RE: Tune-up Procedure for NPM-2000, Model # NPM-2000-C310, FCC ID:
AEZNPM-2000-C310

To Whom It May Concern:

The EUT with SANYO Model number NPM-2000-C310 is tuned and calibrated solely during the manufacturing process at the factory. It is neither necessary nor possible for a user to perform such a tune-up procedure.

Sincerely,

A handwritten signature in black ink, appearing to read 'Naoyuki Yoden', is positioned above the printed name and title.
