

Exhibit 11: RF Exposure/Environmental Evaluation**Section 15.319 (i)****Requirement:**

Unlicensed PCS devices are subject to the radiofrequency radiation exposure requirements specified in §§1.1307(b), 2.1091 and 2.1093 of this chapter, as appropriate. All equipment shall be considered to operate in a "general population/uncontrolled" environment. Applications for equipment authorization of devices operating under this section must contain a statement confirming compliance with these requirements for both fundamental emissions and unwanted emissions. Technical information showing the basis for this statement must be submitted to the Commission upon request.

Demonstration of Compliance:

The base station of the MDW 9040 is classified as a mobile device, which is installed so that a minimum separation distance of 20 centimeters is maintained between the transmitter's radiating structure and the body of the user or nearby persons, and the ERP of the MDW 9040 is less than 3 watts.

The handset of the MDW 9040 is classified as a portable device, which is categorically excluded from routine environmental evaluation for RF exposure.

Therefore, the MDW 9040 is categorically excluded from routine environmental evaluation for RF exposure as per §2.1091(c) and §2.1093(c).
