3 Connections

Note: Please ensure your television features HDMI Audio Return Channel (ARC) before using the HDMI connection. Refer to your television owner's manual to activate the feature. If you are not getting audio while using HDMI on your television, please use an optical or analog connection instead.

Note: After you are done with your installation and source connections, please ensure the power switch on the soundbase is on before operating the system.

7 Charging external devices

Note: USB is designed for charging and software updates only. USB will not support direct-connect audio streaming.

8 Remote learning feature

The Cinema Base has the ability to learn the volume control and power infrared (IR) codes of your IR TV remote control.

Get your Cinema Base to control TV Volume (in operational mode) using this simple procedure:

1. Press and hold the top panel 'Surround' key until the system enters learning mode (the LED will blink orange).
2. VOLUME + : Press 'Volume +' on the soundbar and then press 'Volume +' on the TV remote control.
3. VOLUME - : Press 'Volume -' on the soundbar and then press 'Volume -' on the TV remote control.
4. MUTE: Press 'Volume +' and 'Volume -' together on the soundbar and then press 'Mute' on the TV remote control.
5. POWER: Power On your soundbar by pressing the 'Power' key on the soundbar and then pressing the 'Power' key on the TV remote control.

Note: After each TV IR code is successfully learned the blinking orange LED will turn white for 1 second. The Cinema Base is ready to learn the next key after the white LED disappears and the blinking orange LED restarts.

Press and hold the panel 'Surround' key again to exit learning mode (The orange LED will stop blinking).
