

American Telecommunications Certification Body Inc.

6731 Whittier Ave, McLean, VA 22101

January 8, 2002

RE: Matsushita Electric Industrial Co., Ltd

FCC ID: ACJ9TGCF-281

Please take the following under immediate advisement.

To be of value, the RF Exposure Report must always contain the following five pieces of information.

- 1.) Identification of antenna(s)
- 2.) Gain of antenna(s)
- 3.) Maximum power fed to the antenna and at what channel or frequency
- 4.) Resultant EIRP
- 5.) MPE safe distance

Please revise your reports to always include this information.

If you have questions, please let me know.

William H. Graff
President and Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
