FCC Letter for Modular Approval

Date: June 28, 2021

Request for Transmitter Modular Approval

Model: WCBN3515A

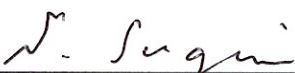

FCC ID: AK8100224111

The modular transmitter complies with the following requirements in FCC Part 15 Section 15.212 for Modular Approval:

Transmitter Module Characteristics:

		Requirement	Comment
1.	Yes	The radio element of the modular transmitter must have its own shielding.	The shielding of the radio portion can be demonstrated in exhibition External Photo.
2.	Yes	The modular transmitter must have buffered modulation/data inputs (if such inputs are provided).	Buffered data inputs stage has been integrated in chip QCA6174A-3.
3.	Yes	The modular transmitter must have its own power supply regulation.	The part number of the power regulator is QCA6174A-3.
4.	Yes	The modular transmitter must comply with the antenna requirements of FCC 15.203 and 15.204(c).	The requirements of antenna connector and spurious emission have been fulfilled. Please reference the exhibition Test Report.
5.	Yes	The modular transmitter must be tested in a stand-alone configuration, i.e. the module must not be inside another device during testing.	Please reference exhibition Test Configuration Photo for the stand-alone test configuration.
6.	Yes	The modular transmitter must be labeled with its own FCC ID. If the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The modular transmitter is labeled with its own FCC ID. As it is not visible when the module is installed into the host device, the label of the host device will bear the wording "Contains FCC ID: AK8100224111".
7.	Yes	The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.	The modular transmitter is compliant with all applicable FCC rules. Detailed instructions are given in the user manual of the module.
8.	Yes	The modular transmitter must comply with any applicable RF exposure requirements.	The modular transmitter complies with RF exposure requirements. Further, refer to the RF exposure exhibits at this CIIPC filling.
