EMC TEST REPORT (EMISSION)

Project Number : 48889500603 Date of Issue: March 4, 2005

FCC ID : ACLAP6Z01

Model : NN-H275BF

Product : Microwave Oven

Manufacturer : Panasonic Home Appliances Microwave Oven(shanghai) Co., Ltd.

Test results:

Number of samples tested: 1

Positive 1

Negative 0

Total pages including
raw data sheets

8

Measurement Site:

Name : Jiangsu TUV Product Service Ltd
Address : 10 Huaxia M Rd Wuxi Jiangsu, 214100, China
Description of this test facility has been filed with the FCC. (Registration Number 767285)

Jiangsu TUV Product Service Ltd. is a subsidiary company of TUV Product Service, GmbH according to the principles outlined in ISO/IEC 17025

JIANGSU TUV PRODUCT SERVICE LTD reports apply only to the specific samples tested under stated test conditions. Construction of the actual test samples has been documented. It is the manufacturer's responsibility to assure that additional production units of this model are manufactured with identical electrical and mechanical components. The manufacturer/importer is responsible to the Competent Authorities in Europe for any modifications made to the production units which result in non-compliance to the relevant regulations. Jiangsu TUV Product Service Ltd. shall have no liability for any deductions, inferences or generalizations drawn by the client or others from Jiangsu TUV Product Service Ltd. issued reports

This report is the confidential property of the client. As a mutual protection to our clients, the public and ourselves, extracts from the test report shall not be reproduced except in full without our written approval

Project Number: 48889500603

SUMMARY:

The data and results referenced in this document are true and accurate. The reader is cautioned that there may be errors within the calibration limits of the equipment and facilities. The measurement uncertainty was calculated for measurements listed in this test report according to CISPR16-4:2002 "Uncertainty in EMC measurements" and is documented in the Jiangsu TUV Product Service Quality System according to ISO/IEC 17025. Furthermore, component and process variability of devices similar to that tested may result in additional deviation. The manufacturer has the sole responsibility of continued compliance of the device.

The tests were only performed according to FCC Part 18 which were requested by Panasonic Home Appliances Microwave Oven(shanghai) Co., Ltd. Interference Voltage was evaluated (Please find attached raw data)

Sample	Interference Voltage		Result
	Minimum limit Margin	Maximum limit exceeding	
J50222041	8.25dB	--	Pass

Environmental Conditions In The Laboratory:

	<u>Actual</u>
Temperature:	22 °C
Relative Humidity:	56 %
Atmospheric Pressure:	1027 mBar

Description of Device:

Power supply system	AC 120V / 60Hz
Operating Frequency	2450MHz
Output RF Power	1200W
Magnetron Type	Matsushita 2M261
Employed Mode	Turn table
Door Seal Type	Choke----Original
