RE: Application for Limited Modular Approval Certification for WLAN with FCC ID PD9WM3B2200BG

Dear Sir or Madam:

The following information addresses the requirements to support a limited modular approval as required by the FCC Public Notice DA 00-1407 "Part 15 Unlicensed Modular Transmitter Approval".

1	The modular transmitter has its own RF shielding.
2	The modular transmitter has buffered modulation/data inputs. All inputs to the modules are buffered through the radio circuitry.
3	The modular transmitter has its own power supply regulator. The module will be integrated in the ML850 which also offers power supply regulation.
4	The ML850 has a WLAN antenna that complies with sections 15.203 of the FCC rules. The antenna is permanently attached.
5	The modular transmitter has been tested outside of a host computer and has an FCC ID of PD9WM3B2200BG. It has also been tested internal to the ML850 laptop computer. The module will always be integrated internal to the ML850.
6	The modular transmitter will be labeled as required. The ML850 will also be labeled as required.
7	Operational requirements have been added to the manual (refer to the User's Manual).
8	The ML850 has been classified as mobile. There will be a cautionary statement added to the manual stipulating the 20 cm separation distance (refer to the User's Manual).

If there are any additional questions or if further information is needed, please contact me at your earliest convenience at (847) 538-4968.

Sincerely,

In Re: Motorola, Inc.
FCC ID: ABZ89FT7610
FCC ID: ABZ89FT7614
FCC Part 15C Certification
Request for Confidentiality

To Whom It May Concern:

In accordance with 0.459 of CFR 47, Motorola, Inc. hereby requests confidentiality of the Block Diagrams, Circuit Diagrams, Circuit Description, Parts List, Tune-up Procedure, and Operational Description attachments for the subject application.

These documents contain detailed system and equipment description and related information about the product which Motorola, Inc. considers to be proprietary, confidential, and a custom design and, otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, Motorola, Inc. considers that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,
