ATTN.: Reviewing Engineer

FCC ID: APIJBLT530BT
IC: 6132A-JBLT530BT
HVIN(s)/Model(s): TUNE 530BT

We hereby request C2PC Certification for the above mentioned HVIN(s)/Model(s).

The reason for this request is:

The change under this application as following:

Changed the mainboard circuit:

- a. Capacitor at L5 replaced (1.5 PF→1.2 PF) SMD capacitor.
- b. Inductance at L12, L13 replaced two optional inductance models (MTC201610S→CWCI0805F and ZWP-0805-2R2K) SMD inductance.

For the above change (a), both the RF and SAR have been re-verified and evaluated through testing.

For the above change (b), the product offers two optional inductance models (Model CWCI0805F and Model ZWP-0805-2R2K). Model CWCI0805F is designated as the primary test subject, while inductance model ZWP-0805-2R2K based on engineering judgment that only Radiated Emission (below 1 GHz) and Power Line Conducted Emissions need to test.

Kind regards
