Gentlemen,

We attest and declare that programming of the RAY53's transmit frequencies can be performed **ONLY** by the manufacturer or by service or maintenance personnel. The operator cannot program transmit frequencies using the equipment's external operation controls. This unit provides for selection of Maritime channels only for which the Maritime station is authorized.

Sincerely,

A handwritten signature in black ink, appearing to read "John P. Stohrer", with a stylized flourish at the end.

John P. Stohrer
