Figure 1 shows the layout of the IC-706 MkII PCB. The layout is a rectangular board with a notch on the right side. It features a variety of components including resistors, capacitors, and integrated circuits. The components are arranged in a symmetrical pattern around a central horizontal axis. The layout is labeled with dimensions and component values.

The diagram illustrates the physical layout of the IC-706 MkII circuit board. It shows the placement of various electronic components such as resistors, capacitors, and integrated circuits. The layout is symmetrical and includes a notch on the right side. Dimensions and component values are indicated throughout the diagram.
