Information to user

—MODEL NO.: DMH-160BT
FCC ID: AJDK116
IC: 775E-K116

—This device contains licence-exempt transmitter(s)/receiver(s) that complies with Part 15 of FCC Rules and Innovation, Science, and Economic Development Canada licence-exempt RSS(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of this device.

—The Bluetooth antenna cannot be removed (or replaced) by user.

—This equipment complies with FCC/ISED radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the ISED radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE). But it is desirable that it should be installed and operated keeping the radiator at least 20 cm or more away from person's body (excluding extremities: hands, wrists, feet and ankles).

—This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

—Alteration or modifications carried out without appropriate authorization may invalidate the user's right to operate the equipment.

—NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAN ICES-3 B/NMB-3 B

⚠ WARNING

Slots and openings in the cabinet are provided for ventilation to ensure reliable operation of the product, and to protect it from overheating. To prevent fire hazard, the openings should never be blocked or covered with items (such as papers, floor mat, cloths).

⚠ CAUTION

This product is evaluated in moderate and tropical climate condition under the Audio, video and similar electronic apparatus - Safety requirements, IEC 60065.

The Safety of Your Ears is in Your Hands

Get the most out of your equipment by playing it at a safe level—a level that lets the sound come through clearly without annoying blaring or distortion and, most importantly, without affecting your sensitive hearing. Sound can be deceiving.

Over time, your hearing “comfort level” adapts to higher volumes of sound, so what sounds “normal” can actually be loud and harmful to your hearing. Guard against this by setting your equipment at a safe level BEFORE your hearing adapts.

► ESTABLISH A SAFE LEVEL:

- Set your volume control at a low setting.
- Slowly increase the sound until you can hear it comfortably and clearly, without distortion.
- Once you have established a comfortable sound level, set the dial and leave it there.

► BE SURE TO OBSERVE THE FOLLOWING GUIDELINES:

- Do not turn up the volume so high that you can't hear what's around you.
- Use caution or temporarily discontinue use in potentially hazardous situations.
- Do not use headphones while operating a motorized vehicle; the use of headphones may create a traffic hazard and is illegal in many areas.

Important safety information

⚠ WARNING

- Do not attempt to install or service this product by yourself. Installation or servicing of this product by persons without training and experience in electronic equipment and automotive accessories may be dangerous and could expose you to the risk of electric shock, injury or other hazards.
- Do not allow this product to come into contact with liquids. Electrical shock could result. Also, damage to the product, smoke, and overheating could result from contact with liquids.
- If liquid or foreign matter should get inside this product, park your vehicle in a safe place, turn the ignition switch off (ACC OFF) immediately and consult your dealer or the nearest authorized Pioneer Service Station. Do not use this product in this condition because doing so may result in a fire, electric shock, or other failure.
- If you notice smoke, a strange noise or odor from this product, or any other abnormal signs on the LCD screen, turn off the power immediately and consult your dealer or the nearest authorized

DMH-160BT
KB010_MLUC(A5_Horizon)

Pioneer Service Station. Using this product in this condition may result in permanent damage to the system.

- Do not disassemble or modify this product, as there are high-voltage components inside which may cause an electric shock. Be sure to consult your dealer or the nearest authorized Pioneer Service Station for internal inspection, adjustments or repairs.
- Do not ingest the battery, Chemical Burn Hazard.

(The remote control supplied or sold separately with) This product contains a coin/button cell battery. If the coin/button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.

Keep new and used batteries away from children.

If the battery compartment does not close securely, stop using the product and keep it away from children.

If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

Before using this product, be sure to read and fully understand the following safety information:

- Do not operate this product, any applications, or the rear view camera option (if purchased) if doing so will divert your attention in any way from the safe operation of your vehicle. Always observe safe driving rules and follow all existing traffic regulations. If you experience difficulty in operating this product, pull over, park your vehicle in a safe location and apply the parking brake before making the necessary adjustments.
- Never set the volume of this product so high that you cannot hear outside traffic and emergency vehicles.
- To promote safety, certain functions are disabled unless the vehicle is stopped and the parking brake is applied.
- Keep this manual handy as a reference for operating procedures and safety information.
- Do not install this product where it may (i) obstruct the driver's vision, (ii) impair the performance of any of the vehicle's operating systems or safety features, including air bags or hazard lamp buttons or (iii) impair the driver's ability to safely operate the vehicle.
- Please remember to fasten your seat belt at all times while operating your vehicle. If you are ever in an accident, your injuries can be considerably more severe if your seat belt is not properly buckled.
- Never use headphones while driving.
- Rear visibility systems (backup cameras) are required in certain new vehicles sold in the U.S. and Canada. U.S. regulations began according to a two year phase-in on May 1, 2016, and both the U.S. and Canada require that all such vehicles manufactured on or after May 1, 2018 have rear visibility systems. **Owners of vehicles equipped with compliant rear visibility systems should not install or use this product in a way that alters or disables that system's compliance with applicable regulations.** If you are unsure whether your vehicle has a rear visibility system subject to the U.S. or Canadian regulations, please contact the vehicle manufacturer or dealer.

If your vehicle has a compliant backup camera that displays the backup view through

the factory receiver, do not use the Pioneer receiver unless it is connected to and displays the same view as the factory backup camera. Connection to the factory backup camera will require an adaptor, sold separately. Not all vehicles may be able to connect. Please check with a qualified professional installer for installation options specific to your vehicle.

Parking brake interlock

Certain functions (such as viewing of video image and certain touch panel key operations) offered by this product could be dangerous (possibly resulting in serious injury or death) and/or unlawful if used while driving. To prevent such functions from being used while the vehicle is in motion, there is an interlock system that senses when the parking brake is set and when the vehicle is moving. If you attempt to use the functions described above while driving, they will become disabled until you stop the vehicle in a safe place, and (1) apply the parking brake, (2) release the parking brake, and then (3) apply the parking brake again. Please keep the brake pedal pushed down before releasing the parking brake.

To ensure safe driving

WARNING

- **LIGHT GREEN LEAD AT POWER CONNECTOR IS DESIGNED TO DETECT PARKED STATUS AND MUST BE CONNECTED TO THE POWER SUPPLY SIDE OF THE PARKING BRAKE SWITCH. IMPROPER CONNECTION OR USE OF THIS LEAD MAY VIOLATE APPLICABLE LAW AND MAY RESULT IN SERIOUS INJURY OR DAMAGE.**
 - **Do not take any steps to tamper with or disable the parking brake interlock system which is in place for your protection. Tampering with or disabling the parking brake interlock system could result in serious injury or death.**
 - **To avoid the risk of damage and injury and the potential violation of applicable laws, this product is not for use with a video image that is visible to the driver.**
 - In some countries the viewing of video image on a display inside a vehicle even by persons other than the driver may be illegal. Where such regulations apply, they must be obeyed.
- If you attempt to watch video image while driving, the warning "**Viewing of front seat video source while driving is strictly prohibited.**" will appear on the screen. To watch video image on this display, stop the vehicle in a safe place and apply the parking brake. Please keep the brake pedal pushed down before releasing the parking brake.

When using a display connected to V OUT

The video output terminal (**V OUT**) is for connection of a display to enable passengers in the rear seats to watch video images.

WARNING

NEVER install the rear display in a location that enables the driver to watch video images while driving.

To avoid battery exhaustion

Be sure to run the vehicle engine while using this product. Using this product without running the engine can drain the battery.

⚠ WARNING

Do not install this product in a vehicle that does not have an ACC wire or circuitry available.

Rear view camera

With an optional rear view camera, you are able to use this product as an aid to keep an eye on trailers, or backing into a tight parking spot.

⚠ WARNING

- SCREEN IMAGE MAY APPEAR REVERSED.
- USE INPUT ONLY FOR REVERSE OR MIRROR IMAGE REAR VIEW CAMERA. OTHER USE MAY RESULT IN INJURY OR DAMAGE.

⚠ CAUTION

The rear view mode is to use this product as an aid to keep an eye on the trailers, or while backing up. Do not use this function for entertainment purposes.

