Dear Sir or Madam:

Please accept the FCC Identifier label placement to be located within the battery compartment of the referenced device. The reason for this request is due to the physical size of the device and the limited space available for the label placement on the outside of the housing.

Since the unit operates with user installed batteries, the compartment must be opened prior to the initial operation.

Please contact the undersigned if you have any questions or need any further information.

Regards,

A handwritten signature in black ink that reads "James R. Haynes". The signature is stylized with a large, looped initial "J" and a cursive script for the rest of the name.
