Subject: Extended Frequencies Justification for Certification of Transmitter with FCC ID: ABZ99FT3096

Dear Sir/Madam,

This transmitter was designed to operate in following frequency ranges:

| Band / Mode | Frequency ranges | FCC rule parts |
|-------------|------------------|----------------|
| VHF         | 136 – 174 MHz    | 80, 90         |

To aid equipment authorization in other countries which accept the United States FCC Grant for Certification, Motorola Solutions is requesting that the FCC lists the above applicable frequencies range under FCC Rule Parts 22, 74, 80, and 90 on the FCC Grant.

For the FCC's Rule Parts 80 and 90 applications, this radio is used in systems by Federal and Public Safety agencies including Police, Fire, and Emergency Medical Services, etc. as indicated in the table below. Equipment programming is the responsibility of Authorized Service Personnel.

Also, the radio complies with 47 CFR Part 90.203(e) and 80.203(b), in that the operator cannot directly program the transmit frequency using the normally accessible external controls.

Per the FCC KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.
