

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a wooden bench holds a blue and silver electronic device, likely a spectrum analyzer or power supply. A red cable connects it to a silver, rack-mounted unit on the floor. To the right, a large wooden table is visible, with two small black devices on its surface. The background shows a wall with electrical outlets and other equipment.
Radiation Emission View (Below 30MHz)	 A photograph of a radiation emission test chamber. The chamber is a large, rectangular structure with white, reflective walls and a floor. Inside, a small white table holds a device. A large, black, rectangular frame is positioned in the foreground, likely for mounting a probe or antenna. The floor has yellow and black safety markings.
