Re: Attestation for Testing and Compliance FCC ID: AIERIT09-150

This equipment has been tested in accordance with the requirements contained in the appropriate Commission regulations. To the best of my knowledge, these tests were performed using measurement procedures consistent with industry or Commission standards and demonstrate that the equipment complies with the appropriate standards.

Each unit manufactured, imported or marketed as defined in the Commission's regulations, will conform to the samples tested within the variations that can be expected due to quantity production and testing on statistical basis.

I further certify that the necessary measurements were made at the facilities of Ritron, Inc. either by myself or a qualified individual under my direct supervision.

Steven Paul Henke
