Re: Request For Withholding From Public Disclosure Proprietary Information

TX FCC ID: ABMELU81A

Dear Sir or Madam,

Electrolux Home Products requests that certain materials submitted with this application to be withheld from public disclosure. This request is made under the provision of Section 0.457(d) of the Commission's Rule and Section 522(b)(4) of the Freedom of Information Act, Trade Secrets.

The Items marked "Confidential" contains detailed schematic diagrams, a list of parts, and a detailed theory of operation submitted to the FCC for review with this application. The information contains proprietary information (trade secrets) regarding the circuit operation and capabilities (schematic and block diagram), which are the result of our extensive investment in research and development. Without the disclosed information, competitive organizations would take considerably more time to assess and develop a workable competitive product. As a result, we believe that disclosure of these company-guarded materials would compromise our leading position in this market.

We therefore formally request that the materials marked "Confidential" be kept strictly confidential and not made available for inspection by any other party, except on a need to know basis for the sole purpose of the certification process.

Sincerely,

John Bauer
Director of Engineering
