

Date: June 7, 2004
Control Numbers: ITPD-04-F011A, -F011B
WLAN Confirm No: EA905393
CDMA Confirm No: EA796110

To: Dianne Poole / FCC Application Processing Branch
FCC ID: ACJ9TGCF-735
Applicant: Matsushita Electric Industrial Co., Ltd.
Correspondence Ref Number: 26897
731 Confirm Number: EA796110
Product Name: Panasonic Personal Computer CF-73 Family
With Installed Intel WLAN + Sierra CDMA

This is in response to your June 1, 2004 request for occupied bandwidth data and conducted spurious emissions data performed on the CDMA portion of the subject product. Today I will upload copy of requested Sierra CDMA test data, which was reported for their application under FCC ID: N7NSB555.

Background Information:

The subject product represents Personal Computer Model CF-73 Family, which will be marketed with: (1) Intel WLAN Module Model WM3B2200BG, which was separately Part 15C certified under FCC ID: PD9WM3B2200BG for operation within 2412~2462 MHz with 0.056 watts conducted RF output power; and (2) Sierra CDMA Module Model SB555, which was separately Parts 22H and 24E certified under FCC ID: N7NSB555 for operation within 824~849 and 1850~1910 MHz with 0.224 watts conducted RF output power. Both these transmitters are installed within CF-73 and will always be marketed under the subject new FCC ID: ACJ9TGCF-735.

Please advise if you have any further questions or comments. Thank you for your co-operation in this matter.

Sincerely yours,

Richard Mullen
