

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT housing. The housing is open, revealing a green printed circuit board (PCB) with various electronic components, including a large circular copper coil and a black component. A black ruler is placed horizontally across the top of the housing, with markings in millimeters and centimeters. The background is a blue textured surface.
Solder Board-Component View 1	 A close-up photograph of the soldered board component. The green PCB is shown with various electronic components, including a large circular copper coil and a black component. A black ruler is placed horizontally across the top of the component, with markings in millimeters and centimeters. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph showing a green printed circuit board (PCB) with various electronic components, including a large yellow battery. The battery has a white label with the following text: "GPC 705176 3.7V", "3000mAh 14.94Wh", and "20210506 00570". The PCB is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 3	 A photograph showing a green printed circuit board (PCB) with various electronic components, including a large copper coil. The coil is connected to the PCB by two thin wires. The PCB is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 4	 A photograph showing a small green printed circuit board (PCB) with various electronic components, including a microcontroller, resistors, and capacitors. The PCB is connected to a circular, dark, metallic component via two thin wires. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 5	 A photograph showing a rectangular, yellow, flexible printed circuit board (FPCB) with a white label. The label contains text: "705176 3.7V 4000mAh 14.5Wh 00670". The FPCB is connected to a red wire. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