Handling the USB connector

⚠ CAUTION

- To prevent data loss and damage to the storage device, never remove it from this product while data is being transferred.
- Pioneer cannot guarantee compatibility with all USB mass storage devices and assumes no responsibility for any loss of data on media players, iPhone®, smartphone, or other devices while using this product.
- It may not be recognized properly by this product if a USB device that had been incorrectly disconnected from the computer is connected.

Failure to operate

After-sales service for Pioneer products

Please contact the dealer or distributor from which you purchased the product for after-sales service (including warranty conditions) or any other information. In case the necessary information is not available, please contact the companies listed below.

Please do not ship your product to the companies at the addresses listed below for repair without making advance contact.

- 3 Download owner's manuals, order product catalogs, research new products, and much more.
- 4 Receive notices of software upgrades and software updates.

Protecting the LCD panel and screen

- Do not expose the LCD screen to direct sunlight when this product is not used. This may result in LCD screen malfunction due to the resulting high temperatures.
- When using a cellular phone, keep the antenna of the cellular phone away from the LCD screen to prevent disruption of the video in the form of spots, colored stripes, etc.
- To protect the LCD screen from damage, be sure to touch the touch panel keys only with your finger and do so gently.

Notes on internal memory

- The information will be erased by disconnecting the yellow lead from the battery (or removing the battery itself).
- Some of the settings and recorded contents will not be reset.

About this manual

- This manual uses diagrams of actual screens to describe operations. However, the screens on some units may not match those shown in this manual depending on the model used.
- When an iPhone is connected to the unit, the source name on the unit appears as [iPod]. Please note that this unit only supports iPhone regardless of the source name. For details of iPhone compatibility, refer to Compatible iPhone models (page 30).

Meanings of symbols used in this manual

	This indicates to touch the appropriate soft key on the touch screen.
	This indicates to touch and hold the appropriate soft key on the touch screen.

Parts and controls

Main unit

①		Touch and hold to power off. To power back on, touch any button. TIP If you power the unit off, you can turn off almost all functions. The unit turns on by operating the following functions: • An incoming call is received (only for hands-free phoning via Bluetooth). • A rear view camera image is input when the vehicle is in reverse. • A button on this unit is touched. • The ignition switch is turned off (ACC OFF), then turned on (ACC ON).
②		Touch to display the top menu screen. Touch and hold to mute or unmute.
③		Touch to activate the voice recognition mode such as Siri® when the iPhone is connected to the unit via Bluetooth or USB.
④	VOL (+/-)	
⑤	RESET	Press to reset the microprocessor (page 7).
⑥	LCD screen	

Remote control

The remote control CD-R33 is sold separately.

Basic operation

Resetting the microprocessor

⚠ CAUTION

- Pressing the RESET button resets settings and recorded contents to the factory settings.
 - Do not perform this operation when a device is connected to this product.
 - Some of the settings and recorded contents will not be reset.
- The microprocessor must be reset under the following conditions:
 - Prior to using this product for the first time after installation.
 - If this product fails to operate properly.
 - If there appears to be problems with the operation of the system.

- 1 Turn the ignition switch OFF.
- 2 Press RESET with a pen tip or other pointed tools.
Settings and recorded contents are reset to the factory settings.

Starting up the unit

- 1 Start the engine to boot up the system.
The [Select Program Language] screen appears.

NOTE

From the second time on, the screen shown will differ depending on the previous conditions.

- 2 Touch the language.
 - 3 Touch .
 - 4 Touch [OK].
- The top menu screen appears.

Using the touch panel

You can operate this product by touching the keys on the screen directly with your fingers.

NOTE

To protect the LCD screen from damage, be sure to touch the screen only with your finger gently.

Common touch panel keys

- : Returns to the previous screen.
: Close the screen.

Operating list screens

- ① Touching an item on the list allows you to narrow down the options and proceed to the next operation.
- ② Appears when items cannot be displayed on a single page.
Drag the side bar or the list to view any hidden items.

Operating the time bar

- ① You can change the playback point by dragging the key.
The playback time corresponding to the position of the key is displayed while dragging the key.

English

Top menu screen

①

Source icons

NOTE

The [Connectivity] icon changes to the Apple CarPlay icon or Android Auto icon depending on your mobile device.

TIP

You can display the hidden source icon(s) by swiping left on the screen.

Settings (page 22)

Bluetooth®

Bluetooth connection

- 1 Turn on the Bluetooth function on the device.**
- 2 Touch** .
- 3 Touch**  **then [Bluetooth settings].**
The Bluetooth screen appears.
- 4 Touch [Search].**
- 5 Touch** .
- 6 Touch the Bluetooth device name.**
After the device is successfully registered, a Bluetooth connection is established by the system. Once the connection is established, the device name is displayed on the list.

NOTES

- If five devices are already paired, [Memory Full] is displayed. Delete a paired device first (page 9).
- If your device supports SSP (Secure Simple Pairing), a six-digit number appears on the display of this product. Touch [Yes] to pair the device.
- If you try to connect an unconnected cellular phone while two cellular phones are already connected, the first one of the two connected cellular phones will be disconnected and the unconnected cellular phone will be connected instead.

Bluetooth settings

- 1 Touch** .
- 2 Touch**  **then [Bluetooth settings].**

CAUTION

Never turn this product off and disconnect the device while the Bluetooth setting operation is being processed.

Menu Item	Description
[Connection]	Activate to connect the last connected Bluetooth device automatically. NOTE If two Bluetooth devices were connected the last time, the two devices are connected to this product automatically in the order that they are registered in the device list.
[Auto Answer]	(page 10)
[Search]	Touch  to search for available devices.
[Clear Records]	Touch [Yes] to clear the Bluetooth memory.
[BT Paired Device List]	Display the paired device list. Touch  to delete registered device.
[Device Information]	Displaying the device name and address of this product.

Hands-free phoning

To use this function you need to connect your cellular phone to this product via Bluetooth in advance (page 8).

CAUTION

For your safety, avoid talking on the phone as much as possible while driving.

Making a phone call

- 1 Touch .
- 2 Touch .
- 3 Touch one of the call icons on the phone menu screen.

	The following items are displayed. • Reception status of the current cellular phone • Battery status of the current cellular phone TIP If you connect two cellular phones to this product at the same time, you can switch between the cellular phones using the switch devices key.
	Synchronizes the contacts on this product's phone book with the contacts on your phone manually.

	Using phone book Select a contact from the phone book. Touch the desired name on the list then select the phone number. TIPS • The contacts on your phone will be automatically transferred to this product. • Update the phone book manually. NOTE If two cellular phones are automatically connected to this product with the Bluetooth device auto connect function, the phone book of the second phone is displayed.
	Using call history Make a phone call from the received call , dialed call , or missed call .
	Direct phone number input Touch the number keys to enter the phone number then touch  to make a call.

► To end the call

- 1 Touch .

Receiving a phone call

- 1 Touch  to answer the call.
Touch  to end the call.

TIPS

- Touch  while getting a call waiting, switch to the talking person.
- Touch  while getting a call waiting to reject the call.

NOTE

When two phones are connected at the same time, if an incoming call is received on the second phone while you are talking on the first phone, the dial confirmation screen for the second phone will be displayed.

Voice recognition function (for iPhone)

By connecting your iPhone to this product, you can use the voice recognition function (Siri Eyes Free Mode) on this product.

NOTE

When an iPhone is used, Siri Eyes Free Mode is available with this product.

- 1 Touch .
- 2 Touch  then .
- 3 Touch .

The voice recognition function launches and the voice control screen appears.

TIPS

- You can also launch the voice recognition function by touching  button.
- If two cellular phones are automatically connected to this product with the Bluetooth device auto connect function, the voice recognition function (Siri Eyes Free Mode) will be set on the second phone.
- If you want to use the voice recognition function (Siri Eyes Free Mode) on another connected iPhone, touch  with numbered to the other iPhone. The iPhone that you switch to will be set as the current device.

Phone settings

- 1 Touch .
- 2 Touch  then [Bluetooth settings].

Menu Item	Description
[Auto Answer]	Activate to answer an incoming call automatically.

Adjusting the other party's listening volume

This product can be adjusted to the other party's listening volume.

- 1 Touch .
- 2 Touch  then .
- 3 Touch  to switch between the three volume levels.

