

A detailed photograph of the internal components of a mobile phone. The main circuit board is green and populated with various electronic components, including a large black integrated circuit (IC) labeled 'PNLB2574ZA-WK', several capacitors, and a SIM card slot. A large, circular, silver-colored battery is visible on the right side. The phone's internal structure, including the metal frame and plastic housing, is also visible. The overall layout is compact and organized.
