

## Technical Assessment

Dear Sir:

We, undersigned, acknowledge that the WWAN module being installed onto the radio equipment, PRS-950, is electrical and mechanical identical (as defined in section 2.908) to previously approved module, Qualcomm's Gobi2000, whose FCCID is: J9CGOBI2000. Because of the identicalness being used as capability of wireless connection, all the tests involving conducted measurement are believed to be sufficiently representative, so that all conducted measurements are judged unnecessary to be re-performed, and capable of referencing to modular report of original certified modular transmitter.

Applicant: Sony Corporation

The Address of Applicant: 1-7-1 Konan, Minato-ku, Tokyo, 108-0075 Japan

The Product Name of the equipment application: Digital Book Reader

The Mode No. of the equipment application: PRS-950

Report no. of Original Certified Modular Transmitter: 80-VN379-202 Rev. B by QUALCOMM Incorporated.

FCC ID: AK8PRS950

IC Certification No.409B-PRS950

Signature:  Date: 08/16/2010