Notes for hands-free phoning

►General notes

- Connection to all cellular phones featuring Bluetooth wireless technology is not guaranteed.
- The line-of-sight distance between this product and your cellular phone must be 10 meters or less when sending and receiving voice and data via Bluetooth technology.
- With some cellular phones, the ring sound may not be output from the speakers.
- If private mode is selected on the cellular phone, hands-free phoning may be disabled.

►Registration and connection

- Cellular phone operations vary depending on the type of cellular phone. Refer to the instruction manual that came with your cellular phone for detailed instructions.
- When phone book transfer does not work, disconnect your phone and then perform pairing again from your phone to this product.

►Making and receiving calls

- You may hear a noise in the following situations:
 - When you answer the phone using the button on the phone.
 - When the person on the other end of the line hangs up the phone.
- If the person on the other end of the line cannot hear the conversation due to an echo, decrease the volume level for hands-free phoning.
- With some cellular phones, even after you press the accept button on the cellular phone when a call comes in, hands-free phoning may not be performed.
- The registered name will appear if the phone number is already registered in the phone book. When the same phone number is registered under different names, only the phone number will be displayed.

►The received call and dialed number histories

- You cannot make a call to the entry of an unknown user (no phone number) in the received call history.
- If calls are made by operating your cellular phone, no history data will be recorded in this product.

►Phone book transfers

- If there are more than 1 000 phone book entries on your cellular phone, not all entries may download completely.
- Depending on the phone, this product may not display the phone book correctly.
- If the phone book in the phone contains image data, the phone book may not be transferred correctly.
- Depending on the cellular phone, phone book transfer may not be available.

Bluetooth audio

Before using the Bluetooth audio player, register and connect the device to this product (page 8).

NOTES

- Depending on the Bluetooth audio player connected to this product, the available operations with this product may be limited to the following two levels:
 - A2DP (Advanced Audio Distribution Profile): Only playing back songs on your audio player is possible.
 - AVRCP (Audio/Video Remote Control Profile): Playing back, pausing, selecting songs, etc., are possible.
- Depending on the Bluetooth device connected to this product, the available operations with this product may be limited or differ from the descriptions in this manual.
- While you are listening to songs on your Bluetooth device, refrain from operating the phone function as much as possible. If you try operating, the signal may cause noise for song playback.
- When you are talking on the Bluetooth device connected to this product via Bluetooth, it may pause playback.

- 1 Touch .

- 2 Touch [BT Audio].**
The Bluetooth audio playback screen appears.

Basic operation

	Switches between playback and pause.
	Skips files forward or backward.
	Sets a repeat play range.
	Plays files in random order.

AV source

Supported AV source

- You can play or use the following sources with this product.
- Radio
 - USB
- The following sources can be played back or used by connecting an auxiliary device.
- iPhone®
 - Spotify®
 - Bluetooth® audio
 - SiriusXM® Satellite Radio
 - Camera View
 - AUX

Selecting a source

- 1** Touch .
- 2** Touch the source icon.

TIP
You can display the hidden source icon(s) by swiping left on the screen.

English

Radio

Starting procedure

- 1 Press .
- 2 Touch [Radio].
The Radio screen appears.

Basic operation

	 Recalls the preset channel stored to a key from memory.
	 Stores the current broadcast frequency to a key.
	Selects the FM1, FM2, FM3, AM1 or AM2 band.
	 Performs AS (auto scan) function (page 12).
	 Manual tuning
	 Seek tuning or non stop seek tuning Releasing the key in a few seconds skips to the nearest station from the current frequency. Keep holding the key for long seconds to perform non stop seek tuning.

Dx

Activates/deactivates the local seek mode.

Storing the strongest broadcast frequencies (AS)

The AS (auto scan) function automatically stores the six strongest broadcast frequencies under the preset channel keys [1] to [6].

NOTES

- Storing broadcast frequencies with AS may replace those you have already saved.
- Previously stored broadcast frequencies may remain stored if the number of frequencies stored has not reached the limit.

- 1 Touch  to begin search.
While the message is displayed, the six strongest broadcast frequencies will be stored under the preset channel keys in the order of their signal strength.

Radio settings

- 1 Touch .
- 2 Touch  then [System settings].
The system setting screen appears.
- 3 Touch [Radio settings].

Menu Item	Description
[RDS]	Activate to enable setting [AF], [TA] and [RDS CLOCK TIME].
[AF]	Allow the unit to retune to a different frequency providing the same station.
[RDS CLOCK TIME]	
[Regional]	Limit the reception to the specific regional programs when AF (alternative frequencies search) is selected. (Available only when FM band is selected.)

Compressed files

Plugging/unplugging a USB storage device

You can play compressed audio, compressed video, or still image files stored in an external storage device.

Plugging a USB storage device

- 1 Pull out the plug from the USB port of the USB cable.
- 2 Plug a USB storage device into the USB cable.

NOTES

- This product may not achieve optimum performance with some USB storage devices.
- Connection via a USB hub is not possible.
- A USB cable is required for connection.

①	USB cable
②	USB storage device

Unplugging a USB storage device

- 1 Pull out the USB storage device from the USB cable.

NOTES

- Check that no data is being accessed before pulling out the USB storage device.
- Turn off (ACC OFF) the ignition switch before unplugging the USB storage device.

Starting procedure

- 1 Touch .

- 2 Plug the USB storage device into the USB cable (page 13).
- 3 Touch [USB].
Playback is performed in order of folder numbers. Folders are skipped if they contain no playable files.

Basic operation

Audio source

	Switches between playback and pause.
	Skips files forward or backward.
 	Sets a repeat play range for all files/the current folder/the current file.
	Plays files or does not play in random order.

Selects a file from the list.
Touch a file on the list to playback.

TIPS

- Touching a folder on the list shows its contents. You can play a file on the list by touching it.
- You can switch the following media file types.
 - : Compressed audio files
 - : Compressed video files
 - : Image files

Video source

CAUTION

For safety reasons, video images cannot be viewed while your vehicle is in motion. To view video images, stop in a safe place and apply the parking brake.

Switches between playback and pause.

Sets a repeat play range for all files/the current folder/the current file.

Selects a file from the list.
Touch a file on the list to playback.

TIPS

- Touching a folder on the list shows its contents. You can play a file on the list by touching it.
- You can switch the following media file types.
 - : Compressed audio files
 - : Compressed video files
 - : Image files

Skips files forward or backward.

You can adjust [Brightness]/[Contrast]/[Color] by touching [+]/[-].

Still image source

Switches between playback and pause.

Skips files forward or backward.

Rotates the displayed picture 90° clockwise.

Sets a repeat play range for all files/the current folder.

Plays all files in the current repeat play range or does not play them in random order.

Selects a file from the list.
Touch a file on the list to playback.

TIPS

- Touching a folder on the list shows its contents. You can play a file on the list by touching it.
- You can switch the following media file types.
 - : Compressed audio files
 - : Compressed video files
 - : Image files

iPhone®

NOTE

iPhone may be referred to as iPod in this manual.

Connecting your iPhone

When connecting an iPhone to this product, the settings are automatically configured according to the device to be connected. For details of the compatibility, refer to Compatible iPhone models (page 30).

- 1 **Connect your iPhone.**
 - iPhone via USB or Bluetooth
- 2 **Touch** .
- 3 **Touch [iPod].**

NOTES

- For USB connection, refer to the Installation Manual.
- For Bluetooth connection, see page 8.

Basic operation

Audio source

	Switches between playback and pause.
---	--------------------------------------

 	Skips files forward or backward.
 	Sets a repeat play range for all in the selected list/the current song.
 	Plays songs within the selected list/album randomly.
	Selects a song from the list. Touch the category then the title of the list to playback of the selected list. TIP If you use English as the system language, the alphabet search function is available. Touch the initial search bar to use this function. NOTES • Depending on the generation or version of the iPhone, some functions may not be available. • Only 16 000 songs in the iPhone are available in the list if the iPhone has more than 16 000 songs. Available songs depend on the iPhone.

English

Mirroring

Mirroring lets you enjoy compatible smartphones apps in the car. You can operate Mirroring compatible applications with finger gestures such as tapping, dragging, scrolling, or flicking on the screen of this product.

