

FCC ID Label Location Statement

FCC ID: AL8-PBF420

We

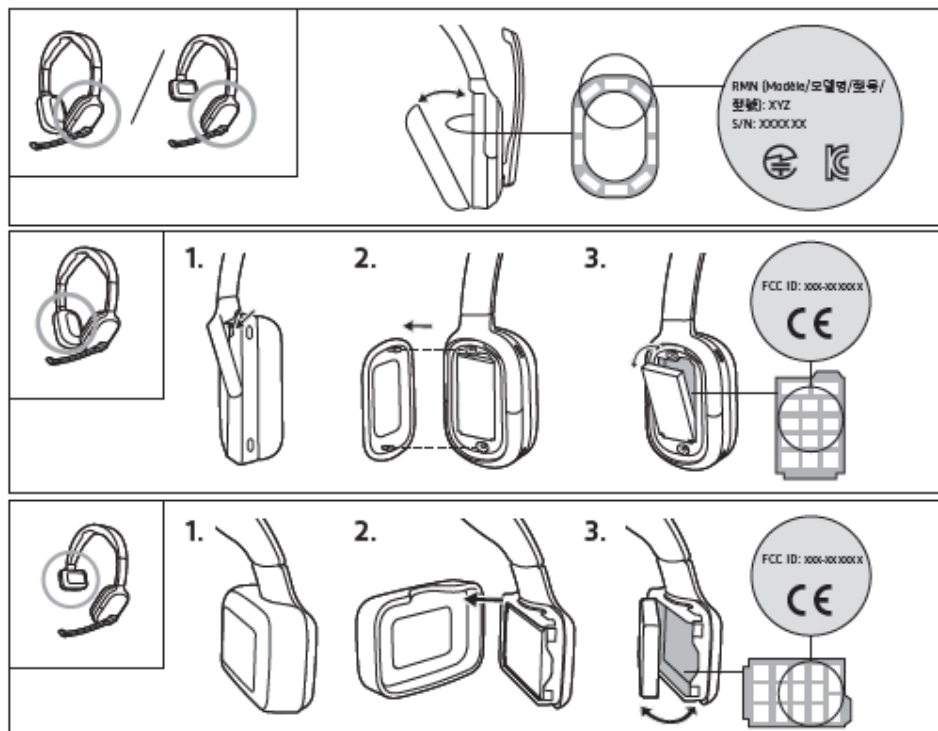

Name: HP Inc.

Address: 1501 Page Mill Road, Palo Alto, CA 94304 USA

Declare that:

We decide to place the FCC ID Label in the battery compartment. Customers will see the following diagrams which are shown at the front page of regulatory information brochure when open the box at the time of purchasing the product. These diagrams are used to instruct customers how to access to regulatory information on product, accordingly customers will find the FCC ID Label when they open the battery cover and remove the battery.

Regulatory Compliance Information

Additionally, On online user guide, in addition to the above diagrams there are texts to instruct customers how to access to regulatory information on product:

Locate the regulatory markings and serial number on your headset

Find the serial number on the primary side of your headset and find regulatory markings on the primary and secondary side. The primary side of your headset has the microphone boom and headset controls.

1. On your headset's primary earcup, gently pull the ear cushion away from the earcup to view the serial number and regulatory markings on the inside of the earcup. The serial number is formatted SN: XXXXXX (typically 6 digits).
TIP: Take a photo with your smartphone for a better view of the serial number.
2. To view more regulatory markings on a stereo headset, remove the outer cover of your secondary earcup to reveal the battery. On a mono headset, remove the T-pad cushion to reveal the battery.
3. Remove the battery to view regulatory markings on the inside of the battery compartment.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Talancon', with a horizontal line underneath.
