SUBJECT: FILING FOR RE-CERTIFICATION - CLASS 2 PERMISSIVE CHANGES, GRANTEE CODE ACL.

We are sending application for models previously granted certification on 1-5-04, under FCC Identifier ACLAP6H61. Please reference copy of the grant included with this letter. The new submission is filed under the Class 2 , permissive changes provision.

The main purpose for re-filing is the application for the use of an alternate magnetron type OM75P1 (21), manufactured by Samsung.

In the re-submission you will find the Application Index and Summary which includes reference to both the previously certified Matsushita magnetron and the alternate Samsung magnetron, and also includes radiated data taken for each of the magnetrons. Changes to the document has been highlighted in bold type. Photos of both magnetrons appear in the exhibit for Internal Photos

In the exhibits for Test Report, Set-up and Configuration, Equipment List and Calib., and Product Test Data you will find only the information pertaining to the measurements for the Samsung magnetron.

Please use this letter as a reference when viewing exhibits for this application. If there are any questions, please contact me.

Sincerely,

Jim Kingsley
Senior Engineer, Product Safety Regulations Dept.
