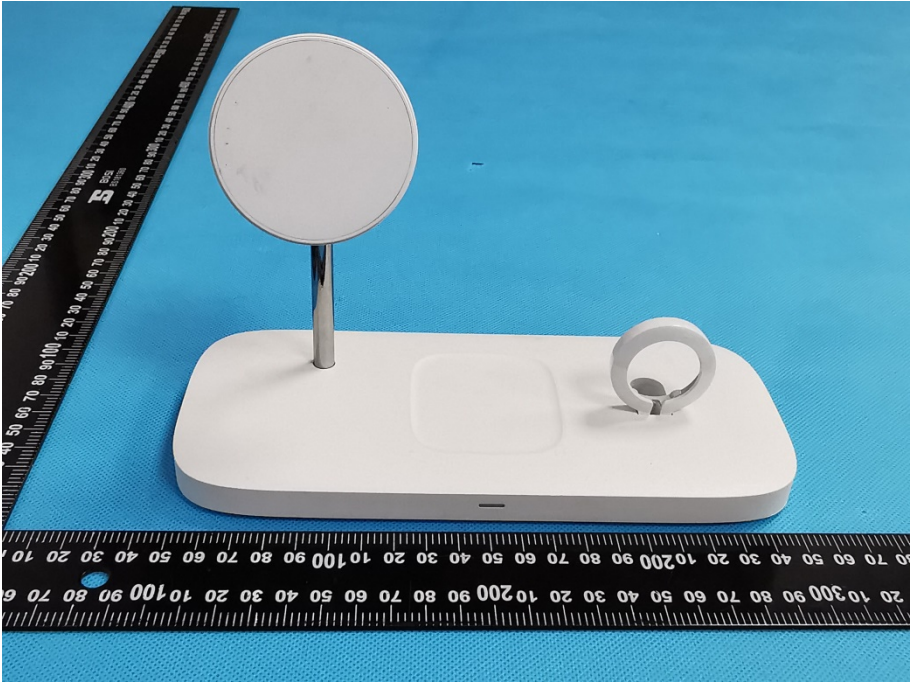

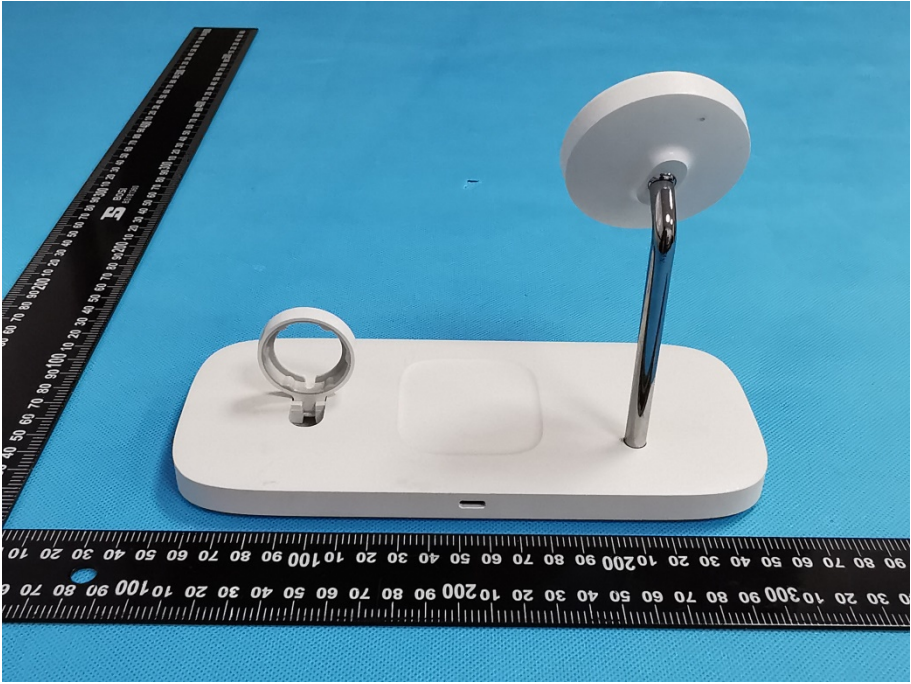

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A photograph showing the top view of a white, rectangular electronic unit with rounded corners. The unit features a circular lens on the left, a central rectangular cutout, and a small circular feature on the right. It is placed on a blue surface next to a black ruler with white markings. The ruler is oriented vertically, showing measurements in centimeters and millimeters.
EUT View 2	 A photograph showing the bottom view of the same white electronic unit. It has four small circular feet or mounting points at the corners. The unit is placed on a blue surface next to a black ruler with white markings, oriented vertically.

EUT View 3	 A photograph showing a white, rectangular electronic device (EUT) with rounded corners. It features a circular antenna on a thin metal stalk on the left side and a ring-shaped component on the right side. The device is placed on a blue textured surface. A black ruler with white markings is positioned horizontally below the device, and another ruler is positioned vertically to the left of the device for scale.
EUT View 4	 A photograph showing the same white electronic device (EUT) from a different perspective. The circular antenna is now at the top, and the ring-shaped component is at the bottom. The device is placed on the same blue textured surface. A black ruler with white markings is positioned horizontally below the device, and another ruler is positioned vertically to the left of the device for scale.

EUT View 5	 A photograph of a white electronic device (EUT) with a circular ring and a vertical rod, placed on a blue surface next to a ruler. The device has a rectangular base with rounded corners. A silver-colored ring is attached to the front of the base. A vertical rod extends from the back of the base, supporting a circular disc. A black ruler with white markings is positioned horizontally below the device, and another ruler is positioned vertically to the left of the device.
EUT View 6	 A photograph of the same white electronic device (EUT) from a different angle, showing the vertical rod and circular disc more clearly. The device is placed on a blue surface next to a ruler. The circular disc is tilted upwards. A black ruler with white markings is positioned horizontally below the device, and another ruler is positioned vertically to the left of the device.
