

USER'S MANUAL (Draft)

Since Tablet TA-15A is to be assembled in monitors for personal computers, the following statement or equivalent will be printed in User's Manual of the personal computers.

This device complies with Part 15 of the FCC Rules and RSS-210 of the IC standards. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: As for CANADA, the above statement will be mentioned in French, too.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