NOTES

- The supported finger gestures may vary depending on the Mirroring compatible application.
- To use Mirroring, you must first install the Mirroring compatible applications on the iPhone or smartphone.
- Be sure to read Using app-based connected content (page 30) before you perform this operation.

WARNING

Certain uses of the iPhone or smartphone may not be legal while driving in your jurisdiction, so you must be aware of and obey any such restrictions. If in doubt as to a particular function, only perform it while the car is parked. No feature should be used unless it is safe to do so under the driving conditions you are experiencing.

Using Mirroring

Important

- Pioneer is not liable for any issues that may arise from incorrect or flawed app-based content.
- The content and functionality of the supported applications are the responsibility of the App providers.
- In Mirroring, functionality through the product is limited while driving, with available functions determined by the App providers.
- Availability of Mirroring functionality is determined by the App provider, and not determined by Pioneer.
- Mirroring allows access to applications other than those listed that are subject to limitations while driving.

Starting procedure

When connecting an iPhone or a smartphone to this product, the settings are automatically configured according to the device to be connected.

TIPS

- Touch the desired application icon after the Mirroring app is launched.
- If you connect your device to this product while a Mirroring compatible application is already running, the application operation screen will appear on this product.
- The desired application is launched, and the application operation screen appears.

Displays the main menu of the Mirroring source screen.

For iPhone users

System requirement

iOS 10.0 or higher (up to iOS 12.x)

NOTE

iPhone 4s is not available on the Mirroring.

- 1 **Unlock your iPhone and connect it to this product via USB.**
Refer to the Installation Manual.
- 2 Touch .
- 3 Touch [Mirroring].
The Mirroring app is launched.

For smartphone (Android™) users

System requirement

Android 5.0 or higher (up to Android 9.x)

NOTES

- [Android Phone MSC] is activated to use this function (page 25).
- The video playback capability depends on the connected Android device.

- 1 Touch .
- 2 Touch then [Phone Connectivity Settings].
- 3 Touch [Priority of Connectivity] then [Mirroring].
- 4 **Unlock your smartphone and connect it to this product via USB.**
Refer to the Installation Manual.

5 Touch .

6 Touch [Mirroring].
The Mirroring app is launched.

Apple CarPlay™

You can operate iPhone applications with finger gestures such as tapping, dragging, scrolling, or flicking on the screen of this product.

Compatible iPhone models

For details about compatibility of iPhone models, refer to the following website.
<https://www.apple.com/ios/carplay>

NOTE

The compatible finger gestures vary depending on the application for the iPhone.

WARNING

Certain uses of the iPhone may not be legal while driving in your jurisdiction, so you must be aware of and obey any such restrictions. If in doubt as to a particular function, only perform it while the car is parked. No feature should be used unless it is safe to do so under the driving conditions you are experiencing.

Using Apple CarPlay

Important

Apple CarPlay may not be available in your country or region.
For details about Apple CarPlay, visit the following site:
<https://www.apple.com/ios/carplay>

- The content and functionality of the supported applications are the responsibility of the App providers.
- In Apple CarPlay, usage is limited while driving, with availability of functions and content determined by the App providers.
- Apple CarPlay allows access to applications other than those listed that are subject to limitations while driving.
- PIONEER IS NOT RESPONSIBLE AND DISCLAIMS LIABILITY FOR THIRD PARTY (NON-PIONEER) APPS AND CONTENT, INCLUDING WITHOUT LIMITATION ANY INACCURACIES OR INCOMPLETE INFORMATION.

Starting procedure

1 Connect an Apple CarPlay compatible device to this product via USB.

2 Touch .

3 Touch [Apple CarPlay].
The application screen appears.

TIP

You can use Siri function by touching  button once Apple CarPlay is activated.

English

NOTES

- For details on USB connection, refer to the Installation Manual.
- If an Apple CarPlay compatible device has been connected and another screen is displayed, touch [Apple CarPlay] on the top menu screen to display the Application menu screen.
- The Bluetooth connection with the Apple CarPlay compatible device will be terminated automatically if Apple CarPlay is turned on. While Apple CarPlay is turned on, only a Bluetooth audio connection will be possible for devices other than the device connected via Apple CarPlay.
- Hands-free phoning via Bluetooth wireless technology is not available while Apple CarPlay is on. If Apple CarPlay is turned on during a call on a cellular phone other than an Apple CarPlay compatible device, the Bluetooth connection will be terminated after the call ends.

Android Auto™

You can operate Android applications with finger gestures such as tapping, dragging, scrolling, or flicking on the screen of this product.

Compatible Android devices

For details about compatibility of Android models, refer to the following website.
<https://support.google.com/androidauto>

NOTES

- [Android Phone MSC] is activated to use this function (page 25).
- The compatible finger gestures vary depending on the application for the smartphone.

⚠ WARNING

Certain uses of the smartphone may not be legal while driving in your jurisdiction, so you must be aware of and obey any such restrictions. If in doubt as to a particular function, only perform it while the car is parked. No feature should be used unless it is safe to do so under the driving conditions you are experiencing.

Using Android Auto

Important

Android Auto may not be available in your country or region.

For details about Android Auto, please refer to the Google™ support site:

<http://support.google.com/androidauto>

- The content and functionality of the supported applications are the responsibility of the App providers.
- In Android Auto, usage is limited while driving, with availability of functions and content determined by the App providers.
- Android Auto allows access to applications other than those listed that are subject to limitations while driving.
- PIONEER IS NOT RESPONSIBLE AND DISCLAIMS LIABILITY FOR THIRD PARTY (NON-PIONEER) APPS AND CONTENT, INCLUDING WITHOUT LIMITATION ANY INACCURACIES OR INCOMPLETE INFORMATION.

Starting procedure

- 1 Touch .
- 2 Touch  then [Phone Connectivity Settings].
- 3 Touch [Priority of Connectivity] then [Android Auto].
- 4 Connect an Android Auto™ compatible device to this product via USB.

5 Touch .**6** Touch [Android Auto].

The application screen appears.

TIP

You can use voice recognition function by touching  button once Android Auto is activated.

NOTES

- For details on USB connection, refer to the Installation Manual.
- When the device for Android Auto is connected to this unit, the device is also connected via Bluetooth at the same time. If five devices are already paired, the message confirming whether to delete the registered device is displayed. If you want to delete the device, touch [Agree]. If you want to delete other device, touch [Bluetooth settings] and delete the devices manually (page 9).
- If Android Auto is turned on during a call on a cellular phone other than the Android Auto compatible device, the Bluetooth connection will switch to the Android Auto compatible device after the call.

SiriusXM® Satellite Radio

Only SiriusXM® brings you more of what you love to listen to, all in one place. Get over 140 channels, including commercial-free music plus the best sports, news, talk, comedy, and entertainment. Welcome to the world of satellite radio. A SiriusXM Connect Vehicle Tuner and Subscription are required. For more information, visit the website (www.siriusxm.com).

English

Subscribing to the SiriusXM Satellite Radio service

1 Touch then swipe left on the screen.**2** Touch [SiriusXM].

You should be able to tune in to Channel 1. If you cannot get Channel 1, ensure that your SiriusXM Connect Vehicle Tuner is installed correctly.

3 Switch to Channel 0 and check the Radio ID.

The SiriusXM Radio ID can be found by tuning in to Channel 0.
You will need this number to activate your subscription.

NOTE

The SiriusXM Radio ID does not include the letters I, O, S, or F.

4 Activate the service either online or by phone.**TIP**

In the USA, you can activate online or by calling SiriusXM Listener Care:

- Visit the website
www.siriusxm.com/activatenow
- Call SiriusXM Listener Care at
1-866-635-2349

For Canadian subscriptions, please contact:

- Visit the website
www.xmradio.ca
and click on "ACTIVATE RADIO" at the top right corner of the page, or call (1-877-438-9677).

NOTES

- The SiriusXM satellites will send an activation message to your tuner. When the tuner has received the message, [Subscription Updated] is displayed.
- The activation process usually takes 10 to 15 minutes, but it may take up to an hour. Do not turn off this product while the activation message is displayed.

Listening to SiriusXM

- 1 Touch  then swipe left on the screen.
- 2 Touch [SiriusXM].

