To: Stan Lyles / FCC Equipment Authorization Branch
Applicant: Matsushita Electric Industrial Co., Ltd.
FCC ID: ACJ9TAWX-CT2030
731 Confirmation Number: EA907095
Date of E-Mail: November 20, 2003
Correspondence Ref. No.: 26014
Type Application: FCC Part 90 Licensed Non-Broadcast Station Transmitter – Held To Face (TNF)
Product Name: Panasonic Transceiver, Model WX-CT2030

1. This product's equipment code should be corrected to state TNF for Non-Broadcast Transmitter – Held To Face. This is in response to your comment that the user manual should be amended to reflect RF exposure warning requirements. This product's range of RF output power specification is 10~30 mW; however, due to the employed antenna loss of -3dBi the maximum measured RF output was 9.1 mW (ERP).

The following marking will be added to the Operating Instructions:

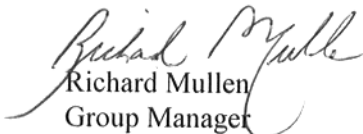

FCC RF Exposure Warning:

This Wireless Communication System complies with FCC radiation exposure limits set forth for an uncontrolled environment; and must be installed and operated in accordance with provided instructions. The Center Module must be installed to maintain a minimum of 20 cm spacing between antenna and all person's body (excluding extremities of hands, wrist and feet). The Order Taker must be used only with provided belt clip.

2. This product operation description should state it will transmit within 468.6125~469.3875 MHz and receive within 463.6125~464.3875 MHz. Refer to the attached master list of product's related specifications.

Should you have any questions, please contact the undersigned. Thank you for your attention in this matter.

Sincerely yours,

Richard Mullen
