

GENERAL INFORMATION

General Information in accordance with the Federal Communications Commission Rules and Regulations, Part 2.933 - Information for change in the identification of equipment.

	Question	Comments
(1)	The original identification used on the equipment prior to the change in identification.	AMW-UT347
(2)	The date of the original grant of the equipment authorization.	March 11, 1994
(3)	How the equipment bearing the modified identification differs from the original equipment.	● Function for RF power HI/LOW (4W/1W) switch will be removed and changed it for tone switch for receiving audio signal. ● CHARGE jack and External POWER jack will be removed.
(4)	Whether the data previously filed with the Commission (or measured by the Commission in the case of type approved equipment or measured by the applicant in the case of notified equipment) continues to be representative of and applicable to the equipment bearing the changed identification.	● RF power HI/LOW switch will be removed so that unit operates 4W exclusively. Except for 1W operation, measured data previously filed will continuously apply to new model. ● Removing CHARGE jack and External POWER jack will not affect to previously filed data as well.
(5)	Photographs showing the exterior appearance of the equipment, including the operating controls available to the user and the identification label.	Refer to photographs.
