

B-8426A

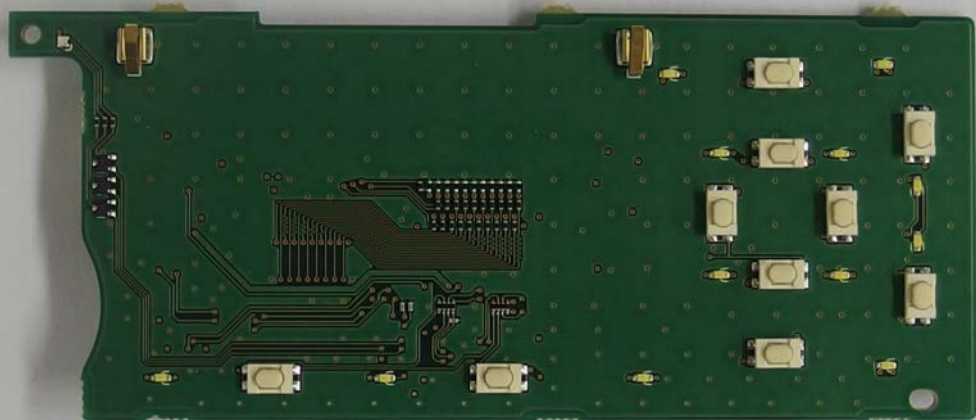

A green printed circuit board (PCB) is shown against a light background. The board is rectangular with rounded corners. On the right side, there is a 26-pin connector with a gold-colored housing. The board is populated with several small, circular components, likely capacitors, arranged in a grid. A label 'B-8426A' is printed in white on the left side of the board. The board has a small tab on the right edge.