Basic operation

TIP

[RADIO ID] is displayed when Channel 0 is selected.

Current channel display (Live broadcast mode)

	Selects a channel directly.
	Recalls the preset channel stored to a key from the memory.
	Stores the current channel to a key.
	Selects a band. There are 3 bands and a Featured Favorites. You can store 6 channels per band for a total of 18 presets.
	Performs channel number up/down.
	Performs fast channel number up/down.

Selects a channel from the list.

Select the category name or the list of all channels then touch the desired channel.

TIPS

- If you touch , you can scan each channel in the selected category.
- When there is no category, you can select the channel from [Others].

NOTES

- The types of categories available depend on the types of channels available.
- It may take time to display the channel list depending on the SiriusXM reception condition.

Parental lock

The Parental Control feature allows you to limit access to any SiriusXM channels, including those with mature content. When enabled, the Parental Control feature requires you to enter a passcode to tune to the locked channels. For details, see [Locked Channel] in SiriusXM settings (page 20).

SiriusXM settings

- 1 Touch  then swipe left on the screen.
- 2 Touch [SiriusXM] then touch .

The menu items vary depending on whether SiriusXM is selected as the source.

Menu Item	Description
[Change Passcode]	Edit the passcode. 1 Enter the current passcode and then touch [OK]. 2 Enter the new passcode and then touch [OK].
[Locked Channel]	Enter the current passcode then touch [OK] to set this function (the default passcode is 0000). • To lock the channel, touch the appropriate channel.  appears and the channel is locked. TIP When you touch the locked channel, the channel is unlocked.
[Version]	Displaying the firmware version and the model number, etc.

AUX

You can display the video image output by the device connected to video input.

⚠ CAUTION

For safety reasons, video images cannot be viewed while your vehicle is in motion. To view video images, stop in a safe place and apply the parking brake.

NOTE

A Mini-jack AV cable (sold separately) is required for connection. For details, refer to the Installation Manual.

Starting procedure

- 1 Touch .
- 2 Touch [AUX].
The AUX screen appears.

Basic operation

Camera View

You can display the video image output by the device connected to video or camera input. For details, refer to the Installation Manual.

⚠ CAUTION

For safety reasons, video images cannot be viewed while your vehicle is in motion. To view video images, stop in a safe place and apply the parking brake.

Starting procedure

- 1 Touch .
- 2 Touch [Camera View] for connected camera view.
The video image is displayed on the screen.

Settings

You can adjust various settings in the main menu.

Displaying the setting screen

- 1 Touch .
- 2 Touch .
- 3 Touch one of the following categories, then select the options.
 System settings (page 22)
 Display settings (page 23)
 Audio settings (page 23)
 Bluetooth settings (page 8)
 Camera settings (page 24)
 Phone Connectivity Settings (page 25)

System settings

The menu items vary according to the source.

Menu Item	Description
[Language]	Select the system language. NOTES - If the embedded language and the selected language setting are not the same, the text information may not display properly. - Some characters may not be displayed properly.
[Date&Time]	Set the clock by touching  or . You can operate the following items: Year, month, date, hour, minute. TIPS - You can change the time display format to [12H] or [24H]. - You can change the order of the month/date display format: [dd/mm/yyyy], [mm/dd/yyyy].
[Beep Tone]	Set off to disable the beep sound when the button is touched or the screen is touched.
[SiriusXM settings]	(page 20)
[Radio settings]	(page 12)

Menu Item	Description
[Reset All]	Touch [OK] to restore the settings to the default settings. CAUTION Do not turn off the engine while restoring the settings. NOTES - This setting is available only when you stop your vehicle in a safe place and apply the parking brake. - The source is turned off and the Bluetooth connection is disconnected before the process starts. - Before starting the restore process, disconnect any device that is connected to the USB port. Otherwise, some settings may not be restored correctly.
[About]	Displaying and updating the firmware version. CAUTION - The USB storage device for updating must contain only the correct update file. - Never turn this product off, disconnect the USB storage device while the firmware is being updated. - You can only update the firmware when the vehicle is stopped and the parking brake is engaged. - Download the firmware update files into your computer. - Connect a blank (formatted) USB storage device to your computer then locate the correct update file and copy it onto the USB storage device. - Connect the USB storage device to this product (page 13). - Turn the source off (page 11). - Display the [System settings] screen (page 22). - Touch [About]. - Touch [Update]. Follow the on-screen instructions to finish updating the firmware. NOTES - This product will reset automatically after the firmware update is completed if the update is successful. - If an error message appears on the screen, touch the display and perform the above steps again.
[License]	Displaying the open source license.

Display settings

The menu items vary according to the source.

Menu Item	Description
[Lighting Detect]	Activate to set the dimmer function on automatically when the head lamps of the vehicle are lit.
[Day Dimming Level]	Touch [+]/[-] to adjust the brightness of the display in the day time.
[Night Dimming Level]	Touch [+]/[-] to adjust the brightness of the display in the night time.
[Illumination]	Select an illumination color from the preset list.
[Wallpaper]	Select the wall paper from the preset items in this product or original pictures via the external device. The wall paper can be set from selections for the top menu screen and AV operation screen.
Preset Display	Select the desired preset background display.
	Select the background display image of the connected USB storage device. 1 Connect the USB storage device to this product (page 13). 2 Touch  . 3 Select the desired image. 4 Touch [Apply].
 (custom)	Displays the background display image imported from the USB storage device.
 (off)	Hides the background display.

Audio settings

The menu items vary according to the source. Some of the menu items become unavailable when the volume is set to mute.

Menu Item	Description
[Fader/Balance]	Touch  or  to adjust the front/rear speaker balance. Set [Front] and [Rear] to [0] when using a dual speaker system. Touch  or  to adjust the left/right speaker balance. TIP You can also set the value by dragging the point on the displayed table.

Menu Item	Description
[Cutoff]	
[Subwoofer]	Select enable or disable rear subwoofer output from this product.
[Front HPF]	Adjust the speaker output level of the listening position by touching [+]/[-].
[Rear HPF]	
[Subwoofer LPF]	
[Graphic EQ]	Select or customize the equalizer curve. Select a curve that you want to use as the basis of customizing then touch the frequency that you want to adjust. TIPS - If you make adjustments when a curve [S.Bass (Super Bass)], [Powerful], [Natural], [Vocal], or [Flat] is selected, the equalizer curve settings will be changed to [Custom1] mandatorily. - If you make adjustments when the [Custom2] curve is selected for example, the [Custom2] curve will be updated. [Custom1] and [Custom2] curves can be created common to all sources. - If you trail a finger across the bars of multiple equalizer bands, the equalizer curve settings will be set to the value of the touched point on each bar.
[Volume]	Adjust the volume level by touching [+]/[-].
[Main Volume] [Ring Volume] [Talking Volume] [Navi Volume] [Voice Volume] [TA Volume]	
[Listening Position]	Select a listening position that you want to make as the center of sound effects.
[Off] [Front Left] [Front Right] [Front] [All]	
[Speaker Level]	Adjust the speaker output level of the listening position.
Listening Position*	1 Touch  or  to select the listening position then select the output speaker.
[Off] [Front Left] [Front Right] [Front] [All]	2 Touch  or  to adjust the selected speaker output level.
Types of speaker	NOTE This function is available when [Subwoofer] is set to [On].
[Front Left] [Front Right] [Rear Left] [Rear Right] [Subwoofer]	

Menu Item	Description
[Time Alignment] [On] [Off] Listening Position* [Off] [Front Left] [Front Right] [Front] [All] Types of speaker [Front Left] [Front Right] [Rear Left] [Rear Right] [Subwoofer] Distance [0] to [140]	Select or customize the time alignment settings to reflect the distance between the listener's position and each speaker. You need to measure the distance between the head of the listener and each speaker unit. 1 Touch or to select the listening position then select the alignment speaker. 2 Touch or to input the distance between the selected speaker and listening position. TIP If you touch [TA On], the time alignment is turned off mandatorily. NOTE This function is available only when the listening position setting is set to [Front Left] or [Front Right].
[Loudness] [Off] [Low] [Mid] [High]	Compensates for deficiencies in the low-frequency and high-frequency ranges at low volume.
[Bass Boost] [0] to [6]	Adjust the bass boost level.

