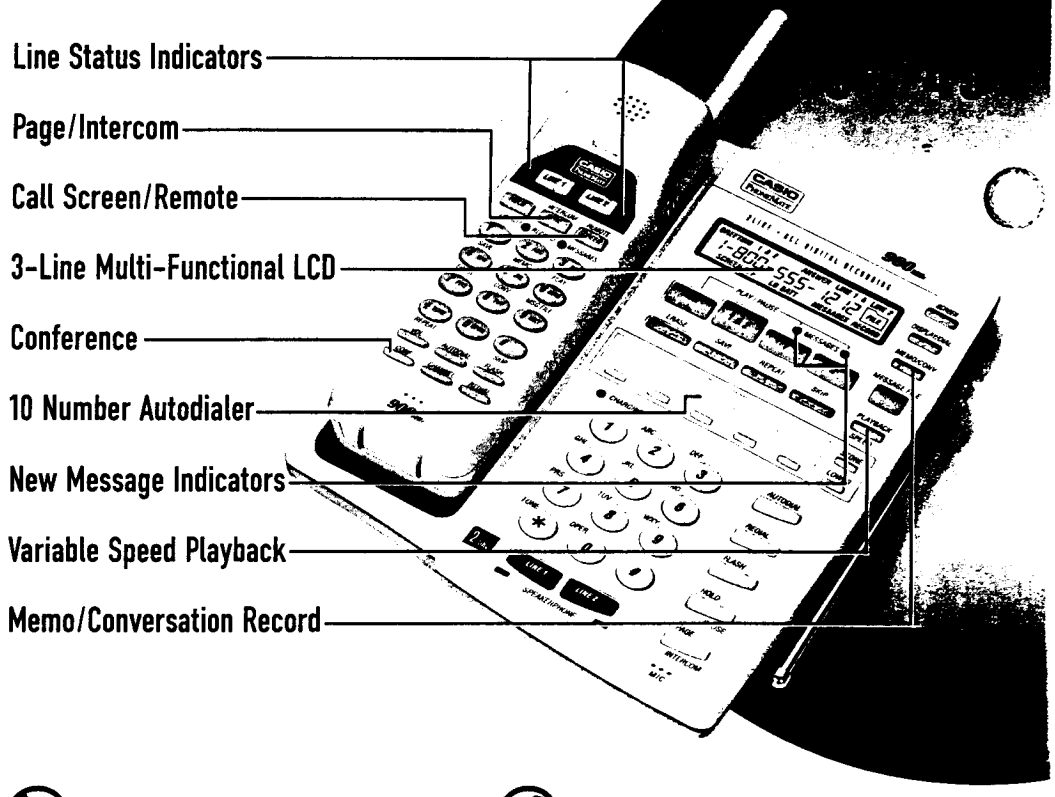
2-Line 900 MHz Cordless Phone WITH Digital Answering Machine



900 MHz Cordless Technology

Analog 900 MHz transmission provides extended range, clearer calls and higher overall performance than conventional cordless telephones.

Dual Keypads with 2-Line Speakerphone

Place and receive calls on both lines using the cordless phone or the base speakerphone and keypad. Easy 2-line installation.

2-Line Digital Answering Machine

28 minutes of high quality digital recording of greetings and messages on both lines. Advanced Message Management™ provides Selective Save & Erase, Instant Access™ and Variable Speed Playback™ of messages for greater control.

2-Line Conference

Converse with additional callers in different locations at the same time.

Message File Storage

Separate location to store important messages, lengthy messages or messages for additional users.

Voice Time/Day/Line Stamp

Announces the time, day and line of each message received.

Remote Operation with Voice Menu

Voice menu provides step-by-step instructions for message retrieval from touchtone and cellular phones.

All & New Message Playback

Allows you to play new messages or all messages on both lines combined.

Separate Message Playback by Line

Incoming messages are separated by Line 1 and Line 2 for playback convenience.

Wall Mountable

Display & Dial

Simultaneous Answering of Both Lines

Voice Assisted Operation
