To Whom It May Concern

Subject: Justification Letter

Applicant: Icom Incorporated
Product: VHF Mobile transceiver
Model: IC-F5061D
FCC ID: AFJ297900

Dear Sir/Madam

Icom understands the following Part 90 VHF spectrum, and would like the FCC to certify the entire 136 to 174 MHz spectrum to include the part 90 extended frequencies. This would be done to facilitate the requirements of agencies covered under NTIA spectrum usage. Government agencies complying with the NTIA instead of the FCC must purchase their equipment from private industry manufacturers who are governed under FCC rules. The conflict in spectrum allocation detracts from the options available to the government agencies for commercial off the shelf equipment which meets their required specifications such as the requirements stated in the Department of Interiors Narrowband Digital Radio Contract.

Part 90 "extended" frequencies.

136 ~ 137 MHz - Part 87
137 ~ 138 MHz - Part 25
144 ~ 148 MHz - Part 97
148 ~ 150.05 MHz - Part 25
156.2475 ~ 157.0375 - Part 80
161.575 ~ 161.625 - Part 22 and 80
161.625 ~ 161.775 - Part 22 and 74

Sincerely,

Icom Incorporated