* If you change the listening position setting, the output levels of all the speakers will change in conjunction with the setting.

Camera settings

The menu items vary according to the source.

A separately sold rear view camera (e.g. ND-BC8) is required for utilizing the rear view camera function. (For details, consult your dealer.)

►Rear view camera

This product features a function that automatically switches to the full-screen image of the rear view camera installed on your vehicle when the shift lever is in the REVERSE (R) position.

Camera View mode also allows you to check what is behind you while driving.

TIP

The parking assist guidelines can be displayed temporarily on the rear view camera screen by touching the icon at the top left of the screen. The guidelines can be adjusted. For details on how to adjust the guidelines, see [Parking Assist Guide Adjust] (page 25).

►Camera for Camera View mode

Camera View can be displayed at all times. Note that with this setting, the camera image is not resized to fit, and that a portion of what is seen by the camera is not viewable. To display the camera image, touch [Camera View] on the top menu screen (page 8).

NOTE

To set the rear view camera as the camera for Camera View mode, activate [Back-up Camera Input] (page 24).

CAUTION

Pioneer recommends the use of a camera which outputs mirror reversed images, otherwise the screen image may appear reversed.

- Immediately verify whether the display changes to the rear view camera image when the shift lever is moved to REVERSE (R) from another position.

Menu Item	Description
[Back-up Camera Input]	Setting rear view camera activation.
[Camera View] [Normal] [Reverse]	Select the way the screen image of a camera appears.
[Parking Assist Guide]	You can set whether to display the parking assist guidelines on the rear view camera images when backing up your vehicle.

Menu Item	Description
[Parking Assist Guide Adjust]	Adjusting the guidelines by dragging or touching ▲▼/◀▶ on the screen. Touch [Reset] to reset the settings. ⚠ CAUTION - When adjusting the guidelines, park the vehicle in a safe place and apply the parking brake; this setting is available only when the vehicle is parked with the parking brake applied. - Turn the vehicle off before getting out to place the markings. - The range projected by the rear view camera is limited. Also, the vehicle width and distance guidelines displayed on the rear view camera image may differ from the actual vehicle width and distance. (The guidelines are straight lines.) - The image quality may deteriorate depending on the usage environment, such as at night or in dark surroundings. NOTES - Use painter's tape or similar tape to place markings as shown below before setting up the guidelines. - Adjust the guidelines so that they overlay the tape markings as closely as possible. 

Phone Connectivity Settings

Menu Item	Description
[Priority of Connectivity] [Android Auto] [Mirroring]	Select the function that is prioritized when your smartphone (Android) is connected to the unit.
[Android Phone MSC]	Set the USB connection mode for your smartphone (Android) to MSC (Mass Storage Class).

Other functions

Restoring this product to the default settings

You can restore settings or recorded content to the default settings from [Reset All] in the [System settings] menu (page 22).

English

Appendix

Troubleshooting

If you have problems operating this product, refer to this section. The most common problems are listed below, along with likely causes and solutions. If a solution to your problem cannot be found here, contact your dealer or the nearest authorized Pioneer service facility.

Common problems

A black screen is displayed, and operation is not possible using the touch panel keys.

- Power off mode is on.
 - Touch any button on this product to release the mode.

Problems with the AV screen

The screen is covered by a caution message and the video cannot be shown.

- The parking brake lead is not connected or the parking brake is not applied.
 - Connect the parking brake lead correctly, and apply the parking brake.
- The parking brake interlock is activated.
 - Park your vehicle in a safe place and apply the parking brake.

The audio or video skips.

- This product is not firmly secured.
 - Secure this product firmly.

No sounds are produced. The volume level will not rise.

- Cables are not connected correctly.
 - Connect the cables correctly.

The icon  is displayed, and operation is impossible.

- The operation is not compatible with the video configuration.

The picture is stretched, with an incorrect aspect ratio.

- The aspect setting is incorrect for the display.
 - Select the appropriate setting for that image.

iPhone cannot be operated.

- The iPhone is frozen.
 - Reconnect the iPhone with the USB interface cable for iPhone.
 - Update the iPhone software version.
- An error has occurred.
 - Reconnect the iPhone with the USB interface cable for iPhone.
 - Park your vehicle in a safe place, and then turn off the ignition switch (ACC OFF). Subsequently, turn the ignition switch to on (ACC ON) again.
 - Update the iPhone software version.
- Cables are not connected correctly.
 - Connect the cables correctly.

Sound from the iPhone cannot be heard.

- The audio output direction may switch automatically when the Bluetooth and USB connections are used at the same time.
 - Use the iPhone to change the audio output direction.

No back camera image when the vehicle is in reverse.

- The back camera input setting on the receiver is set to Off.
 - Change the back camera setting to On in the settings menu. (Refer to the

System Settings section of this manual to adjust.)

- The camera input may be loose or not connected.
 - Check the connection and make sure the male end of the camera is connected to the brown input on the back of the receiver. (Refer to the installation manual.)
- The reverse lead on the receiver may not be connected to the proper wire at the reverse lamp.
 - Check the connection and make sure that the violet/white lead of the receiver is connected to the lead whose voltage changes when the shift lever is put in reverse. (Refer to the installation manual.)

Black screen displayed when the vehicle is in reverse, with no camera installed.

- Back camera input is set to On.
 - Turn the setting to Off in the settings menu. (Refer to the System Settings section of this manual to adjust.)

Problems with the phone screen

Dialing is impossible because the touch panel keys for dialing are inactive.

- Your phone is out of range for service.
 - Retry after re-entering the range for service.
- The connection between the cellular phone and this product cannot be established.
 - Perform the connection process.
- Of the two cellular phones connected to this product at the same time, if the first phone is dialing, ringing or a call is in progress, dialing cannot be performed on the second phone.
 - When the operation on the first of the two cellular phones is completed, use the switch devices key to switch to the second phone and then dial.

Problems with Application screen

A black screen is displayed.

- While operating an application, the application was ended on the smartphone side.
 - Touch  to display the top menu screen.
- The smartphone OS may be awaiting screen operation.
 - Stop the vehicle in a safe place and check the screen on the smartphone.

The screen is displayed, but operation does not work at all.

- An error has occurred.
 - Park your vehicle in a safe place, and then turn off the ignition switch (ACC OFF). Subsequently, turn the ignition switch to on (ACC ON) again.

The smartphone was not charged.

- Charging stopped because the temperature of the smartphone rose due to prolonged use of the smartphone during charging.
 - Disconnect the smartphone from the cable, and wait until the smartphone cools down.
- More battery power was consumed than was gained from charging.
 - This problem may be resolved by stopping any unnecessary services on the smartphone.

Error messages

When problems occur with this product, an error message appears on the display. Refer to the table below to identify the problem, then take the suggested corrective action. If the error persists, record the error message and contact your

dealer or your nearest Pioneer service center.

Common

AMP Error

- This product fails to operate or the speaker connection is incorrect; the protective circuit is activated.
- Check the speaker connection. If the message fails to disappear even after the engine is switched off/on, contact your dealer or an authorized Pioneer Service Station for assistance.

SiriusXM® Satellite Radio

Check Antenna

- The antenna connection is incorrect.
- Check the antenna connection. If the message fails to disappear even after the engine is switched off/on, contact your dealer or the nearest authorized Pioneer service center for assistance.

Check Tuner

- The SiriusXM Connect Vehicle Tuner connection is incorrect.
- Check the tuner connection and battery voltage. If the message fails to disappear even after the engine is switched off/on, contact your dealer or the nearest authorized Pioneer service center for assistance.

No Signal

- The SiriusXM Connect Vehicle Tuner is having difficulty receiving the SiriusXM satellite signal.
- Verify that your vehicle is outdoors with a clear view of the southern sky.
- Verify that the SiriusXM magnetic mount antenna is mounted on a metal surface on the outside of the vehicle.

- Move the SiriusXM antenna away from any obstructions.

Channel Not Available

- The channel that you have requested is not a valid SiriusXM channel.
- Visit www.siriusxm.com for more information about the SiriusXM channel lineup.

