To whom it may concern;

Subject: Declaration of similarity between WH300-1 and WH350-1

Dear Sir / Madam,

This is regarding our Application for FCC / IC registration for our DECT UPCS Monaural / Binaural headset. We declare that the similarities between these products are:

Model WH300-1 is a Monaural DECT UPCS headset that shares the same radio, PCBA and mechanical housing of the PCBA as our Model WH350-1 which is a Binaural DECT UPCS headset. The only main differences between these models are the mechanical architecture to allow the addition of another speaker to achieve the Binaural feature, as for the rest of the electrical characteristics they remain identical.

If you require additional information, do not hesitate on contacting me.

Yours Sincerely,

Ismael Talancon
Global Compliance Assistant Manager
