FCC ID: ACJEB3910  
Class II Permissive Change

To Whom It May Concern:

Submitted herewith is a Class II Permissive Change application in compliance with the FCC's permissive change policies. There is no change to the device from the original filing on Feb 25, 2014.

The applicant wishes to submit test reports for HAC Compliance to ANSI C63.19-2011. With discussion with FCC OET Lab, Panasonic will not report this device to the FCC as a HAC-compliant model according to the FCC rules in CFR 20.19, since it is exempt at this time. However, Panasonic will submit test reports showing compliance to ANSI C63.19-2011 for information only, as it is a phone with data modes only, and no voice modes over CMRS.

Should you have any questions about this application, please do not hesitate to call us.

Sincerely,

Randy Ortanez  
President, PCTEST