Subscription Updated Press Enter to Continue

- This product has detected a change in your SiriusXM subscription status.
- Touch [Enter] to clear the message.

Channel Not Subscribed. Call SiriusXM to Subscribe.

- The channel that you have requested is not included in your SiriusXM subscription package.
- Check the content of your SiriusXM subscription package.
- In the U.S.A., visit www.siriusxm.com or call 1-866-635-2349 if you have questions about your subscription package or would like to subscribe to this channel.
- In Canada, visit www.siriusxm.ca or call 1-877-438-9677.

Channel Locked Please Enter the Lock Code

- Locked by the radio Parental Control feature.
- Release the channel lock.

Memory Full

- The memory has become full while playback was paused.
- Resume playback.

Memory Nearly Full

- The memory has become nearly full while playback was paused.
- Resume playback.

USB storage device

Error-02-9X/-DX

- Communication failed.
- Turn the ignition switch OFF and back ON.
- Disconnect the USB storage device.
- Change to a different source. Then, return to the USB storage device.

Unplayable File

- There is no playable file in the USB storage device.
- Check that the files in the USB storage device are compatible with this product.
- Security for the connected USB storage device is enabled.
- Follow the USB storage device instructions to disable security.

Skipped

- The connected USB storage device contains DRM protected files.
- The protected files are skipped.

Protect

- All the files on the connected USB storage device are embedded with DRM.
- Replace the USB storage device.

Incompatible USB

- The connected USB storage device is not supported by this product.
- Disconnect your device and replace it with a compatible USB storage device.

Check USB

- The USB connector or USB cable has short-circuited.

- Check that the USB connector or USB cable is not caught in something or damaged.
- The connected USB storage device consumes more than maximum allowable current.
- Disconnect the USB storage device and do not use it. Turn the ignition switch to OFF, then to ACC or ON and then connect a compliant USB storage device.

HUB Error

- The connected USB hub is not supported by this product.
- Directly connect the USB storage device to this product.

No Response

- This product cannot recognize the connected USB storage device.
- Disconnect the device and replace it with another USB storage device.

USB was disconnected for device protection. Do not re-insert this USB memory into the unit. Please restart the unit.

- The USB connector or USB cable has short-circuited.
- Check that the USB connector or USB cable is not caught in something or damaged.
- The connected USB storage device consumes more than maximum allowable current.
- Disconnect the USB storage device and do not use it. Turn the ignition switch to OFF, then to ACC or ON and then connect a compliant USB storage device.
- The USB interface cable for iPhone has short-circuited.
- Confirm that the USB interface cable for iPhone or USB cable is not caught in something or damaged.

Audio Format not supported

- This type of file is not supported on this product.
 – Select a file that can be played.

iPhone**Error-02-6X/-9X/-DX**

- iPhone failure.
 – Disconnect the cable from the iPhone. Once the iPhone's main menu is displayed, reconnect the iPhone and reset it.

Error-02-67

- The iPhone firmware version is old.
 – Update the iPhone version.

Bluetooth**Error-10**

- The power failed for the Bluetooth module of this product.
 – Turn the ignition switch to OFF and then to ON.

If the error message is still displayed after performing the above action, please contact your dealer or an authorized Pioneer Service Station.

Apple CarPlay**Attempting to connect to Apple CarPlay.**

- Communication failed and the system is trying to connect.
 → Wait for a while. Then, perform the actions below if the error message is still displayed.
 – Restart the iPhone.
 – Disconnect the cable from the iPhone, and then connect the iPhone again after a few seconds.
 – Turn the ignition switch to OFF and then to ON.

If the error message is still displayed after performing the above action, please contact your dealer or an authorized Pioneer Service Station.

Android Auto**Android Auto has stopped.**

- The connected device is not compatible with Android Auto.
 – Check if the device is compatible with Android Auto.
 → The startup of Android Auto failed for some reasons.
 – Disconnect the cable from the smartphone, and then connect the smartphone again after a few seconds.
 – Restart the smartphone.
 – Turn the ignition switch to OFF and then to ON.

If the error message is still displayed after performing the above action, please contact your dealer or an authorized Pioneer Service Station.

- The time set in this product is not correct.
 – Check if the time is correctly set.

Bluetooth pairing failed. Please pair your Android phone manually.

- The Bluetooth pairing failed for some reasons.
 – Pair this product with the device manually.

To use Android Auto, please stop your car and follow the instructions on your phone.

- The default settings are displayed on the screen of the Android Auto compatible device or images are not output from the Android Auto compatible device.
 – Park your vehicle in a safe place, and follow the instructions displayed on the screen. If the error message is still

displayed after performing on-screen instructions, please reconnect the device.

Detailed information for playable media**Compatibility****Common notes about the USB storage device**

- Do not leave the USB storage device in any location with high temperatures.
- Depending on the kind of the USB storage device you use, this product may not recognize the storage device or files may not be played back properly.
- The text information of some audio and video files may not be correctly displayed.
- File extensions must be used properly.
- There may be a slight delay when starting playback of files on an USB storage device with complex folder hierarchies.
- Operations may vary depending on the kind of an USB storage device.
- It may not be possible to play some music files from USB because of file characteristics, file format, recorded application, playback environment, storage conditions, and so on.

USB storage device compatibility

- For details about USB storage device compatibility with this product, refer to Specifications (page 31).
- Protocol: bulk
- You cannot connect a USB storage device to this product via a USB hub.
- Partitioned USB storage device is not compatible with this product.
- Firmly secure the USB storage device when driving. Do not let the USB storage device fall onto the floor, where it may

become jammed under the brake or gas pedal.

- There may be a slight delay when starting playback of audio files encoded with image data.
- Some USB storage devices connected to this product may generate noise on the radio.
- Do not connect anything other than the USB storage device.

The sequence of audio files on USB storage device.

For USB storage device, the sequence is different from that of USB storage device.

Handling guidelines and supplemental information

- Copyright protected files cannot be played back.

Media compatibility chart**General**

- Maximum playback time of audio file stored on an USB storage device: 7.5 h (450 minutes)

USB storage device

CODEC FORMAT	MP3, WMA, WAV, AAC, FLAC, AVI, MPEG-PS, MP4, 3GP, MKV, MOV, ASF, FLV, M4V, MPEG-TS
--------------	--

MP3 compatibility

- Ver. 2.x of ID3 tag is prioritized when both Ver. 1.x and Ver. 2.x exist.
- This product is not compatible with the following: MP3i (MP3 interactive), mp3 PRO, m3u playlist

SAMPLING FREQUENCY	8 kHz to 48 kHz
TRANSMISSION RATE	CBR (8 kbps to 320 kbps)/VBR

ID3 TAG	ver.1.0/1.1/2.2/ 2.3/2.4
---------	-----------------------------

WMA compatibility

- This product is not compatible with the following: Windows Media™ Audio 9.2 Professional, Lossless, Voice

SAMPLING FREQUENCY	32 kHz to 48 kHz
--------------------	------------------

TRANSMISSION RATE	CBR (8 kbps to 320 kbps)/VBR
-------------------	------------------------------

WAV compatibility

- The sampling frequency shown in the display may be rounded.

SAMPLING FREQUENCY	16 kHz to 48 kHz
--------------------	------------------

QUANTIZATION BIT RATE	8 bit, 16 bit
-----------------------	---------------

AAC compatibility

- This product plays back AAC files encoded by iTunes.

SAMPLING FREQUENCY	8 kHz to 48 kHz
--------------------	-----------------

TRANSMISSION RATE	CBR (16 kbps to 320 kbps)
-------------------	---------------------------

FLAC compatibility

SAMPLING FREQUENCY	8 kHz to 192 kHz
--------------------	------------------

QUANTIZATION BIT RATE	8 bit, 16 bit, 24 bit
-----------------------	-----------------------

USB storage device

EXTENSION	.avi
-----------	------

MAX RESOLUTION	720 × 576
----------------	-----------

Video files compatibility

- Files may not be played back properly depending on the environment in which the file was created or on the contents of the file.
- This product is not compatible with packet write data transfer.
- This product can recognize up to 22 characters, beginning with the first

character, including extension for the file and folder name. Depending on the display area, this product may try to display them with a reduced font size. However, the maximum number of the characters that you can display varies according to the width of each character, and of the display area.

