Attn: Bruce Franca / FCC-OET

Subject: Supplement to Class II Permissive Change for Cordless Telephone System
Panasonic 25 Channel 43/49 MHz Cordless Telephone System
Family Model KX-TC1040 Series / FCC ID: ACJ96NKX-TC1000

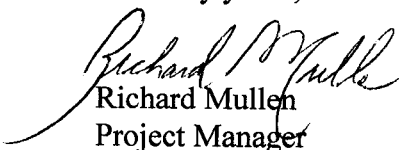

Dear Mr. Franca:

This is in response to your correspondence reference number 9162 dated August 10, 1999 regarding request for FCC ID label and User's Manual for the subject device.

Please be advised the original application reported Cordless Telephone System Family Model KX-TC1000 under the subject FCC ID. This Class II Change application reported similarity Model KX-TC1040 under the same FCC ID. The present Class II Change reported the original base unit contained the RF circuitry on its main printed wiring board and the changed base unit would place the electrical identical RF circuitry onto a separate printed wiring board. The above described is change has no influence upon past filed FCC ID label and User's Manual other than reference to new Model KX-TC1040.

Attached, find copy of past reported FCC ID label and User's Manual with added Model KX-TC1040. Should you have any questions, please contact the undersigned. Thank you for your attention in this matter.

Sincerely yours,

Richard Mullen
Project Manager
