Step 1

Release the back cover
screw to release back
cover

Step 2

Open the back cover
with disassemble tool

Step 3

Separate the back cover
from main device

Step 4

Stick the silicon gaskets
on back cover

Step 5

Install back cover thread
head height not exceed
3mm

Step 6

Route power and network cable from bottom, insert
signboard before mount signboard on back cover

Step 7

- * Mounting and installation
- Mounting Option 1: [VESA mount]
- Supporting VESA standard:
VESA MIS-D75 (75*75mm)
- Supporting screw: M4*4mm
(exclude the mounting plate thickness)
- Mounting Option 2: [Using back cover]
- Supporting screw: Self-tapping screw *3pcs
(exclude the mounting plate thickness)
- * Installation height: <2 m

5

* Simply screw the supplied table stand onto the stand screw hole.

CARE AND WARNING

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Europe – EU Declaration of Conformity

This device complies with the essential requirements of the Radio Equipment Directive (2014/53/EU). The following test methods have been applied in order to prove presumption of conformity with the essential requirements of the Radio Equipment Directive. This equipment is compliant with Class A of EN55032. In a residential environment this equipment may cause radio interference.

Correct Disposal of this product. This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

***FCC & CE RF Radiation Exposure Statement Caution:** To maintain compliance with the FCC & CE's RF exposure guidelines, place the product at least 20cm from near by persons.

The suitable temperature for the Colour Monitor and accessories is 0°C-45°C. Adaptor with ferrite must be used with this equipment to ensure compliance with the Class A FCC limits.
Power Adapter information:
Model No.: ADS-265GP-12 12024E
INPUT: 100-240V~50/60Hz
OUTPUT: 12V=2.0A

- Replacement of a battery with an incorrect type that can defeat a safeguard (for example, in the case of some lithium battery types);
- Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion;
- Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas;
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

CAUTION

Risk of explosion if the battery is replaced by an incorrect type
Wait one-half hour after switching off before handling parts