- Folder selection sequence or other operations may be altered, depending on the encoding or writing software.
- Regardless of the length of blank section between the songs of original recording, compressed audio files play with a short pause between songs.
- Files may not be able to be played back depending on the bit rate.
- The maximum resolution depends on the compatible video codec.

.avi

Compatible video codec	MPEG4, H.264, H.263

AAC

AAC is short for Advanced Audio Coding and refers to an audio compression technology standard used with MPEG-2 and MPEG-4. Several applications can be used to encode AAC files, but file formats and extensions differ depending on the application which is used to encode. This unit plays back AAC files encoded by iTunes.

Detailed information regarding connected iPhone devices

- Pioneer accepts no responsibility for data lost from an iPhone, even if that data is lost while using this product. Please back up your iPhone data regularly.
- Do not leave the iPhone in direct sunlight for extended amounts of time. Extended exposure to direct sunlight can result in iPhone malfunction due to the resulting high temperature.
- Do not leave the iPhone in any location with high temperatures.
- Firmly secure the iPhone when driving. Do not let the iPhone fall onto the floor, where it may become jammed under the brake or gas pedal.
- For details, refer to the iPhone manuals.

iPhone and Lightning®

Use of the Made for Apple badge means that an accessory has been designed to connect specifically to the Apple product(s) identified in the badge, and has been certified by the developer to meet Apple performance

standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.

Please note that the use of this accessory with an Apple product may affect wireless performance. iPhone and Lightning are trademarks of Apple Inc., registered in the U.S. and other countries.

App Store

App Store is a service mark of Apple Inc.

iOS

iOS is a trademark on which Cisco holds the trademark right in the US and certain other countries.

iTunes

iTunes is a trademark of Apple Inc., registered in the U.S. and other countries.

Apple Music

Apple Music is a trademark of Apple Inc., registered in the U.S. and other countries.

Apple CarPlay

Apple CarPlay is a trademark of Apple Inc. Use of the Works with Apple badge means that an accessory has been designed to work specifically with the technology identified in the badge and has been certified by the

developer to meet Apple performance standards.

Siri

Works with Siri through the microphone.

Compatible iPhone models

- iPhone SE (2nd generation)
- iPhone 11
- iPhone 11 Pro
- iPhone 11 Pro Max
- iPhone XS
- iPhone XS Max
- iPhone XR
- iPhone X
- iPhone 8
- iPhone 8 Plus
- iPhone 7
- iPhone 7 Plus
- iPhone SE (1st generation)
- iPhone 6s
- iPhone 6s Plus
- iPhone 6
- iPhone 6 Plus
- iPhone 5s

Depending on the iPhone models, it may not be compatible with some AV sources. For details about iPhone compatibility with this product, refer to the information on our website.

Using app-based connected content

Important

Requirements to access app-based connected content services using this product:

- Latest version of the Pioneer compatible connected content application(s) for the smartphone, available from the service provider, downloaded to your smartphone.

- A current account with the content service provider.
- Smartphone Data Plan.
Note: if the Data Plan for your smartphone does not provide for unlimited data usage, additional charges from your carrier may apply for accessing app-based connected content via 3G, EDGE and/or LTE (4G) networks.
- Connection to the Internet via 3G, EDGE, LTE (4G) or Wi-Fi network.
- Optional Pioneer adapter cable connecting your iPhone to this product.

Limitations:

- Access to app-based connected content will depend on the availability of cellular and/or Wi-Fi network coverage for the purpose of allowing your smartphone to connect to the Internet.
- Service availability may be geographically limited to the region. Consult the connected content service provider for additional information.
- Ability of this product to access connected content is subject to change without notice and could be affected by any of the following: compatibility issues with future firmware versions of smartphone; compatibility issues with future versions of the connected content application(s) for the smartphone; changes to or discontinuation of the connected Content application(s) or service by its provider.
- Pioneer is not liable for any issues that may arise from incorrect or flawed app-based content.
- The content and functionality of the supported applications are the responsibility of the App providers.
- In Mirroring, Apple CarPlay and Android Auto, functionality through the product is limited while driving, with available functions determined by the App providers.

- Availability of Mirroring, Apple CarPlay and Android Auto functionalities is determined by the App provider, and not determined by Pioneer.
- Mirroring, Apple CarPlay and Android Auto allow access to applications other than those listed (subject to limitations while driving), but the extent to which content can be used is determined by the App providers.

Notice regarding video viewing

Remember that use of this system for commercial or public viewing purposes may constitute an infringement on the author's rights as protected by the Copyright Law.

Using the LCD screen correctly**Handling the LCD screen**

- When the LCD screen is subjected to direct sunlight for a long period of time, it will become very hot, resulting in possible damage to the LCD screen. When not using this product, avoid exposing it to direct sunlight as much as possible.
- The LCD screen should be used within the temperature ranges shown in Specifications on page 31.
- Do not use the LCD screen at temperatures higher or lower than the operating temperature range, because the LCD screen may not operate normally and could be damaged.
- The LCD screen is exposed in order to increase its visibility within the vehicle.

Please do not press strongly on it as this may damage it.

- Do not push the LCD screen with excessive force as this may scratch it.
- Never touch the LCD screen with anything besides your finger when operating the touch panel functions. The LCD screen can scratch easily.

Liquid crystal display (LCD) screen

- If the LCD screen is near the vent of an air conditioner, make sure that air from the air conditioner is not blowing on it. Heat from the heater may break the LCD screen, and cool air from the cooler may cause moisture to form inside this product, resulting in possible damage.
- Small black dots or white dots (bright dots) may appear on the LCD screen. These are due to the characteristics of the LCD screen and do not indicate a malfunction.
- The LCD screen will be difficult to see if it is exposed to direct sunlight.
- When using a cellular phone, keep the antenna of the cellular phone away from the LCD screen to prevent disruption of the video in the form of disturbances such as spots or colored stripes.

Maintaining the LCD screen

- When removing dust from or cleaning the LCD screen, first turn this product off and then wipe the screen with a soft dry cloth.
- When wiping the LCD screen, take care not to scratch the surface. Do not use harsh or abrasive chemical cleaners.

LED (light-emitting diode) backlight

A light emitting diode is used inside the display to illuminate the LCD screen.

- At low temperatures, using the LED backlight may increase image lag and degrade the image quality because of the characteristics of the LCD screen. Image quality will improve with an increase in temperature.
- The product lifetime of the LED backlight is more than 10 000 hours. However, it may decrease if used in high temperatures.
- If the LED backlight reaches the end of its product lifetime, the screen will become dimmer and the image will no longer be visible. In that case, please consult your dealer or the nearest authorized Pioneer Service Station.

Specifications**General**

Rated power source:
14.4 V DC (10.8 V to 15.1 V allowable)

Grounding system:

Negative type

Maximum current consumption:
10.0 A

Dimensions (W × H × D):

Chassis (D):

178 mm × 100 mm × 164 mm (7 in. × 3-7/8 in. × 6-1/2 in.)

Nose:

171 mm × 97 mm × 3 mm (6-3/4 in. × 3-7/8 in. × 1/8 in.)

Weight:

1.1 kg (2.4 lbs)

Display

Screen size/aspect ratio:

6.78 inch wide/16:9 (effective display area: 152.4 mm × 80.208 mm) (6 in. × 3-1/8 in.)

Pixels:

1 152 000 (2 400 × 480)

Display method:

TFT Active matrix driving

Color system:

PAL/NTSC/PAL-M/PAL-N/SECAM compatible

Temperature range:

-10 °C to +60 °C (+14 °F to +140 °F)

Audio

Maximum power output:

- 50 W × 4
- 50 W × 2 ch/4 Ω + 70 W × 1 ch/2 Ω (for subwoofer)

Continuous power output:

22 W × 4 (50 Hz to 15 kHz, 5 %THD, 4 Ω LOAD, Both Channels Driven)

Load impedance:

4 Ω (4 Ω to 8 Ω [2 Ω for 1 ch] allowable)

Preout output level (max): 4.0 V

Equalizer (13-Band Graphic Equalizer):

Frequency:
