TRANSLATION

Warranty for Plantronics Mobile Products Purchased in the US and Canada
• This warranty covers defects in materials and workmanship of Mobile Products manufactured, sold or certified by Plantronics which were purchased and used in the United States and Canada.
• This warranty lasts for one year from the date of purchase of the Products.
• This warranty extends to you only if you are the end user with the original purchase receipt.
• We will, at our option, repair or replace the Products that do not conform to the warranty. We may use functionally equivalent/reconditioned/refurbished/remanufactured/pre-owned or new Products or parts.
• To obtain service in the U.S. contact Plantronics at (800) 544-4660 and in Canada call (800) 540-8363. If you need additional information, please contact our service centers at the numbers provided.
• THIS IS PLANTRONICS' COMPLETE WARRANTY FOR THE PRODUCTS.
• This warranty gives you specific legal rights, and you may also have other rights which vary from state to state or province to province. Please contact your dealer or our service center for the full details of our limited warranty, including items not covered by this limited warranty.
Technical Assistance
The Plantronics Bluetooth Technical Assistance Center (TAC) is ready to assist you at 866-746-4375, or visit the Support section of our website at www.plantronics.com. For accessibility information also call the Bluetooth Technical Assistance Center.

FCC REGISTRATION INFORMATION

FCC Requirements – Part 15

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference; and
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

EXPOSURE TO RADIO FREQUENCY RADIATION

The radiated output power of this internal wireless radio is far below the FCC radio frequency exposure limits. Nevertheless, the wireless radio shall be used as described in the manual.

The internal wireless radio operates within guidelines found in radio frequency safety standards and recommendations, which reflect the consensus of the scientific community.

Plantronics therefore believes the internal wireless radio is safe for use by consumers. The level of energy emitted is far less than the electromagnetic energy emitted by wireless devices such as mobile phones. However, the use of wireless radios may be restricted in some situations or environments, such as aboard airplanes. If you are unsure of restrictions, you are encouraged to ask for authorization before turning on the wireless radio.

NOTE: Modifications not expressly approved by Plantronics, Inc. could void the user's authority to operate the equipment.
