**AFFIDAVIT OF ESN PROTECTION
OF CELLULAR MOBILE TELEPHONES**

We hereby certify that the Handheld Portable Cellular Telephone (FCC ID: A98KMP5G1E1) is so designed that it complies with all requirements for ESN protection specified in section 22.919 of the FCC Rules.

- a) The transmitter in service has a unique ESN.
- b) The ESN host component is permanently attached to a main circuit board of the mobile transmitter and the integrity of the unit operating software cannot be altered. The ESN is plated from fraudulent contact and tampering.
- c) The ESN can only be programmed in the factory once by using a special hardware authentication key. The ESN is stored in the handset in an encrypted form, and can not be altered without physical damage to the circuit board

Sincerely,

Dr. Akin Akinniyi, Director
