Re: FCC ID: A7FEA071

To Whom It May Concern:

The following application is submitted on behalf of our client, JL Marine Systems, Inc., for evaluation of their model EA071 for certification under FCC Part 15.247.

The model EA071 is a battery powered remote installed in boats. The device transmits in the 900 ISM band.

The EUT was evaluated in full to the aforementioned test requirements and was determined to be in compliance.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Sam Wismer". The signature is fluid and cursive, with the first letter of the first name being a large, stylized capital "R".
